

III. Final Decision and Order

OSHA staff performed a detailed analysis of ARL's application packet and reviewed other pertinent information. OSHA staff also performed three comprehensive on-site assessments of ARL's testing facilities on February 25–26, 2015, March 30, 2016, and November 28–29, 2017. Based on a review of this evidence, OSHA finds that ARL meets the requirements of 29 CFR 1910.7 for recognition as a NRTL, subject to the specified limitation and conditions outlined in this notice. OSHA, therefore, is proceeding with this final notice to grant recognition to ARL as a NRTL. The following sections set forth the scope of recognition included in ARL's grant of recognition.

A. Standards Requested for Recognition

OSHA limits ARL's scope of recognition to testing and certification of products for demonstration of conformance to the test standards listed in Table 1.

TABLE 1—LIST OF APPROPRIATE TEST STANDARDS FOR INCLUSION IN ARL'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 1995	Heating and Cooling Equipment.
UL 1996	Standard for Electric Duct Heaters.

OSHA's recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, a NRTL's scope of recognition does not include these products.

The American National Standards Institute (ANSI) may approve the test standards listed above as American National Standards. However, for convenience, we may use the designation of the standards-developing organization for the standard as opposed to the ANSI designation. Under the NRTL Program's policy (see OSHA Instruction CPL 1–0.3, Appendix C, paragraph XIV), any NRTL recognized for a particular test standard may use either the proprietary version of the test standard or the ANSI version of that standard. Contact ANSI to determine whether a test standard is currently ANSI-approved.

B. Sites Requested for Recognition

OSHA limits ARL's scope of recognition to include the site at: Applied Research Laboratories of South Florida, LLC, 5371 NW 161 Street, Miami, Florida 33014.

OSHA's recognition of this site limits ARL to performing product testing and certifications only to the test standards for which the site has the proper capability and programs, and for test standards in ARL's scope of recognition. This limitation is consistent with the recognition that OSHA grants to other NRTLs that operate multiple sites.

C. Supplemental Programs

OSHA limits ARL's scope of recognition to include the following supplemental programs:

Program 9: Acceptance of services other than testing or evaluation performed by subcontractors or agents (for calibration services only).

D. Conditions

In addition to those conditions already required by 29 CFR 1910.7, ARL must abide by the following conditions of the recognition:

1. ARL must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as an NRTL, and provide details of the change(s);
 2. In response to a proposed corrective action to the February 2015 on-site assessment, OSHA Proposed and ARL agrees to increased OSHA oversight of its operations including
 - More frequent on-site assessments of ARL facilities;
 - ARL providing OSHA with periodic reports listing the products that have been certified under the NRTL Program; and
 3. Confirmation from ARL that products with ARL Listings (non-NRTL) will undergo re-evaluation and re-testing and/or a thorough documented review of previously gathered evaluation and testing results prior to NRTL certification.
 4. ARL must meet all the terms of its recognition and comply with all OSHA policies pertaining to this recognition; and
 5. ARL must continue to meet the requirements for recognition, including all previously published conditions on ARL's scope of recognition, in all areas for which it has recognition.
- Pursuant to the authority in 29 CFR 1910.7, OSHA hereby grants recognition to ARL as a NRTL, subject to these limitations and conditions specified above.
