

(g)(3) of this AD in accordance with the Accomplishment Instructions, paragraph 3.C., of RR Alert Trent 1000 72-AK060, dated April 13, 2018.

(5) As of the effective date of this AD, before the next flight after each occurrence where engine operation in asymmetric power conditions was sustained for more than 30 minutes at less than 25,000 feet, either resulting from engine power reduction, or from engine in-flight shut-down (IFSD), perform an on-wing borescope inspection of the IPC stage 2 rotor blades and IPC shaft stage 2 dovetail posts on the unaffected engine (no power reduction, no IFSD) installed on the airplane. Use the Accomplishment Instructions, either paragraph 3.B. for engines not involved in ETOPS operations, or paragraphs 3.B. and 3.C. for engines involved in ETOPS operations, of RR Alert NMSB Trent 1000 72-AK060, dated April 13, 2018, to perform this inspection.

(6) If any IPC stage 1 rotor blade, IPC stage 2 rotor blade, or an IPC shaft stage 2 dovetail post is found cracked during any inspection required by this AD, replace the part with a part eligible for installation before further flight.

(h) Definitions

For the purpose of this AD, flight cycles indicated in paragraph (g)(1) of this AD are those accumulated by the engine. FCs indicated in paragraph (g)(2) of this AD are those accumulated by each affected IPC stage 2 rotor blade since first installation on an engine. If FCs accumulated by an affected IPC stage 2 rotor blade are unknown, then engine FCs since new apply.

(i) Credit for Previous Actions

[Docket Number: 140905758-8166-02]

RIN 0607-AA54

Foreign Trade Regulations (FTR): Clarification on the Collection and Confidentiality of Kimberley Process Certificates

AGENCY: Bureau of the Census, Commerce Department.

ACTION: Final rule.

SUMMARY: The Bureau of the Census (Census Bureau) issues this final rule amending its regulations to clarify that the data collected from the Kimberley Process Certificates (KPCs) are collected in compliance with the Clean Diamond Trade Act. In addition, this rule clarifies the submission requirements and permissible uses of the KPCs.

DATES: This final rule is effective July 23, 2018.

FOR FURTHER INFORMATION CONTACT: Dale C. Kelly, Chief, International Trade Management Division, U.S. Census Bureau, 4600 Silver Hill Road, Washington, DC 20233-6010, by phone at 301-763-6937; by fax at 301-763-8835; or by email at dale.c.kelly@census.gov.

SUPPLEMENTARY INFORMATION:

Background

The Census Bureau is amending the Foreign Trade Regulations (FTR) (15 CFR part 30) to clarify that the Kimberley Process Certificates (KPCs) are not collected under Title 13, United States Code (U.S.C.). Instead, the KPCs are collected under the Clean Diamond Trade Act (CDTA) (Pub. L. 108-19, 19 U.S.C. 3901, *et seq.*) and Executive Order 13312, entitled "Implementing the Clean Diamond Trade Act" (68 FR 45151, July 29, 2003). The CDTA and Executive Order 13312 require that the importation into, and exportation from, the United States of any rough diamonds be controlled through the Kimberley Process Certification Scheme (KPCS). The KPCS calls on Participants

(i.e., governments participating in the KPCS), including the United States, to ensure that any shipment of rough diamonds exported to, or imported from, the territory of a Participant be accompanied by a valid KPC, and maintain and publish statistics on the importation and exportation of rough diamonds. The CDTA further provides that the United States should produce statistics on imports and exports of rough diamonds and make these statistics available for analysis by interested parties, including other governments participating in the KPCS.

Consistent with the CDTA, Executive Order 13312, and the KPCS, the Office of Foreign Assets Control's Rough Diamonds Control Regulations (31 CFR part 592) require that an original KPC accompany all shipments of rough diamonds imported into, or exported from, the United States. The FTR requires that Participants provide an original KPC to the Census Bureau for all import and export shipments of rough diamonds. The data collected from the KPCs are separate and distinct from the statistical data collected under Title 13, U.S.C., and are not governed by the confidentiality provisions of that title.

Finally, the U.S. Department of Homeland Security and the U.S. Department of State concur with the revisions to the FTR as required by 13 U.S.C. 302 and Public Law 107–228, div. B, title XIV, section 1404.

Response to Comments

The Census Bureau received two comments on the notice of proposed rulemaking (NPRM) published in the **Federal Register** on September 29, 2017 (82 FR 45528). One of the comments was unrelated to the proposal; however, a summary of the other comment and the Census Bureau's response is provided below.

Comment. The commenter stated that, to help ensure compliance with the law and avoid misunderstandings, the Census Bureau's final rule should make clear, for the benefit of both the public and Department of Commerce employees, that the rule changes do not displace the confidentiality provisions of any statute other than Title 13. The commenter suggested adding the language, "nothing in this subsection affects the applicability of confidentiality provisions of a law other than Title 13, U.S.C.," to §§ 30.4(e) and 30.60 of the FTR.

Response. The Census Bureau has reviewed this comment and agrees that clarifying language can be added to address this concern in § 30.60, because it addresses the confidentiality of KPCs,

including voided KPCs. Therefore, the Note to § 30.60, as amended by this final rule, will read as set out in the regulatory text at the end of the document.

Changes to the Proposed Rule Made by This Final Rule

As discussed above, after consideration of the comment received, the Census Bureau includes in this final rule an additional clarifying sentence at the end of the language in the proposed rule regulatory text for the Note to § 30.60. For clarification, consistent with terminology used in the FTR, the Census Bureau also includes in this final rule the addition of the phrase "by the USPPI or U.S. authorized agent" to the proposed rule regulatory text revising § 30.7(c).

Program Requirements

This final rule amends relevant sections of the FTR in order to clarify requirements, consistent with the CDTA and Executive Order 13312. Specifically, in addition to the clarifying changes described above, this final rule makes the following revisions to the FTR in 15 CFR part 30:

- Revise § 30.1(c) to add the definition "Kimberley Process Certificate" as a technical amendment.
- Revise § 30.1(c) to add the definition "Voided Kimberley Process Certificate" to clarify the term.
- Revise § 30.4 to add paragraph (e) to clarify the filing procedures for voided KPCs and to address that the collection of KPCs is not pursuant to Title 13, United States Code.
- Revise § 30.7(c) to clarify that KPCs must be provided to the Census Bureau immediately after export of the shipment from the United States.
- Revise § 30.50(c) to clarify that KPCs must be provided to the Census Bureau immediately after entry of the shipment in the United States.
- Revise § 30.60 to add a note clarifying that KPCs are not considered Electronic Export Information (EEI) and are not confidential under Title 13, U.S.C.
- Revise § 30.70 to clarify how violations of the CDTA will be enforced.

Rulemaking Requirements

Regulatory Flexibility Act

The Chief Counsel for Regulation of the Department of Commerce certified to the Chief Counsel for Advocacy of the Small Business Administration (SBA) that this rule will not have a significant impact on a substantial number of small entities. Currently, a KPC must be submitted for all imports or exports of

rough diamonds. This rule requires that KPCs be provided to the Census Bureau immediately after either entry in or export from the United States. It replaces the previous requirement to provide the KPC to the Census Bureau in advance.

This action requires that U.S. Principal Party in Interests (USPPIs) or authorized agents in the United States file export information to the Automated Export System (AES) for all shipments where an EEI record is required by the FTR. The SBA's table of size standards indicates that businesses that are the USPPI or authorized agent and file EEI are considered small businesses if they employ less than 500 people. Based on Exhibit 7a of the 2015 *Profile of U.S. Exporting Companies*, the Census Bureau estimates that there are 295,000 USPPIs that are considered small business entities under the SBA definition, and more than 90 percent of those USPPIs use authorized agents to file export information. The Census Bureau is unable to estimate or determine the number of authorized agents.

The Census Bureau does not expect these clarifications of requirements to significantly affect the small businesses that file through the AES. The majority of agents require use of a computer to perform routine tasks, such as filing through the AES. These agents are unlikely to be significantly affected by these clarifications of requirements, as they already possess the necessary technology and equipment to submit the information through the AES. It is not necessary for small businesses to purchase software for this task, because AES *Direct*, a free internet-based system, is provided for the electronic submission of export information. The new requirements will have a minimal impact on response burden. For these reasons, this rule will not have a significant economic impact on a substantial number of small entities.

Executive Orders

This rule has been determined to be not significant for purposes of Executive Order 12866. This proposed rule is not an Executive Order 13771 regulatory action because this proposed rule is not significant under Executive Order 12866. This rule does not contain policies with federalism implications as that term is defined under Executive Order 13132.

Paperwork Reduction Act

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a

collection of information subject to the requirements of the Paperwork Reduction Act (PRA), unless that collection of information displays a current, valid Office of Management and Budget (OMB) control number. This rule contains a collection-of-information subject to the requirements of the PRA (44 U.S.C. 3501 *et seq.*) and that has been approved under OMB control number 0607–0152.
