

applicant in carrying out a previous award, such as the applicant's use of funds, achievement of project objectives, and compliance with grant conditions. The Secretary may also consider whether the applicant failed to submit a timely performance report or submitted a report of unacceptable quality.

In addition, in making a competitive grant award, the Secretary requires various assurances, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

3. *Risk Assessment and Specific Conditions*: Consistent with 2 CFR 200.205, before awarding grants under this competition the Department conducts a review of the risks posed by applicants. Under 2 CFR 3474.10, the Secretary may impose specific conditions and, in appropriate circumstances, high-risk conditions on a grant if the applicant or grantee is not financially stable; has a history of unsatisfactory performance; has a financial or other management system that does not meet the standards in 2 CFR part 200, subpart D; has not fulfilled the conditions of a prior grant; or is otherwise not responsible.

4. *Integrity and Performance System*: If you are selected under this competition to receive an award that over the course of the project period may exceed the simplified acquisition threshold (currently \$150,000), under 2 CFR 200.205(a)(2) we must make a judgment about your integrity, business ethics, and record of performance under Federal awards—that is, the risk posed by you as an applicant—before we make an award. In doing so, we must consider any information about you that is in the integrity and performance system (currently referred to as the Federal Awardee Performance and Integrity Information System (FAPIIS)), accessible through SAM. You may review and comment on any information about yourself that a Federal agency previously entered and that is currently in FAPIIS.

5. *Improper Payments—Additional Reporting*: The Bipartisan Budget Act of 2018 designates this program to be “susceptible to significant improper payments” for purposes of the Improper Payments Information Act of 2002 (31 U.S.C. 3321 note). See Public Law 115–123, the “Bipartisan Budget Act of 2018,” Division B, Subdivision 1, Title XII, § 21208(a), Feb. 9, 2018; 132 Stat. 108. Grantees will be required to undertake significant additional reporting as we implement plans to

identify and reduce improper payments. We will provide additional information after we make awards.

VI. Award Administration Information

1. *Award Notices*: If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN); or we may send you an email containing a link to access an electronic version of your GAN. We also may notify you informally.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements*: We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting*: (a) If you apply for a grant, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

(c) Under 34 CFR 75.250(b), the Secretary may provide a grantee with additional funding for data collection analysis and reporting. In this case the Secretary establishes a data collection period.

Abstract: ENERGY STAR® is a voluntary energy efficiency labeling and public outreach program aimed at forming public-private partnerships that prevent air pollution rather than control it after its creation. ENERGY STAR's new construction programs promote cost-effective, whole house energy efficiency that is independently verified by third party professionals. ENERGY STAR also promotes cost-effective energy efficiency improvements in existing homes through its ENERGY STAR Verified HVAC Installation program. Participation in the ENERGY STAR program is voluntary and included the following activities:

Joining the ENERGY STAR Program and Related Activities: An organization interested in joining ENERGY STAR as a partner is asked to complete and submit a partnership agreement. Partners agree to undertake efforts such as educating their staff and the public about the partnership, developing and implementing a plan to improve energy performance in homes, and highlighting achievements utilizing the ENERGY STAR label.

Verification of ENERGY STAR Guidelines: The verification process for site-built homes involves the home builder, the third-party verification organization (Home Energy Rating Providers and Home Energy Raters) and the HVAC contractor, which complete four checklists as part of the verification process. The verification process for multifamily high-rise units involves the developer submitting information both pre-construction and post-construction to a third-party Multifamily High Rise Review Organization to ensure that program prerequisites and energy conservation measures are properly installed and meet ENERGY STAR requirements. In addition, plants producing manufactured homes undergo a certification process to ensure that they can consistently produce and install homes that meet ENERGY STAR guidelines. Also, under ENERGY STAR's Verified HVAC Installation program, local program sponsors promote the installation of HVAC systems in homes to meet ENERGY
