Fisheries of the Northeastern United States; Atlantic Sea Scallop Fishery; 2018 Closure of the Northern Gulf of Maine Scallop Management Area

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; closure.

summary: NMFS announces the closure of the Northern Gulf of Maine Scallop Management Area for the remainder of the 2018 fishing year for Limited Access General Category vessels. Vessels subject to this closure may not fish for, possess, or land scallops in or from the Northern Gulf of Maine Scallop Management Area through March 31, 2019. Regulations require this action once NMFS projects that 100 percent of the Limited Access General Category 2018 total allowable catch for the Northern Gulf of Maine Scallop Management Area will be harvested.

**DATES:** Effective 0001 hr local time, May 2, 2018, through March 31, 2019.

#### FOR FURTHER INFORMATION CONTACT:

Shannah Jaburek, Fishery Management Specialist, (978) 282–8456.

supplementary information: The reader can find regulations governing fishing activity in the Northern Gulf of Maine (NGOM) Scallop Management Area in 50 CFR 648.54 and 648.62. These regulations authorize vessels issued a valid federal scallop permit to fish in the NGOM Scallop Management Area under specific conditions, including a total allowable catch (TAC) of 135,000 lb (61,235 kg) for the Limited Access

General Category (LAGC) fleet for the 2018 fishing year, and a State Waters Exemption Program for the State of Maine and Commonwealth of Massachusetts. Section 648.62(b)(2) requires the NGOM Scallop Management Area to be closed to scallop vessels issued federal LAGC scallop permits, except as provided below, for the remainder of the fishing year once the NMFS Greater Atlantic Regional Administrator determines that the LAGC TAC for the fishing year is projected to be harvested. Any vessel that holds a federal NGOM (category LAGC B) or Individual Fishing Quota (IFQ) (LAGC A) permit may continue to fish in the Maine or Massachusetts state waters portion of the NGOM Scallop Management Area under the State Waters Exemption Program found in § 648.54 provided it has a valid Maine or Massachusetts state scallop permit and fishes in that states respective waters only.

Based on trip declarations by federally permitted LAGC scallop vessels fishing in the NGOM Scallop Management Area and analysis of fishing effort, we project that the 2018 LAGC TAC will be harvested as of May 2, 2018. Therefore, in accordance with § 648.62(b)(2), the NGOM Scallop Management Area is closed to all federally permitted LAGC scallop vessels as of May 2, 2018. As of this date, no vessel issued a federal LAGC scallop permit may fish for, possess, or land scallops in or from the NGOM Scallop Management Area after 0001 local time, May 2, 2018, unless the vessel is fishing exclusively in state waters and is participating in an approved state waters exemption program as specified in § 648.54. Any federally permitted LAGC scallop vessel that has declared into the NGOM Scallop Management Area, complied with all trip notification and observer requirements, and crossed the VMS demarcation line on the way to the area before 0001, May 2, 2018, may complete its trip and land scallops. This closure is in effect until the end of the 2018 scallop fishing year, through March 31, 2019. This closure does not apply to the Limited Access (LA) scallop fleet, which was allocated a separate TAC of 65,000 lb (29, 484 kg) for the 2018 fishing year under Framework Adjustment 29 to the Atlantic Sea Scallop Fishery Management Plan. Vessels that are participating in the 2018 scallop Research Set-Aside Program and have been issued letters of authorization to conduct compensation fishing activities will harvest the 2018 LA TAC.
