

While the decision to use separate questions means the final content design announced here differs from what was proposed in the previous notice, the possibility of using separate questions for race and ethnicity and its effect on the prototype file design was addressed in that notice. Using separate questions follows the most current race and ethnicity collection guidance set by the Office of Management and Budget, which remains unchanged since 1997.

In accordance with the provisions of Title 13, U.S.C., Section 141(c), and on behalf of the Secretary of Commerce, the U.S. Census Bureau Director previously requested comments on the proposed content of the required population counts being produced as part of Phase 3 of the 2020 Census Redistricting Data Program.

The proposed content stated that should the Census Bureau use separate questions on race and ethnicity, then the prototype file would revert to the same design as that used for the 2010 Census. In addition, the proposed content stated that regardless of whether a separate or combined question format is used in the 2020 Census, a group quarters table will be added to assist those states that reallocate populations before redistricting. This table will include the group quarters categories of: Institutionalized populations (correctional facilities for adults, juvenile facilities, nursing facilities/skilled nursing facilities, and other institutional facilities) and noninstitutionalized populations (college/university student housing, military quarters, and other non-institutionalized facilities). The group quarters table will include state, county, county subdivision, voting district, tract, and block geographic levels for the total population in the group quarters count. Thus, the final design of the Prototype 2020 Census Redistricting Data File will be the same design as that used for the 2010 Census Redistricting Data File, with the addition of a group quarters table.

A schematic of the tables planned for the Prototype 2020 Census Redistricting File is available at the Census Bureau's FTP site at: https://www2.census.gov/programs-surveys/decennial/rdo/about/2020-census-program/Phase3/Phase3_prototype_schematic_final.pdf.
