BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Docket No. CDC-2017-0115]

Availability of Vessel Sanitation Program (VSP) Operations Manual and VSP Construction Guidelines

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice of availability.

SUMMARY: The Centers for Disease Control and Prevention (CDC), located within the Department of Health and Human Services (HHS) announces the availability of the 2018 Vessel Sanitation Program (VSP) Operations Manual and the VSP Construction Guidelines.

DATES: The final documents are available April 27, 2018.

ADDRESSES: The final documents are found in the docket at www.regulations.gov, Docket No. CDC-2017-0115 and at www.cdc.gov/nceh/vsp/.

FOR FURTHER INFORMATION CONTACT: Commander Aimee Treffiletti, Chief, Vessel Sanitation Program, National Center for Environmental Health, Centers for Disease Control and Prevention, 4770 Buford Highway NE, MS F-59, Chamblee, Georgia 30341-3717; phone: 800-323-2132 or 954-356-6650; email: vsp@cdc.gov.

SUPPLEMENTARY INFORMATION: On December 4, 2017, CDC published a notice in the **Federal Register** (82 FR 57272) requesting public comment on the draft versions of the VSP Operations Manual and VSP Construction Guidelines. In these drafts, VSP revised the VSP Operations Manual to reflect new technologies, current food science, disease patterns and trends, and

emerging pathogens. VSP also revised the VSP Construction Guidelines as a framework of consistent construction and design guidelines related to public health, including vessel facilities related to food storage, preparation, and service and water bunkering, storage, disinfection, and distribution.

CDC received five comments on the document from industry and the public. Comments related to document format (highlighted versions), height requirements for handwashing stations, requirements for chlorine and pH monitoring of production water, language in specific sections of the Operations Manual, and a general comment about the effectiveness of the program.

In response to the comments, CDC has provided highlighted versions of the 2018 Operations Manual and Construction Guidelines and included requirements for handwashing station height and chlorine and pH monitoring. Regarding the comment suggesting language changes, CDC developed the draft 2018 Operations Manual through a cooperative change request system with industry. In 2015, CDC provided change request forms and instructions to industry partners, then held in-person and web-based meetings with partners over 2 years to review the change requests they submitted. Proposed substantive changes would need to be accepted through the same process before CDC could consider including them in the draft 2018 Operations Manual. CDC took no action in response to the general comment about the program being ineffective. CDC carefully reviewed and considered all comments in development of the final documents.

Dated: April 23, 2018.

Sandra Cashman,

Executive Secretary, Centers for Disease Control and Prevention.

This notice sets out a summary of the use and burden associated with the following information collections. More detailed information can be found in each collection's supporting statement and associated materials (see **ADDRESSES**).

CMS-838 Medicare Credit Balance Reporting Requirements

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collection

1. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Medicare Credit Balance Reporting Requirements; *Use:* Quarterly credit balance reporting is needed to monitor and control the identification and timely collection of improper payments. Credit balances are mainly attributable to provider billing practices and cannot be eliminated by program functions; they will continue to occur. The OIG issued a Management Advisory Report (MAR) on their extended review of credit balances (See Attachment). They state that approximately 90 percent of credit balances result from providers: (1) Billing Medicare and a private insurer for the same service, (2) submitting duplicate billings for services in a manner which cannot be detected by system edits, and (3) billing for services not performed. The MAR recommends that CMS continue its plan of recovery by requiring hospitals to report Medicare credit balances to contractors on a quarterly basis. *Form Number:* CMS-838 (OMB control number: 0938-0600); *Frequency:* Quarterly; *Affected Public:* Private sector (Business or other For-profits); *Number of Respondents:* 52,582; *Total Annual Responses:*
