

assistance (OFA) ¹ has been received, these exemptions will be effective on July 5, 2018,² unless stayed pending reconsideration. Petitions to stay that do not involve environmental issues,³ formal expressions of intent to file an OFA under 49 CFR 1152.27(c)(2),⁴ and trail use/rail banking requests under 49 CFR 1152.29 must be filed by June 15, 2018. Petitions to reopen or requests for public use conditions under 49 CFR 1152.28 must be filed by June 25, 2018, with the Surface Transportation Board, 395 E Street SW, Washington, DC 20423-0001.

A copy of any petition filed with the Board should be sent to Karl Morell, Karl Morell & Associates, 440 1st Street NW, Suite 440, Washington, DC 20001 and Crystal M. Zorbaugh, Baker & Miller PLLC, 2401 Pennsylvania Ave. NW, Suite 300, Washington, DC 20037.

If the verified notice contains false or misleading information, the exemptions are void ab initio.

Applicants have filed a combined environmental and historic report that addresses the effects, if any, of the abandonment on the environment and historic resources. OEA issued an environmental assessment (EA) on May 25, 2018. Interested persons may obtain a copy of the EA by writing to OEA (Room 1100, Surface Transportation Board, Washington, DC 20423-0001) or by calling OEA at (202) 245-0305. Assistance for the hearing impaired is available through the Federal Information Relay Service (FIRS) at 1-800-877-8339. Comments on environmental and historic preservation matters must be filed by June 11, 2018.

Environmental, historic preservation, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

¹ The Board modified its OFA procedures effective July 29, 2017. Among other things, the OFA process now requires potential offerors, in their formal expression of intent, to make a preliminary financial responsibility showing based on a calculation using information contained in the carrier's filing and publicly available information. See *Offers of Financial Assistance*, EP 729 (STB served June 29, 2017); 82 FR 30,997 (July 5, 2017).

² Applicants initially filed their verified notice of exemption on April 30, 2018. BNSF filed a supplemental certificate of service for the environmental and historic report on May 16, 2018. Therefore, the official filing date is May 16, 2018.

³ The Board will grant a stay if an informed decision on environmental issues (whether raised by a party or by the Board's Office of Environmental Analysis (OEA) in its independent investigation) cannot be made before the exemptions' effective date. See *Exemption of Out-of-Serv. Rail Lines*, 5 I.C.C.2d 377 (1989). Any request for a stay should be filed as soon as possible so that the Board may take appropriate action before the exemptions' effective date.

⁴ Each OFA must be accompanied by the filing fee, which is currently set at \$1,800. See 49 CFR 1002.2(f)(25).

Pursuant to the provisions of 49 CFR 1152.29(e)(2), BNSF shall file a notice of consummation with the Board to signify that it has exercised the authority granted and fully abandoned the Line. If consummation has not been effected by BNSF's filing of a notice of consummation by June 5, 2019, and there are no legal or regulatory barriers to consummation, the authority to abandon will automatically expire.

Board decisions and notices are available on our website at WWW.STB.GOV.

Decided: May 31, 2018.

By the Board, Scott M. Zimmerman, Acting Director, Office of Proceedings.

Jeffrey Herzig,
Clearance Clerk.

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2018-0180]

Hours of Service of Drivers: Application for Exemption; Small Business in Transportation Coalition

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for exemption; request for comments.

SUMMARY: FMCSA announces that the Small Business in Transportation Coalition (SBTC) has requested an exemption from the electronic logging device (ELD) requirements for all motor carriers with fewer than 50 employees, including, but not limited to, one-person private and for-hire owner-operators of commercial motor vehicles used in interstate commerce. FMCSA will consider all comments and material received during the comment period and may grant or not grant this application based on your comments.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315 to grant exemptions from certain parts of the Federal Motor Carrier Safety Regulations (FMCSRs). FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request.

The Agency reviews safety analyses and public comments submitted, and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305). The decision of the Agency must be published in the **Federal Register** (49 CFR 381.315(b)) with the reasons for denying or granting the application and, if granted, the name of the person or class of persons receiving the exemption, and the regulatory provision from which the exemption is granted. The notice must also specify the effective period and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

III. Request for Exemption

SBTC reports that it is a non-profit trade organization with more than 8,000 members. SBTC states that it "represents, promotes, and protects the interest of small businesses in the transportation industry. Through the exemption application, SBTC seeks relief from the ELD requirements for small private, common and contract motor carriers with fewer than 50 employees. SBTC argues:

"[T]he ELD rule is not a "safety regulation" per se as the FMCSA has concluded. Rather it is a mechanism intended to enforce a safety regulation by regulating the manner in which a driver records and communicates his compliance. That is, it is merely a tool to determine compliance with an existing rule that regulates over-the-road drivers' driving and on duty time, namely the actual safety regulation: the [hours-of-service] regulations codified at 49 CFR 395.3 and 395.5. However, the ELD rule is not a safety regulation itself. Therefore, it is our position that this rule does *not* itself impact safety, and that the level of safety will not change based on whether or not our exemption application is approved. That would require a change to the [hours-of-service rules]."

SBTC asserts that the exemption would not have any adverse impacts on operational safety, as motor carriers and drivers would remain subject to the HOS regulations in 49 CFR 395.3, as well as the requirements to maintain a paper RODS under 49 CFR 395.8. The exemption would allow motor carriers with fewer than 50 employees to maintain their current practices that have resulted in a proven safety record. The term of the requested exemption, if granted, would be for five years, subject to renewal upon application.

A copy of SBTC's application for exemption is available for review in the docket for this notice.

Associate Administrator for Policy.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2007-28812]

Petition for Waiver of Compliance

Under part 211 of Title 49 Code of Federal Regulations (CFR), this provides the public notice that by a letter dated March 23, 2018 (and amended April 30, 2018), BNSF Railway Company (BNSF) petitioned the Federal Railroad Administration (FRA) for an extension of its waiver of compliance from certain

provisions of the Federal railroad safety regulations contained at 49 CFR part 232. FRA assigned the petition Docket Number FRA-2007-28812.

BNSF originally received conditional relief in 2008 from 49 CFR 232.205, *Class I brake test-initial terminal inspection*, and 49 CFR part 215, *Freight car safety standards*, for freight cars received in interchange at the United States/Mexico border crossing in Eagle Pass, TX, to permit required inspections to be conducted at Ryan's Ruin and Horan Siding, 14 miles north of the international border at Eagle Pass. BNSF's relief was extended for an additional five years in a decision letter dated March 26, 2013. In support of its present petition to extend its relief, BNSF states that the change in inspection point has proven a more efficient and safer operating environment.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE, W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.
