

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Family and Medical Leave Act of 1993, As Amended (FMLA) information collection. More specifically, this ICR is to obtain clearance for statutory notice and certification provisions that assist employees and employers in meeting their FMLA-required third-party notification obligations. The recordkeeping requirements covered by this ICR are necessary in order for the DOL to carry out its statutory obligation under FMLA section 106 (29 U.S.C. 2616) to investigate and ensure employer compliance. FMLA sections 106 and 404 authorize this information collection. See 29 U.S.C. 2616, 2654.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1235-0003.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on May 31, 2018. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on October 20, 2017 (82 FR 48850).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1235-0003. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Permissible Equipment Testing information collection requirements codified in regulations 30 CFR parts 6 through 36 that contain application, testing and inspection, and quality control procedures for the approval of mining equipment or explosives used in both underground and surface coal, metal, and nonmetal mines. Except for parts 6 and 7, the MSHA conducts most of the testing and evaluation of products for a fee paid by the applicant; although, some regulations require the manufacturer to pretest the product. Upon MSHA approval, the manufacturer must ensure the product continues to conform to the specifications and design evaluated and approved by the MSHA. In some instances, as part of the approval process, manufacturers are required to have a quality control or assurance plan. Federal Mine Safety and Health Act of
