[Docket No. FAA–2018–0100; Airspace Docket No. 18–ASW–3]

RIN 2120–AA66

Amendment of Class E Airspace; Duncan, OK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E airspace extending upward from 700 feet above the surface at Halliburton Field, Duncan, OK. This action is a result of an airspace review caused by the decommissioning of the Duncan VHF omnidirectional range (VOR) navigation aid as part of the VOR Minimum Operational Network (MON) Program and the cancellation of the associated instrument procedures. The geographic coordinates of the airport are also being updated to coincide with the FAA’s aeronautical database, as well as an editorial change removing the city associated with the airport name in the airspace legal designation.

DATES: Effective 0901 UTC, September 13, 2018. The Director of the Federal Register approves this incorporation by reference action under Title 1, Code of Federal Regulations, part 51, subject to

the annual revision of FAA Order 7400.11 and publication of conforming amendments.

ADDRESSES: FAA Order 7400.11B, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at http://www.faa.gov/air_traffic/publications/. For further information, you can contact the Airspace Policy Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783. The Order is also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of FAA Order 7400.11B at NARA, call (202) 741–6030, or go to <https://www.archives.gov/federal-register/cfr/ibr-locations.html>.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

FOR FURTHER INFORMATION CONTACT: Jeffrey Claypool, Federal Aviation Administration, Operations Support Group, Central Service Center, 10101 Hillwood Parkway, Fort Worth, TX 76177; telephone (817) 222–5711.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends Class E airspace extending upward from 700 feet above the surface at Halliburton Field, Duncan, OK, to support instrument flight rules operations at this airport.

History

The FAA published a notice of proposed rulemaking in the **Federal Register** (83 FR 10644; March 12, 2018) for Docket No. FAA–2018–0100 to amend the Class E airspace extending upward from 700 feet above the surface at Halliburton Field, Duncan, OK. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the

proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraphs 6005 of FAA Order 7400.11B, dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 modifies the Class E airspace extending upward from 700 feet above the surface to within a 6.6-mile radius (decreased from a 6.7-mile radius) at Halliburton Field, Duncan, OK, and removes the extension to the north of the airport associated with the Halliburton Field Localizer. This action also adds an extension within 4 miles each side of the 359° bearing from the airport from the 6.6-mile radius to 11.6 miles north of the airport.

The geographic coordinates of the airport are also being updated to coincide with the FAA’s aeronautical database, and the name of the city associated with the airport in the airspace legal description is being removed to comply with a change to FAA Order 7400.2L, Procedures for Handling Airspace Matters.

This action is necessary due to an airspace review caused by the decommissioning of the Duncan VOR as part of the VOR MON Program and cancellation of the associated instrument procedures.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44

FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5–6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Lists of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

ASW OK E5 Duncan, OK [Amended]

Halliburton Field, OK

(Lat. 34°28'17" N, long. 97°57'36" W)

That airspace extending upward from 700 feet above the surface within a 6.6-mile radius of Halliburton Field, and within 4.0 miles each side of the 359° bearing from the airport extending from the 6.6-mile radius to 11.6 miles north of the airport.

Issued in Fort Worth, Texas, on May 24, 2018.

Christopher L. Southerland,

*Acting Manager, Operations Support Group,
ATO Central Service Center.*

Docket No. 17–ASW–12]

RIN 2120–AA66

Amendment of Class D Airspace and Establishment of Class E Airspace; Norman, OK; and Amendment of Class E Airspace; Oklahoma City, OK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class D airspace and establishes Class E airspace designated as a surface area at University of Oklahoma Westheimer Airport, Norman, OK. The University of Oklahoma Westheimer Airport requested establishment of this airspace. This action also amends Class E airspace extending upward from 700 feet above the surface at the University of Oklahoma Westheimer Airport contained within the Oklahoma City, OK, airspace legal description, by removing the Oklahoma Westheimer Airport ILS localizer and realigning the southwest segment. Additionally, the name of the University of Oklahoma Westheimer Airport is being updated to coincide with the FAA's aeronautical database in the Class D airspace legal description. This action is necessary for the safety and management of instrument flight rules (IFR) operations at this airport.

DATES: Effective 0901 UTC, September 13, 2018. The Director of the Federal Register approves this incorporation by reference action under Title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

ADDRESSES: FAA Order 7400.11B, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at http://www.faa.gov/air_traffic/publications/. For further information, you can contact the Airspace Policy Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591;

telephone: (202) 267–8783. The Order is also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of FAA Order 7400.11B at NARA, call (202) 741–6030, or go to <https://www.archives.gov/federal-register/cfr/ibr-locations.html>.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends Class D airspace, establishes Class E airspace designated as a surface area, and amends Class E airspace extending upward from 700 feet above the surface at the University of Oklahoma Westheimer Airport, Norman, OK, to support IFR operations at this airport.

History

The FAA published a notice of proposed rulemaking in the **Federal Register** (82 FR 44981; September 27, 2017) for Docket No. FAA–2017–0825 to amend Class D airspace, establish Class E airspace designated as a surface area, and amend Class E airspace extending upward from 700 feet above the surface at the University of Oklahoma Westheimer Airport, Norman, OK, to support IFR operations at the airport. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Subsequent to publication, the FAA discovered a typographic error in the regulatory text for Class E airspace designated as a surface area. The Notice
