

In March 2018, NMFS published its final 2017 LOFF (83 FR 11703, March 16, 2018), as required by the regulations implementing the Fish and Fish Product Import Provisions of the Marine Mammal Protection Act. The final LOFF reflects information received in its response to information requests to nations and the public (82 FR 2961, January 10, 2017) and during the comment period on interactions between commercial fisheries exporting fish and fish products to the United States and marine mammals, and updates and revisions to the draft LOFF (82 FR 39762, August 22, 2017).

NMFS will revise the LOFF in 2020. In anticipation of this revision, NMFS is soliciting information from harvesting nations; other foreign, regional, and local governments; regional fishery management organizations; nongovernmental organizations; industry organizations; academic institutions; and citizens and citizen groups to identify commercial fishing operations with intentional or incidental mortality and serious injury of marine mammals. For each item we are requesting you identify the exporting nation as the harvesting nation, the processing or intermediary nation, or both. For fisheries exporting fish and fish products to the United States NMFS is requesting the following information:

- Number of participants;
- Number of vessels;
- Gear type;
- Target species;
- Area of operation;
- Fishing season; and
- Information regarding the frequency of marine mammal incidental and intentional mortality and serious injury.

Such information may include fishing vessel records; reports of on-board fishery observers; information from off-loading facilities, port-side government officials, enforcement agents, transshipment vessel workers and fish importers; government vessel registries; RFMO or intergovernmental agreement documents, reports, and statistical document programs; appropriate catch certification programs; and published literature and reports on commercial fishing operations with intentional or incidental mortality and serious injury of marine mammals.

NMFS will consider all available information, as appropriate. Information should be as specific as possible as this will assist NMFS in its review. NMFS will consider several criteria when determining whether information is appropriate for use in making identifications, including:

- Corroboration of information;

- Whether multiple sources have been able to provide information in support of an identification;
- The methodology used to collect the information;
- Specificity of the information provided;
- Susceptibility of the information to falsification and alteration; and
- Credibility of the individuals or organization providing the information.

Dated: May 16, 2018.

John Henderschedt,

Director, Office of International Affairs and Seafood Inspection, National Marine Fisheries Service.

DEPARTMENT OF ENERGY

[OE Docket No. EA-453]

Application To Export Electric Energy; Matador Power Marketing, Inc.

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of application.

SUMMARY: Matador Power Marketing, Inc. (Matador or Applicant) has applied for authority to transmit electric energy from the United States to Canada pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before June 21, 2018.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585-0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to 202-586-8008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On May 1, 2018, DOE received an application from Matador for authority to transmit electric energy from the United States to Canada as a power marketer for a five-year term using existing international transmission facilities.

In its application, Matador states that it does not own or control any electric generation or transmission facilities, and it does not have a franchised service
