

banks, and restaurants. The information collection will occur via a cost data collection survey, in which respondents will be asked about a key set of sodium reduction activities that were developed during the evaluation of SRCP round two based on interviews with SRCP partners. Respondents are asked to report on all costs since beginning work on sodium reduction strategies as part of SRCP. While grantees began work on SRCP in 2016, partners began work at different times, so the time period of costs will vary by partner. Therefore, we

also ask how long they have been working on sodium reduction. For each activity, respondents will be asked the number and types of staff that worked on the activity, the average monthly number of hours worked on that activity for each staff member, the number of months worked by each staff member, and how long the activity will continue. Additionally, for each activity, respondents will be asked to report any non-labor expenditures on materials or supplies. RTI will work with CDC and grantees to reach out to partners and

request their participation in the survey. We will request participation from all SRCP partners via email.

The insights to be gained from this data collection will be critical to understanding the full costs of implementing SRCP at all levels of implementation for a set of key sodium reduction activities, which is an important factor in program planning and maintaining program longevity and sustainability. The estimated annual burden hours are 88.

SUPPLEMENTARY INFORMATION:

I. Background

The Advisory Panel for Outreach and Education (APOE) (the Panel) is governed by the provisions of Federal Advisory Committee Act (FACA) (Pub. L. 92-463), as amended (5 U.S.C. Appendix 2), which sets forth standards for the formation and use of federal

advisory committees. The Panel is authorized by section 1114(f) of the Social Security Act (42 U.S.C. 1314(f)) and section 222 of the Public Health Service Act (42 U.S.C. 217a).

The Secretary of the U.S. Department of Health and Human Services (HHS) (the Secretary) signed the charter establishing the Citizen's Advisory Panel on Medicare Education¹ (the predecessor to the APOE) on January 21, 1999 (64 FR 7899, February 17, 1999) to advise and make recommendations to the Secretary and the Administrator of the Centers for Medicare & Medicaid Services (CMS) on the effective implementation of national Medicare education programs, including with respect to the Medicare+Choice (M+C) program added by the Balanced Budget Act of 1997 (Pub. L. 105-33).

The Medicare Modernization Act of 2003 (MMA) (Pub. L. 108-173) expanded the existing health plan options and benefits available under the M+C program and renamed it the Medicare Advantage (MA) program. We have had substantial responsibilities to provide information to Medicare beneficiaries about the range of health plan options available and better tools to evaluate these options. The successful MA program implementation required CMS to consider the views and policy input from a variety of private sector constituents and to develop a broad range of public-private partnerships.

In addition, Title I of the MMA authorized the Secretary and the Administrator of CMS (by delegation) to establish the Medicare prescription drug benefit. The drug benefit allows beneficiaries to obtain qualified prescription drug coverage. In order to effectively administer the MA program and the Medicare prescription drug benefit, we have substantial responsibilities to provide information to Medicare beneficiaries about the range of health plan options and benefits available, and to develop better tools to evaluate these plans and benefits.

The Affordable Care Act (Patient Protection and Affordable Care Act, Pub. L. 111-148, and Health Care and Education Reconciliation Act of 2010, Pub. L. 111-152) expanded the availability of other options for health care coverage and enacted a number of changes to Medicare as well as to Medicaid and the Children's Health Insurance Program (CHIP). Qualified

¹ We note that the Citizen's Advisory Panel on Medicare Education is also referred to as the Advisory Panel on Medicare Education (65 FR 4617). The name was updated in the Second Amended Charter approved on July 24, 2000.
