A. Overview of Information Collection

Title of Information Collection:

Evaluation of the HUD Youth Homelessness Demonstration Project Evaluation.

OMB Approval Number: 2528—New.

Type of Request: New collection.

Form Number: N/A.

Description of the need for the information and proposed use: The purpose of the Youth Homelessness Demonstration Project Evaluation (YHDE), by the Office of Policy Development and Research, at the U.S. Department of Housing and Urban Development (HUD), is to assess the progress and results of the 2017 YHDP grantee communities in developing and executing a coordinated community approach to preventing and ending youth homelessness. YHDP grant funds help communities to work with youth advisory boards, child welfare agencies, and other community partners to create comprehensive community plans to end youth homelessness; these comprehensive plans are a major focus for the grantees in the first grant year. The grant funding is used for a variety of housing options, including rapid rehousing, permanent supportive housing, and transitional housing, as well as innovative programs. YHDP also will support youth-focused performance measurement and coordinated entry systems. In order to obtain a clear picture of YHDP grant activities, this longitudinal, multi-level evaluation will measure activities and progress of grantees essential to building and sustaining effective community change.

Data collection will occur during two evaluation components with each component including data collection activities and analyses. These components include two waves of a web-based survey of Continuums of Care, and site visits with each demonstration community and the three selected comparison sites.

Component one, a web-based survey of Continuums of Care (CoCs) in the U.S. will be administered twice, in Years 1 and 4 of the evaluation, to all CoC program directors across the country excluding the 10 YHDP grantees and three comparison communities, for a total of 400 survey participants each

wave. These data will provide an understanding of system developments occurring across the country and provide a comparative basis for understanding the demonstration communities. The survey will ask questions about the nature and capacity of the prevention and crisis approaches in place, the housing and service solutions, and the strategies for screening and assessing youth. It will focus on understanding the coordination and collaboration between the homeless assistance system and mainstream service systems, as well as whether and how the system prioritizes and coordinates referrals to the different programs.

The second data collection component is comprised of site visits which will be conducted with each demonstration community and the three comparison non-grantee CoCs. The site visits will include interviews with key informants, with project technical assistance (TA) providers, and youth, as well as focus groups with different subgroups of youth. The site visit guide will describe data collection procedures to be followed to ensure rigor and consistency across site visit teams. The first site visit will be conducted as soon as OMB approval is received to collect information while grantees are developing their coordinated community plans. The second site visit

will be conducted in early 2019 to explore how the plans are being implemented, as well as barriers to or facilitators of change. The third and final site visits will be scheduled after community plans have been in effect for at least one year (mid-2020).

Respondents: Continuum of Care Lead Agency contacts, key community partners, TA provider staff and youth with interaction with CoCs.

Estimated total number of hours needed to prepare the information collection including number of respondents, frequency of response, hours of response, and cost of response time:

As summarized below, we estimated the hourly cost per response using the May 2016 Bureau of Labor Statistics, Occupational Employment Statistics median hourly wages for the labor categories, Social and Community Services Manager (11–9151, \$31.10) and

Social and Community Services Specialist, All Other (21–1099, \$20.73). We used the Social and Community Services Manager rate for the CoC Program Directors and Program Administrators. We used the Social and Community Services Specialist, All Other rate for

YHDP grantee staff, service providers, and TA providers. For the government workers, we used an average of state and local Social and Community Services Specialist, All Other (21–2099, \$23.39). The youth hourly wage is based on the federal minimum wage of \$7.25/hour.

Respondent	Occupation	SOC code	Median hourly wage
CoC Program Directors	Social and Community Services Manager	11–9151	\$31.10.
Lead Agencies	Social and Community Services Specialist, All Others	21–1099	\$20.73.

Marine Mammals; Letters of Authorization To Take Pacific Walrus and Polar Bears in the Beaufort and Chukchi Seas, Alaska

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of issuance.

SUMMARY: In accordance with the Marine Mammal Protection Act of 1972, as amended, the U.S. Fish and Wildlife Service has issued Letters of Authorization for the nonlethal take of polar bears and Pacific walruses incidental to oil and gas industry exploration, development, and production activities in the Beaufort Sea and the adjacent northern coast of Alaska and incidental to oil and gas industry exploration activities in the Chukchi Sea and the adjacent western coast of Alaska. These Letters of Authorization stipulate conditions and methods that minimize impacts to polar bears and Pacific walruses from these activities.

ADDRESSES: These letters of authorization are available electronically at the following location: <http://www.fws.gov/alaska/fisheries/mmm/itr.htm>.

FOR FURTHER INFORMATION CONTACT: Mr. Christopher Putnam at the U.S. Fish and Wildlife Service, Marine Mammals Management Office, 1011 East Tudor Road, MS 341, Anchorage, Alaska 99503; (800) 362-5148 or (907) 786-3844.

SUPPLEMENTARY INFORMATION: On August 5, 2016, the U.S. Fish and Wildlife Service published in the **Federal Register** a final rule (81 FR 52276) establishing regulations that allow us to authorize the nonlethal, incidental, unintentional take of small numbers of polar bears (*Ursus maritimus*) and Pacific walruses (*Odobenus rosmarus divergens*) during year-round oil and gas industry exploration, development, and production activities in the Beaufort Sea and adjacent northern coast of Alaska. The rule established subpart J in part 18 of title 50 of the Code of Federal Regulations (CFR) and is effective through August 5, 2021. The rule prescribed a process under which we issue Letters of Authorization (LOAs) to applicants conducting activities as described under the provisions of the regulations. This rule replaced a similar rule, published on August 3, 2011 (76 FR 47010), which expired on August 3, 2016, and likewise prescribed a process under which we issued such LOAs.

Each LOA stipulates conditions or methods that are specific to the activity and location. Holders of LOAs must use methods and conduct activities in a manner that minimizes to the greatest extent practicable adverse impacts on Pacific walruses and polar bears and their habitat, and on the availability of these marine mammals for subsistence purposes. Intentional take and lethal incidental take are prohibited.

In accordance with section 101(a)(5)(A) of the Marine Mammal Protection Act (MMPA; 16 U.S.C. 1361 *et seq.*) and our regulations at 50 CFR part 18, subpart J, we issued LOAs to each of the following companies in the Beaufort Sea and adjacent northern coast of Alaska:
