BILLING CODE 4162-20-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer at (240) 276-1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection

of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Projects for Assistance in Transition From Homelessness (PATH) Program Annual Report (OMB No. 0930-0205)—Revision

The Center for Mental Health Services awards grants each fiscal year to each of the states, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands from allotments authorized under the PATH program established by Public Law 101-645, 42 U.S.C. 290cc-21 *et seq.*, the Stewart B. McKinney Homeless Assistance Amendments Act of 1990 (section 521 *et seq.* of the Public Health Service (PHS) Act) and the 21st Century Cures Act (114-255 Pub. L.). Section 522 of the PHS Act and the 21st Century Cures Act require that the grantee states and territories must expend their payments under the Act solely for making grants to political subdivisions of the state, and to nonprofit private entities (including community-based veterans' organizations and other community organizations) for the purpose of providing services specified in the Act. Available funding is allotted in accordance with the formula provision of section 524 of the PHS Act.

This submission is for a revision of the current approval of the annual grantee reporting requirements. Section

528 of the PHS Act and the 21st Century Cures Act specify that not later than January 31 of each fiscal year, a funded entity will prepare and submit a report in such form and containing such information as is determined necessary for securing a record and description of the purposes for which amounts received under section 521 were expended during the preceding fiscal year and of the recipients of such amounts and determining whether such amounts were expended in accordance with statutory provisions.

The proposed changes to the PATH Annual Report are as follows:

1. Reporting on Contacts

To ensure that all contacts made by PATH providers are reflected in the report, a new question has been added that reports out on all contacts provided during the reporting period. The previous PATH Annual Report only reported on contacts through the date of enrollment.

2. Referrals Provided

To align with the HMIS Data Standards, all PATH Referral response categories are now included in the PATH Annual Report.

3. HMIS Data Standards Updates

When needed, field response options and questions have been updated to align with the most recent version of the HMIS Data Standards.

The estimated annual burden for these reporting requirements is summarized in the table below.

Respondents	Number of respondents	Responses per respondent	Burden per response (hrs.)	Total burden
States	56	1	20	1,120
Local provider agencies	487	1	15	7,305
Total	543	8,425

Send comments to Summer King, SAMHSA Reports Clearance Officer, 5600 Fishers Lane, Room 15E57B, Rockville, MD 20857 OR email her a copy at summer.king@samhsa.hhs.gov. Written comments should be received by July 20, 2018.

BILLING CODE 4162-20-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[Docket No. USCG-2018-0488]

Notice of Public Workshop on Consistent Implementation of Regulation 14.1.3 of MARPOL Annex VI (Global 0.50% Sulfur Cap)

AGENCY: Coast Guard, DHS.

ACTION: Notice of meeting.

SUMMARY: The United States Coast Guard and United States Environmental Protection Administration will conduct a public workshop in Washington, DC in preparation for the upcoming intersessional working group meeting of the International Maritime Organization (IMO) on consistent implementation of regulation 14.1.3 of MARPOL Annex IV (Global 0.50% Sulfur Cap). The purpose of this meeting will be to consider the issues that will be discussed at that intersessional working group meeting.

DATES: This public meeting will be held on Tuesday, June 5, beginning at 10:00 a.m. and ending at 2:00 p.m., Eastern Time. This meeting is open to the public.

ADDRESSES: The public meeting will be held in Room 5, located on the first floor near the main entrance of the United States Department of Transportation building in Washington, DC. The United States Department of Transportation building is located at 1200 New Jersey Ave. SE, in Washington, DC, across the street from the Navy Yard-Ballpark Metro Station. Due to security requirements, each visitor must present a valid government-issued photo identification (for example, a driver's license) in order to gain entrance to the building. Those desiring to attend the public meeting should contact the Coast Guard ahead of the meeting (see **FOR FURTHER INFORMATION CONTACT**) to facilitate the security process related to building access, or to request reasonable accommodation.

FOR FURTHER INFORMATION CONTACT: For additional information about this public meeting you may contact Mr. Wayne Lundy by telephone at (202) 372-1379 or by email at Wayne.M.Lundy@uscg.mil.

SUPPLEMENTARY INFORMATION: Annex VI to the International Convention for the Prevention of Pollution from Ships (MARPOL Annex VI) addresses air pollution from ships. Regulation 14 addresses particulate matter (PM) and sulfur oxide (SO_x) emissions through fuel sulfur content limits. Beginning on January 1, 2015, fuel used in ships operating in designated Emission Control Areas (ECAs), including the North American and U.S. Caribbean Sea ECAs, may not exceed 1,000 ppm. Outside of designated ECAs, the sulfur content of marine fuel currently may not exceed 35,000 ppm; this limit will be reduced to 5,000 ppm beginning on January 1, 2020.

As required by Regulation 14.8 of Annex VI, the 2020 global sulfur cap was reviewed and the limit was confirmed by the Marine Environment Protection Committee at its 70th session in 2017. At the 71st session, the Marine Environment Protection Committee agreed on a new work output to consider measures to promote consistent implementation of the global sulfur cap to address industry concerns and promote a level playing field with regard to compliance and enforcement of the new standards. An intersessional working group meeting will be held in July 2018, and recommendations will be provided to the 73rd session of the

Marine Environment Protection Committee that meets in October 2018.

To obtain stakeholder input in advance of the intersessional working group meeting, the Coast Guard and EPA will conduct a meeting on Tuesday, June 5 at the United States Department of Transportation building in Washington, DC. At this meeting, the Coast Guard and EPA will provide background information on the MEPC action; afterwards, a discussion will be moderated by Coast Guard to consider the following topics.

- What preparatory and transitional issues should be considered, and how should they be addressed? Ship owners are expected to develop plans and procedures to ensure their ships operate with compliant fuel beginning January 1, 2020. However, issues may arise for a short period after the effective date of the global sulfur cap that may impede compliance. Stakeholders are encouraged to describe what these issues are, how they may be resolved, and the length of time they are expected to occur.

- Are there safety and machinery impacts associated with the use of blended fuels, and how should these be addressed? At this time it is not known the extent to which fuels compliant with the 2020 global sulfur cap will be purpose refined or blended. Stakeholders are encouraged to describe whether they expect to use blended fuels and whether they expect to adopt special procedures to handle and use such fuels.

- Regulation 18.2 requires ships to report fuel oil non-availability. One option being addressed by the Committee is the creation of a formal Fuel Oil Non-Availability Reporting (FONAR) system, which would require a ship to file a report with the port State, the ship's flag administration, and potentially the IMO, if the ship is unable to obtain compliant fuel without deviating from its planned voyage. Stakeholders are encouraged to indicate if such a system would be helpful and, if so, whether the reporting be uniform, the information that should be included in a standard format, how efforts to obtain compliant fuel should be documented, and where the report should be filed.

- What shipboard verification procedures should be encouraged/required, and how can these procedures facilitate verification? As specified in Annex VI, assessment of a ship's compliance with the fuel sulfur limits relies on examination of bunker delivery notes and, potentially, analysis of the MARPOL sample. Stakeholders are encouraged to indicate how this system

can be improved to provide timely analysis of this information (e.g., ship-prepared summary reports of bunker delivery notes). Stakeholders are also invited to provide input on other methods to verify compliance, such as onboard fuel sampling or other types of verification (e.g., continuous SO_x emission monitoring).

- What methods and procedures can port States adopt to facilitate a level playing field?

- What methods and procedures can flag States adopt to facilitate a level playing field?

- What type of guidance, if any, would be helpful to ensure consistent implementation and a level playing field?

This meeting is open to the public. Please note that the public meeting has a limited number of seats and may close early if all business is finished. Those interested in attending should contact Mr. Wayne Lundy by telephone at (202) 372-1379 or by email at Wayne.M.Lundy@uscg.mil.

Summaries of comments made, materials presented, and lists of attendees will be available on the docket at the conclusion of the meeting. To view comments and materials in the docket, go to <http://www.regulations.gov> at any time, enter the docket number "USCG-2018-0488" in the Search box, and click on "Go>>."

Information on Services for Individuals With Disabilities

For information on facilities or services for individuals with disabilities or to request special assistance at the meeting, contact Mr. Wayne Lundy at (202) 372-1379 or by email at Wayne.M.Lundy@uscg.mil as soon as possible.

B.J. Hawkins,

Acting Director of Commercial Regulations and Standards, U.S. Coast Guard.
