

products or services. These collections will allow for ongoing, collaborative, and actionable communications between the Board and its customers and stakeholders. They will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Board's services will be unavailable.

The Board will only process a collection under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- the collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- the collections are non-controversial and do not raise issues of concern to other Federal agencies;
- any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- personally identifiable information is collected only to the extent necessary and is not retained;
- information gathered will be used only internally for general service improvement and program management purposes and not for release outside of the agency;
- information gathered will not be used for the purpose of substantially informing influential policy decisions; and
- information gathered will yield qualitative information, and the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but will not yield data that can be generalized to the overall population. Such data uses would require more rigorous designs than the collections covered by this notice.

As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual

behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

Under the PRA, a federal agency conducting or sponsoring a collection of information must display a currently valid OMB control number. Comments submitted in response to this notice may be made available to the public by the Board. For this reason, please do not include in your comments information of a confidential nature, such as sensitive personal information or proprietary information. If you send an electronic comment (e-file or email), your email address is automatically captured and may be accessed if your comments are made public. Please note that responses to this public comment request containing any routine notice about the confidentiality of the communication will be treated as public comments that may be made available to the public notwithstanding the inclusion of the routine notice.

Number WTO/DS540]

WTO Dispute Settlement Proceeding Regarding United States—Certain Measures Concerning Pangasius Seafood Products From Vietnam

AGENCY: Office of the United States
Trade Representative.

ACTION: Notice with request for
comments.

SUMMARY: On February 22, 2018, Vietnam requested consultations with the United States under the *Marrakesh Agreement Establishing the World Trade Organization* (WTO Agreement) concerning measures that purportedly affect the import of Pangasius seafood products into the United States. That request is available at www.wto.org in a document designated as WT/DS540/1. The Office of the United States Trade Representative (USTR) invites written comments from the public concerning the issues raised in this dispute.

DATES: Although USTR will accept any comments received during the course of the dispute settlement proceedings, you should submit your comment on or before May 20, 2018, to be assured of timely consideration by USTR.

ADDRESSES: USTR strongly prefers electronic submissions made through the Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments in section III below. The docket number is USTR-2018-0009. For alternatives to on-line submissions, please contact Sandy McKinzy at (202) 395-9483.

FOR FURTHER INFORMATION CONTACT: Mayur Patel, Associate General Counsel, at (202) 395-3150.

SUPPLEMENTARY INFORMATION:

I. Background

USTR is providing notice that consultations have been requested pursuant to the WTO *Understanding on Rules and Procedures Governing the Settlement of Disputes* (DSU). If these consultations do not resolve the matter, Vietnam could request that the WTO establish a dispute settlement panel pursuant to the DSU, which would hold its meetings in Geneva Switzerland, and issue a report on its findings.

II. Major Issues Raised by Vietnam

On February 22, 2018, Vietnam requested consultations concerning measures it asserts affect the import, distribution, and sale of Vietnamese Pangasius fish products. Vietnam's request for consultation states that the Pangasius fish that is the subject of its request is sold as "basa," "tra," or "swai." Specifically, Vietnam's consultations request describes the measures at issue in the following terms:

- Section 10016(b) of the Food, Conservation and Energy Act of 2008, Public Law 110-246 (the "2008 Farm Bill"), amending the Federal Meat Inspection Act, 21 U.S.C. 601 *et seq.*
- Section 12106 of the Agriculture Act of 2014, Public Law 113-79 (the "2014 Farm Bill"), amending section 1(w) of the FMIA.
- 9 CFR Subchapter F, parts 530-551, "Mandatory Inspection of the Order Siluriformes and Products Derived from Such Fish" (80 FR 75589) (December 2, 2015) (the "Final Rule").
- The administrative applications of section 10016(b) of the 2008 Farm Bill and section 12106 of the 2014 Farm Bill as implemented by the Final Rule.
- 9 CFR part 541, "Marks, Marketing and Labeling of Products and Containers" (respecting fish and fish products), incorporating requirements in 9 CFR part 317, "Labeling, Marking Devices, and Containers."
- The administrative applications of 9 CFR part 541, including but not limited to those requirements incorporated from 9 CFR part 317 (*see* WT/DS540/1, pp. 2-3).

Vietnam's consultations request states that these measures appear to be inconsistent with the United States obligations under the GATT 1994 and the WTO Agreement on the Application of Sanitary and Phytosanitary Measures (SPS Agreement). Specifically, Vietnam invokes the obligations in Articles 2.2, 2.3, 4.1, 5.1, 5.3, 5.6, 8, and Annex C(1)(a) of the SPS Agreement and Article I:1 of the GATT 1994.

The public file will include non-confidential public comments USTR receives regarding the dispute. If a dispute settlement panel is convened, or in the event of an appeal from a panel, USTR will make the following documents publicly available at www.ustr.gov: the U.S. submissions and any non-confidential summaries of submissions received from other participants in the dispute. If a dispute settlement panel is convened, or in the event of an appeal from a panel, the report of the panel, and, if applicable, the report of the Appellate Body, will also be available on the website of the World Trade Organization, at www.wto.org.
