

implementation of their supporting HCPs. The primary purpose of the scoping process is for the public and other agencies to assist in developing the PEIS by identifying important issues and alternatives that should be considered. However, this scoping process would also be used to inform single-project EISs if we determine it is more appropriate to prepare a separate EIS for each of the proposed permit actions.

The Service is requesting data, comments, new information, and/or recommendations from the public, other governmental agencies, the scientific community, Native Hawaiian organizations or entities, industry, or other interested parties related to our development of the PEIS or individual EISs. We seek specific comments on:

1. Biological information and relevant data (*e.g.*, range, distribution, population size, and population trends) for the Hawaiian hoary bat, Hawaiian goose, and the Hawaiian petrel;

2. Potential direct and indirect impacts on the human environment that would occur as a result of the continued operation of these wind energy facilities and the proposed increase in authorized take of the Hawaiian hoary bat, Hawaiian goose, and the Hawaiian petrel;

3. Whether a programmatic NEPA approach, as proposed, or separate NEPA evaluations for each of the four wind energy projects, is appropriate;

4. Possible alternatives to the proposed ITP actions that the Service should evaluate;

5. The presence of archaeological sites, buildings and structures, historic events, sacred and traditional areas, and other historic preservation concerns in the vicinity of any of the four wind project sites, including their mitigation areas, which are required to be considered in project planning by the National Historic Preservation Act; and

6. Other past, present, or reasonably foreseeable future activities on the islands of Oahu, Maui, and Hawaii that may contribute to the cumulative impact on the Hawaiian hoary bat, Hawaiian goose, and the Hawaiian petrel.

Once the draft PEIS (or individual EISs) and draft HCPs are prepared, there will be further opportunity for comment on the content of these documents through an additional public comment period.
