

ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170, should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

Performance reports for the CIBE Program must be submitted electronically into the office of International and Foreign Language Education (IFLE) web-based reporting system, International Resource Information System (IRIS). For information about IRIS and to view the reporting instructions, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

(c) Under 34 CFR 75.250(b), the Secretary may provide a grantee with additional funding for data collection analysis and reporting. If a grantee is provided additional funding for this purpose, the Secretary establishes a data collection period.

5. *Performance Measures:* Under the Government Performance and Results Act of 1993, the following measures will be used by the Department to evaluate the success of the CIBE Program:

(a) Percentage of CIBE Program participants who advanced in their professional field two years after their participation.

(b) Percentage of CIBE projects that established or internationalized a concentration, degree, or professional program with a focus on or connection to international business over the course of the CIBE grant period (long-term measure).

(c) Percentage of CIBE projects for which there was an increase in the export business activities of the project's business industry participants.

The information provided by grantees in their performance reports submitted via the International Resource Information System (IRIS) will be the source of data for these measures. Reporting screens for institutions can be viewed at: <http://iris.ed.gov/iris/pdfs/CIBE.pdf>.

6. *Continuation Awards:* In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, the performance targets in the grantee's approved application.

In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).
