SUPPLEMENTARY INFORMATION: The bridge owner, Vermont Agency of Transportation, requested a temporary deviation from the normal operating schedule of the US2 Bridge, mile 91.8, across Lake Champlain at North Hero Island, Vermont. The drawbridge navigation span has a vertical clearance of 18 feet at ordinary low water in the closed position. The existing bridge operating regulations are found at 33 CFR 117.993(b).

Under this temporary deviation, the US2 Bridge shall open daily on signal only on the hour from 8 a.m. to 8 p.m. from May 15, 2018 through October 15, 2018.

The waterway is transited by seasonal recreational vessels of various sizes. Several marina facilities are in the area of the bridge. Vessels that are able to pass under the bridge in the closed position may do so at any time. The bridge will be able to open for emergencies, and for vessels unable to pass through the bridge in the closed position there is an alternate route to the north under the Alburg Passage US2 fixed bridge. The Alburg Passage US2 Bridge has a vertical clearance of 25 feet at ordinary low water. The Coast Guard will inform the users of the waterway through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessel operators can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.
