General Description of Collection: The collection of information requirements are contained in 12 CFR part 344. The purpose of the regulation is to ensure that purchasers of securities in transactions affected by insured state nonmember banks are provided with adequate records concerning the transactions. The regulation is also designed to ensure that insured state nonmember banks maintain adequate records and controls with respect to the securities transactions they effect. Finally, this regulation requires officers and employees of FDIC-supervised institutions to report to the FDIC-supervised institution certain personal securities trading activity.

The FDIC has reviewed its previous submission related to the Paperwork Reduction Act of 1995 and has updated its methodology for calculating the burden in order to be consistent with the Federal Reserve Board and the Office of the Comptroller of the Currency. In addition, the FDIC has reviewed and revised its estimated number of respondents to ensure that only those institutions with income from securities brokerage activity are included its respondent count. The overall decrease in burden hours is the result of these changes.

Request for Comment

Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the FDIC's functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collection, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the

use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
