Notice of Document Labelling Guidance for Documents Submitted to or Filed With the Commission or Commission Staff

Take notice that, pursuant to National Archives and Records Administration procedures for appropriate handling of documents (81 FR 63323 (Sept. 14, 2016)), the Federal Energy Regulatory Commission (Commission) will follow the Information Governance Policy and Guidelines for the Protection of Sensitive Information requirements as described in 18 CFR 388.112 and 388.113. As a result, every submission or filing with the Commission or Commission staff that contains sensitive material (as described below) should be labeled controlled unclassified information (CUI). The documents described below should be labeled as follows:

Documents containing Critical Energy/Electric Infrastructure Information (CEII), see 18 CFR 388.113, should include in a top center header of each page of the document the following text: CUI//CEII.

Documents containing information that section 388.112 of the Commission's regulations, 18 CFR 388.112, recognizes as privileged, and documents containing information within the scope of protective orders and agreements in Commission proceedings, should include in a top center header of each page of the document the following text: CUI//PRIV.

Documents containing multiple information types, should reference each

information type in a top center header of each page of the document in the following format: CUI//[Information Type]/[Additional Information Type], e.g., CUI//CEII/PRIV.

For information that is CEII, filers are reminded that they must clearly segregate those portions of the documents that contain CEII, and indicate how long the CEII label should apply (not to exceed five years unless redesignated by the CEII Coordinator). See Fixing America's Surface Transportation Act, Public Law 114-94, 61,003, 129 Stat. 1312, 1773-1779 (2015); see also 18 CFR 388.113(d)(1)(i-ii).

For information that is privileged or within the scope of a protective order or agreement, filers are reminded that they also need to clearly identify within the document those specific portions of the document (i.e., lines or individual words or numbers)—containing such material. See 18 CFR 388.112(b).

This notice supersedes and clarifies an earlier notice issued April 14, 2017. (See *Notice of Document Labelling Guidance for Documents Submitted to or Filed with the Commission or Commission Staff, April 14, 2017*)

Dated: May 3, 2018.

Federal Energy Regulatory Commission

[Docket Nos. CP18-102-000 & CP18-103-000]

Notice of Intent to Prepare an Environmental Assessment for the Proposed Cheyenne Connector Pipeline and Cheyenne Hub Enhancement Projects and Request for Comments On Environmental Issues: Cheyenne Connector, LLC; Rockies Express Pipeline LLC

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the construction and operation of facilities by Cheyenne Connector, LLC and Rockies Express Pipeline LLC ("applicants") in Weld County, Colorado. The Commission will use this EA in its decision-making process to determine whether the applicants' projects are in the public convenience and necessity. According to the applicants, the proposed projects are

being developed to work in tandem to deliver natural gas produced in Weld County to the Cheyenne Hub; therefore, the Commission is evaluating these two projects within a single EA.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the projects. You can make a difference by providing us with your specific comments or concerns about the projects. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the EA. To ensure that your comments are timely and properly recorded, please send your comments so that the Commission receives them in Washington, DC on or before June 4, 2018.

If you sent comments on either of these projects to the Commission before the opening of this docket on March 5, 2018, you will need to file those comments in the appropriate docket number (i.e., CP18-102-000 and/or CP18-103-000) to ensure they are considered as part of this proceeding.

This notice is being sent to the Commission's current environmental mailing list for the projects. State and local government representatives should notify their constituents of these proposed projects and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves these projects, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

The applicants provided landowners with a fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is also available for viewing on the FERC website (www.ferc.gov).

Public Participation

For your convenience, there are three methods you can use to submit your comments to the Commission. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502-8258 or FercOnlineSupport@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the *eComment* feature on the Commission's website (www.ferc.gov) under the link to *Documents and Filings*. This is an easy method for submitting brief, text-only comments on a project;

(2) You can file your comments electronically by using the *eFiling* feature on the Commission's website (www.ferc.gov) under the link to *Documents and Filings*. With *eFiling*, you can provide comments in a variety of formats by attaching them as a file with your submission. New *eFiling* users must first create an account by clicking on "eRegister." If you are filing a comment on a particular project, please select "Comment on a Filing" as the filing type; or

(3) You can file a paper copy of your comments by mailing them to the following address. Be sure to reference the appropriate docket number of concern (either CP18-102-000 or CP18-103-000) with your submission: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426.

Please note this is not your only public input opportunity; refer to the review process flow chart in appendix 1.¹

Summary of the Proposed Projects

The applicants propose to construct and operate new natural gas pipeline, metering, and compression facilities in Weld County, Colorado. The Cheyenne Connector Pipeline Project (Docket No. CP18-102-000) would transport northward about 600,000 dekatherms per day of natural gas from natural gas processing plants to a delivery interconnect with Rockies Express Pipeline LLC (Rockies Express) at the Cheyenne Hub. The Cheyenne Hub Enhancement Project (Docket No. CP18-
