Delegation of Authority to the States of Iowa; Kansas; Missouri; Nebraska; Lincoln-Lancaster County, NE; and City of Omaha, NE, for New Source Performance Standards (NSPS), National Emission Standards for Hazardous Air Pollutants (NESHAP) Including Maximum Achievable Control Technology (MACT) Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Delegation of authority.

SUMMARY: The States of Iowa, Kansas, Missouri, and Nebraska and the local agencies of Lincoln-Lancaster County, Nebraska, and the city of Omaha, Nebraska, have submitted updated regulations for delegation of EPA authority for implementation and enforcement of NSPS, NESHAP, and MACT standards. The submissions cover new EPA standards and, in some instances, revisions to standards previously delegated. EPA’s review of the pertinent regulations shows that they contain adequate and effective procedures for the implementation and enforcement of these Federal standards. This action informs the public of delegations to the above-mentioned agencies. All sources subject to the requirements of EPA regulations are also subject to the equivalent requirements of the above-mentioned state or local agencies. For the current, most up-to-date, status of delegations to the above-mentioned agencies, please refer to the

web pages in the “What does this action do?” section of this document.

DATES: This document is effective on June 1, 2018. The dates of delegation can be found in the **SUPPLEMENTARY INFORMATION** section of this document.

List of Delegation Tables

- Table I—NSPS, 40 CFR part 60
- Table II—NESHAP, 40 CFR part 61
- Table III—NESHAP, 40 CFR part 63

I. What does this action do?

EPA is providing notice of an update to its delegable authority for implementation and enforcement of the Federal standards shown in the tables below to the states of Iowa, Kansas, Missouri, and Nebraska. This action updates the delegation tables previously published at 80 FR 10596 (February 27, 2015). EPA has established procedures by which these agencies are automatically delegated the authority to implement the standards when they adopt regulations which are identical to the Federal standards. We then periodically provide notice of the new and revised standards for which delegation has been given. This document does not affect or alter the status of the listed standards under state or Federal law.

For the current, most up-to-date, status of delegations to the above-mentioned agencies, please refer to the following web pages:

- Iowa <https://go.usa.gov/xQ8yQ>
- Kansas <https://go.usa.gov/xQ8yE>
- Missouri <https://go.usa.gov/xQ8ym>
- Nebraska <https://go.usa.gov/xQ8yy>

II. What is the authority for delegation?

1. Section 111(c)(1) of the Clean Air Act (CAA) authorizes EPA to delegate authority to any state agency which submits adequate regulatory procedures for implementation and enforcement of the NSPS program. The NSPS are codified at 40 CFR part 60.

2. Section 112(l) of the CAA and 40 CFR part 63, subpart E, authorizes EPA to delegate authority to any state or local agency which submits adequate regulatory procedures for implementation and enforcement of emission standards for hazardous air pollutants. The hazardous air pollutant standards are codified at 40 CFR parts 61 and 63, respectively.

III. What does delegation accomplish?

Delegation confers primary responsibility for implementation and enforcement of the listed standards to the respective state and local air agencies. However, EPA also retains the concurrent authority to enforce the standards.

IV. What has been delegated?

Tables I, II, and III below list the delegated standards. Each item listed in the Subpart column has two relevant dates listed in each column for each state. The first date in each block is the reference date to the CFR contained in the state rule. In general, the state or local agency has adopted the applicable standard through the date as noted in the table. The second date is the most recent effective date of the state agency rule for which the EPA has granted the delegation. This document specifically addresses revisions to the columns for Iowa, Kansas, Missouri, and Nebraska and the local agencies of Lincoln-Lancaster County, Nebraska, and the city of Omaha, Nebraska. If there are no dates listed in the delegation table, the state has not accepted delegation of the standard and implementation of those standards reside with EPA.

V. What has not been delegated?

1. The EPA regulations effective after the first date specified in each block have not been delegated, and authority

for implementation of these regulations is retained solely by EPA.

2. In some cases, the standards themselves specify that specific provisions cannot be delegated. In such cases, a specific section of the standard details what authorities can and cannot be delegated. You should review the applicable standard in the CFR for this information.

3. In some cases, the state rules do not adopt the Federal standard in its entirety. Each state rule (available from the respective agency) should be consulted for specific information.

4. In some cases, existing delegation agreements between the EPA and the agencies limit the scope of the delegated standards. Copies of delegation agreements are available from the state agencies, or from this office.

5. With respect to 40 CFR part 63, subpart A, General Provisions (see Table III), EPA has determined that sections 63.6(g), 63.6(h)(9), 63.7(e)(2)(ii) and (f), 63.8(f), and 63.10(f) cannot be delegated. Additional information is contained in 40 CFR 63.91(g)(2).

Air Plan Approval and Air Quality Designation; SC; Redesignation of the Greenville-Spartanburg Unclassifiable Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: On January 22, 2018, the State of South Carolina, through the Department of Health and Environmental Control (DHEC), submitted a request for the Environmental Protection Agency (EPA) to redesignate the Greenville-Spartanburg, South Carolina fine particulate matter (PM_{2.5}) unclassifiable area (hereinafter referred to as the “Greenville Area” or “Area”) to unclassifiable/attainment for the 1997 primary and secondary annual PM_{2.5} national ambient air quality standards (NAAQS). The Greenville Area is comprised of Anderson, Greenville, and Spartanburg Counties in South Carolina. EPA is approving the State’s request and

redesignating the Area to unclassifiable/attainment for the 1997 primary and secondary annual PM_{2.5} NAAQS based upon valid, quality-assured, and certified ambient air monitoring data showing that the PM_{2.5} monitors in the Area are in compliance with the 1997 primary and secondary annual PM_{2.5} NAAQS.

DATES: This rule will be effective July 2, 2018.
