

SUPPLEMENTARY INFORMATION: This document announces that, on May 1, 2018, OMB approved, for a period of three years, the information collection requirements relating to the network change disclosure rules contained in the Commission's Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment Report and Order, Declaratory Ruling, and Further Notice of Proposed Rulemaking, FCC 17–154, published at 82 FR 61453, December 28, 2017.

The OMB Control Number is 3060–0741. The Commission publishes this document as an announcement of the effective date of the rules. If you have any comments on the burden estimates listed below, or how the Commission can improve the collections and reduce any burdens caused thereby, please contact Nicole Ongele, Federal Communications Commission, Room 1–A620, 445 12th Street SW, Washington, DC 20554. Please include the OMB Control Number, 3060–0741, in your correspondence. The Commission will also accept your comments via email at PRA@fcc.gov.

To request materials in accessible formats for people with disabilities (Braille, large print, electronic files, audio format), send an email to fcc504@fcc.gov or call the Consumer and Governmental Affairs Bureau at (202) 418–0530 (voice), (202) 418–0432 (TTY).

Synopsis

As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), the FCC is notifying the public that it received final OMB approval on May 1, 2018, for the information collection requirements contained in the modifications to the Commission's rules in 47 CFR part 51. Under 5 CFR part 1320, an agency may not conduct or sponsor a collection of information unless it displays a current, valid OMB Control Number.

No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a current, valid OMB Control Number. The OMB Control Number is 3060–0741.

The foregoing notice is required by the Paperwork Reduction Act of 1995, Public Law 104–13, October 1, 1995, and 44 U.S.C. 3507.

The total annual reporting burdens and costs for the respondents are as follows:

OMB Control Number: 3060–0741.

OMB Approval Date: May 1, 2018.

OMB Expiration Date: May 31, 2021.

Title: Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment, GN Docket No. 17–84.

Form Number: N/A.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 5,357 respondents; 573,928 responses.

Estimated Time per Response: 0.5–4.5 hours.

Frequency of Response: On occasion reporting requirements; recordkeeping; third party disclosure requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority is contained in 47 U.S.C. 222 and 251.

Total Annual Burden: 575,448 hours.

Total Annual Cost: No cost(s).

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The Commission is not requesting that the respondents submit confidential information to the FCC. Respondents may, however, request confidential treatment for information they believe to be confidential under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: Section 251 of the Communications Act of 1934, as amended, 47 U.S.C. 251, is designed to accelerate private sector development and deployment of telecommunications technologies and services by spurring competition. Section 222(e) is also designed to spur competition by prescribing requirements for the sharing of subscriber list information. These information collection requirements are designed to help implement certain provisions of sections 222(e) and 251, and to eliminate operational barriers to competition in the telecommunications services market. Specifically, these information collection requirements will be used to implement (1) local exchange carriers' ("LECs") obligations to provide their competitors with dialing parity and non-discriminatory access to certain services and functionalities; (2) incumbent local exchange carriers' ("ILECs") duty to make network information disclosures; and (3) numbering administration. The Commission estimates that the total annual burden of the entire collection, as revised, is 575,448 hours. This revision relates to a change in one of many components of the currently approved collection—specifically, certain reporting, recordkeeping and/or third party disclosure requirements under section 251(c)(5). In November 2017, the Commission adopted new rules concerning certain information collection requirements implemented

under section 251(c)(5) of the Act, pertaining to network change disclosures. Most of the changes to those rules apply specifically to a certain subset of network change disclosures, namely notices of planned copper retirements. In addition, the changes removed a rule that prohibits incumbent LECs from engaging in useful advanced coordination with entities affected by network changes. The changes are aimed at removing unnecessary regulatory barriers to the deployment of high-speed broadband networks. As a result of these changes, the total annual burden hours have been reduced by 392 hours.

The Commission estimates that the revision does not result in any additional outlays of funds for hiring outside contractors or procuring equipment.

Federal Communications Commission.

Marlene Dortch,

Secretary.

BILLING CODE 6712–01–P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MB Docket No. 17–196; RM–11794; DA 18–365]

Radio Broadcasting Services; Cora, Wyoming

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: At the request of Wind River Broadcasting, Inc., the Audio Division amends the FM Table of Allotments by adding Channel 274C2 at Cora, Wyoming. We find that the public interest would be served by allotting a first local service at Cora, Wyoming. A staff engineering analysis indicates that Channel 274C2 can be added at Cora, Wyoming, as proposed, consistent with the minimum distance separation requirements of the Commission's rules without a site restriction. The reference coordinates are 43–03–24 NL and 110–08–07 WL.

DATES: Effective May 28, 2018.

FOR FURTHER INFORMATION CONTACT: Adrienne Y. Denysyk, Media Bureau, (202) 418–2700.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's *Report and Order*, MB Docket No. 17–196, adopted March 2, 2018, and released March 2, 2018. The full text of this Commission decision is available for

inspection and copying during normal business hours in the FCC's Reference Information Center at Portals II, CY-A257, 445 12th Street SW, Washington, DC 20554. The full text is also available online at <http://apps.fcc.gov/ecfs/>. This document does not contain information collection requirements subject to the Paperwork Reduction Act of 1995, Public Law 104-13. The Commission will send a copy of the *Report and Order* in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, see 5 U.S.C. 801(a)(1)(A).

List of Subjects in 47 CFR Part 73

Radio, Radio broadcasting.

Federal Communications Commission.

Nazifa Sawez,

Assistant Chief, Audio Division, Media Bureau.

For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR part 73 as follows:

PART 73—RADIO BROADCAST SERVICES

■ 1. The authority citation for part 73 continues to read as follows:

Authority: 47 U.S.C. 154, 303, 309, 310, 334, 336, and 339.

■ 2. Section 73.202(b), the table is amended under Wyoming, by adding Cora, Channel 274C2, in alphabetical order to read as follows:

§ 73.202 Table of Allotments.

	Channel No.
* * * * *	
(b) * * *	
* * * * *	
Wyoming	
Cora	274C2
* * * * *

BILLING CODE 6712-01-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 622

[Docket No. 170720688-8385-02]

RIN 0648-BH07

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Vermilion Snapper Management Measures; Amendment 47

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS hereby issues regulations to implement management measures described in Amendment 47 to the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico (FMP), as prepared by the Gulf of Mexico Fishery Management Council (Council) (Amendment 47). This final rule revises the stock annual catch limit (ACL) for vermilion snapper. Additionally, Amendment 47 establishes a proxy for the estimate of the stock maximum sustainable yield (MSY). The purpose of this final rule is to revise the stock ACL for vermilion snapper in the Gulf of Mexico (Gulf) consistent with the most recent stock assessment.

DATES: This final rule is effective June 13, 2018.

ADDRESSES: Electronic copies of Amendment 47, which includes an environmental assessment, a fishery impact statement, a Regulatory Flexibility Act (RFA) analysis, and a regulatory impact review, may be obtained from the Southeast Regional Office website at http://sero.nmfs.noaa.gov/sustainable_fisheries/gulf_fisheries/reef_fish/2017/am47/docs/PDFs/gulf_reef_am47_vermilion_final.pdf.

FOR FURTHER INFORMATION CONTACT: Lauren Waters, Southeast Regional Office, NMFS, telephone: 727-824-5305; email: Lauren.Waters@noaa.gov.

SUPPLEMENTARY INFORMATION: NMFS and the Council manage the Gulf reef fish fishery, which includes vermilion snapper, under the FMP. The Council prepared the FMP and NMFS implements the FMP through regulations at 50 CFR part 622 under the authority of the Magnuson Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

On December 19, 2017, NMFS published a notice of availability for Amendment 47 and requested public comment (82 FR 60168). On December 27, 2017, NMFS published a proposed rule for Amendment 47 and requested public comment (82 FR 61241). The proposed rule and Amendment 47 outline the rationale for the actions contained in this final rule. Unless noted, all weights described in this final rule are in round weight. A summary of the management measure described in Amendment 47 and implemented by this final rule is provided below.

In 2016, a Southeast Data, Assessment, and Review (SEDAR) standard assessment for vermilion snapper was conducted (SEDAR 45) and the stock status was evaluated using several MSY proxies. Under all proxies evaluated in SEDAR 45, overfishing was not occurring and the stock was not overfished. The Council's Scientific and Statistical Committee (SSC) determined that the most appropriate proxy for MSY is the yield when fishing at a mortality rate corresponding to 30 percent spawning potential ratio (F_{30%} SPR).

SEDAR 45 also included projections for the overfishing limit and the acceptable biological catch (ABC). The SSC provided the Council two recommendations for ABC: One that is derived from fishing at 75 percent of the MSY proxy and results in a declining ABC from 2017 through 2021, and one that is derived using the average of 2017-2021 ABCs and results in a constant ABC. The two ABC recommendations are equivalent in terms of maintaining the stock status and the Council selected the constant catch scenario that yielded an ABC of 3.11 million lb (1.41 million kg).

Management Measure Contained in This Final Rule

This final rule revises the stock ACL for Gulf vermilion snapper consistent with the results of SEDAR 45 and the SSC's new ABC recommendation. The current ACL of 3.42 million lb (1.55 million kg), exceeds the ABCs recommended by the Council's SSC. Therefore, the Council determined that the ACL for vermilion snapper should be decreased to equal the constant catch ABC and this final rule will set the stock ACL at 3.11 million lb (1.41 million kg).

Measures in Amendment 47 Not Codified Through This Final Rule

In addition to the measure implemented through this final rule, Amendment 47 establishes a proxy for vermilion snapper MSY.

For vermilion snapper, the Council's SSC recommended that a proxy be used
