

codified into the conditions and limitations of exemption described in § 878.4040(b)(1).

N95s are the only devices included within the scope of the MOU. As such, this exemption only applies to devices currently regulated by FDA under product code MSH. This exemption does not affect any other subset of surgical apparel classified under § 878.4040. In addition to being subject to the general limitations to the exemptions found in 21 CFR 878.9 and the conditions of exemption identified in this final order, these devices will also remain subject to current good manufacturing practices and other general controls under the FD&C Act. An exemption from the requirement of 510(k) does not mean that the device is exempt from any other statutory or regulatory requirements, unless such exemption is explicitly provided by order or regulation.

This exemption will decrease regulatory burdens on the medical device industry and will eliminate private costs and expenditures required to comply with Federal regulations. Specifically, regulated industry will no longer have to invest time and resources in 510(k)s, including preparation of documents and data for submission to FDA, payment of user fees associated with 510(k) submissions, and responding to questions and requests for additional information from FDA during 510(k) review for devices in this exempted device type, subject to the conditions and limitations of the exemption.

VI. Paperwork Reduction Act of 1995

This order refers to previously approved collections of information found in FDA regulations. These collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). The collections of information in 21 CFR part 807, subpart, E have been approved under OMB control number 0910–0120.

Therefore, under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321 *et seq.*, as amended) and under authority delegated to the Commissioner of Food and Drugs, 21 CFR part 878 is amended as follows:

PART 878—GENERAL AND PLASTIC SURGERY DEVICES

■ 1. The authority citation for part 878 continues to read as follows:

Authority: 21 U.S.C. 351, 360, 360c, 360e, 360j, 360l, 371.

■ 2. In § 878.4040, paragraph (b)(1) is revised to read as follows:

§ 878.4040 Surgical apparel.

(b) *Classification.* (1) Class II (special controls) for surgical gowns and surgical masks. A surgical N95 respirator or N95 filtering facepiece respirator is not exempt if it is intended to prevent specific diseases or infections, or it is labeled or otherwise represented as filtering surgical smoke or plumes, filtering specific amounts of viruses or bacteria, reducing the amount of and/or killing viruses, bacteria, or fungi, or affecting allergenicity, or it contains coating technologies unrelated to filtration (*e.g.*, to reduce and or kill microorganisms). Surgical N95 respirators and N95 filtering facepiece respirators are exempt from the premarket notification procedures in subpart E of part 807 of this chapter subject to § 878.9, and the following conditions for exemption:

(i) The user contacting components of the device must be demonstrated to be biocompatible.

(ii) Analysis and nonclinical testing must:

(A) Characterize flammability and be demonstrated to be appropriate for the intended environment of use; and

(B) Demonstrate the ability of the device to resist penetration by fluids, such as blood and body fluids, at a velocity consistent with the intended use of the device.

(iii) NIOSH approved under its regulation.

Missouri Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Final rule; approval and required amendments.

SUMMARY: We, the Office of Surface Mining Reclamation and Enforcement (OSMRE), are approving, in part, an amendment to the Missouri regulatory program (Missouri program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act). Missouri proposed revisions to its coal Ownership and Control Rules. Missouri intends to revise its program to be no less effective than the Federal regulations and to improve operational efficiency.

DATES: The effective date is June 18, 2018.

FOR FURTHER INFORMATION CONTACT: Len Meier, Division Chief, Alton Field Division, Office of Surface Mining Reclamation and Enforcement, 501 Belle Street, Suite 216, Alton, IL 62002. Telephone: (618) 463–6460. Email: lmeier@osmre.gov.

SUPPLEMENTARY INFORMATION:

- I. Background on the Missouri Program
- II. Submission of the Amendment
- III. OSMRE's Findings
- IV. Summary and Disposition of Comments
- V. OSMRE's Decision

VI. Procedural Determinations

I. Background on the Missouri Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its program includes, among other things, State laws and regulations that govern surface coal mining and reclamation operations in accordance with the Act and consistent with the Federal regulations. See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the Missouri program on November 21, 1980. You can find background information on the Missouri program, including the Secretary's findings, the disposition of comments, and conditions of approval, in the November 21, 1980, **Federal Register** (45 FR 77027). You can also find later subsequent actions concerning the Missouri program and program amendments at 30 CFR 925.10, 925.12, 925.15, and 925.16.

II. Submission of the Amendment

By letter dated February 18, 2014 (Administrative Record No. MO–679), Missouri sent us an amendment to its program under SMCRA (30 U.S.C. 1201 *et seq.*). Missouri submitted the amendment in response to a September 30, 2009, letter (Administrative Record No. MO–670A) that OSMRE had sent to Missouri in accordance with 30 CFR 732.17(c) and to improve operational efficiency. Missouri proposed revisions to Title 10 of its Code of State Regulations (CSR) under Division 40 Land Reclamation Commission. The specific sections of 10 CSR 40 changed by Missouri's amendment are discussed in Part III OSMRE's Findings. Missouri revised its program to be no less effective than the Federal regulations, to change terms, add clarifying language, make grammatical changes, and correct reference errors.

We announced receipt of the proposed amendment in the May 20, 2014, **Federal Register** (79 FR 28852). In the same document, we opened the public comment period and provided an opportunity for a public hearing or meeting on the adequacy of the amendment. We did not hold a public hearing or meeting because neither was requested. The public comment period ended on June 19, 2014. We did not receive any public comments.

III. OSMRE's Findings

The following are the findings we made concerning Missouri's amendment
