SUPPLEMENTARY INFORMATION: In the **Federal Register** of March 16, 2018, FDA published an ANPRM with a 90-day comment period to obtain information for consideration in developing a tobacco product standard to set a maximum nicotine level in combusted cigarettes so that they are minimally addictive or nonaddictive. Comments on the scope of products to be covered, maximum nicotine level for a potential nicotine tobacco product standard, implementation methods, analytical testing methods, technical achievability, possible countervailing effects, and other topics will aid FDA in its consideration regarding development of a tobacco product standard to set a

maximum nicotine level in combusted cigarettes.

The Agency has received a number of requests for a 90-day extension of the comment period for the ANPRM and one request for a 120-day extension. FDA has considered the requests and is extending the comment period for the ANPRM for an additional 30 days, until July 16, 2018. The Agency believes that a 30-day extension allows adequate time for interested persons to submit comments without significantly delaying any potential regulatory action on these important issues.

Dated: June 5, 2018.

Associate Commissioner for Policy.

SUPPLEMENTARY INFORMATION:

I. Background

The Indian Gaming Regulatory Act (IGRA or Act), Public Law 100-497, 25

U.S.C. 2701 *et seq.*, was signed into law on October 17, 1988. The Act established the National Indian Gaming Commission (“NIGC” or “Commission”) and set out a comprehensive framework for the regulation of gaming on Indian lands. On January 5, 1999, the NIGC published a final rule in the **Federal Register** called *Minimum Internal Control Standards*. 64 FR 590. The rule added a new part to the Commission’s regulations establishing Minimum Internal Control Standards (MICS) to reduce the risk of loss because of customer or employee access to cash and cash equivalents within a casino. The rule contains standards and procedures that govern cash handling, documentation, game integrity, auditing, surveillance, and variances, as well as other areas.

The Commission recognized from their inception that the MICS would require periodic review and updates to keep pace with technology and has substantively amended them numerous times, most recently in late 2013 (78 FR 63873).

II. Development of the Rule

On September 21, 2012, the Commission concluded nearly two years of consultation and drafting with the publication of comprehensive amendments, additions, and updates to Part 543, the minimum internal control standards (MICS) for Class II gaming operations (77 FR 58708). The regulations require tribes to establish controls and implement procedures at least as stringent as those described in this part to maintain the integrity of the gaming operation. In late 2013, the Commission published a final rule, adding kiosk drop, count, fill, and surveillance standards to Part 543 (78 FR 63873).

Now, the Commission proposes additional revisions, largely technical in nature, that are meant to correct earlier editing oversights and to better clarify the intent of the provisions.

III. Regulatory Matters

Regulatory Flexibility Act

The rule will not have a significant impact on a substantial number of small entities as defined under the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* Moreover, Indian Tribes are not considered to be small entities for the purposes of the Regulatory Flexibility Act.

Small Business Regulatory Enforcement Fairness Act

The rule is not a major rule under 5 U.S.C. 804(2), the Small Business

Regulatory Enforcement Fairness Act. The rule does not have an effect on the economy of \$100 million or more. The rule will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, local government agencies or geographic regions, nor will the proposed rule have a significant adverse effect on competition, employment, investment, productivity, innovation, or the ability of the enterprises, to compete with foreign based enterprises.

Unfunded Mandates Reform Act

The Commission, as an independent regulatory agency, is exempt from compliance with the Unfunded Mandates Reform Act, 2 U.S.C. 1502(1); 2 U.S.C. 658(1).

Takings

In accordance with Executive Order 12630, the Commission has determined that the rule does not have significant takings implications. A takings implication assessment is not required.

Civil Justice Reform

In accordance with Executive Order 12988, the Commission has determined that the rule does not unduly burden the judicial system and meets the requirements of sections 3(a) and 3(b)(2) of the Order.

National Environmental Policy Act

The Commission has determined that the rule does not constitute a major federal action significantly affecting the quality of the human environment and that no detailed statement is required pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4321, *et seq.*

Paperwork Reduction Act

The information collection requirements contained in this rule were previously approved by the Office of Management and Budget as required by 44 U.S.C. 3501, *et seq.*, and assigned OMB Control Number 3141-0009. The OMB control number expires on November 30, 2018.

Tribal Consultation

The National Indian Gaming Commission is committed to fulfilling its tribal consultation obligations—whether directed by statute or administrative action such as Executive Order (E.O.) 13175 (Consultation and Coordination with Indian Tribal Governments)—by adhering to the consultation framework described in its Consultation Policy published July 15, 2013. The NIGC’s consultation policy specifies that it will consult with tribes

on Commission Action with Tribal Implications, which is defined as: Any Commission regulation, rulemaking, policy, guidance, legislative proposal, or operational activity that may have a substantial direct effect on an Indian tribe on matters including, but not limited to the ability of an Indian tribe to regulate its Indian gaming; an Indian tribe’s formal relationship with the Commission; or the consideration of the Commission’s trust responsibilities to Indian tribes.

The key control language proposed here is the most substantive of all the changes and was the subject of extensive consultation in 2012 (77 FR 58708). The language proposed here has not changed since initially adopted. It was inadvertently written over with the addition of kiosk controls in 2013. The remaining changes are all technical in nature, correcting numbering and adding minor clarifications.

(ii) The custody of the emergency manual keys requires the presence of two agents from separate departments from the time of their issuance until the time of their return; and

(iii) Routine physical maintenance that requires access to the emergency manual key(s), and does not involve accessing the player interface drop and count keys, only requires the presence of two agents from separate departments. Endangered and Threatened Wildlife and Plants; Removing *Oenothera coloradensis* (Colorado Butterfly Plant) From the Federal List of Endangered and Threatened Plants

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), propose to remove the Colorado butterfly plant (*Oenothera coloradensis*, currently listed as *Gaura neomexicana* ssp. *coloradensis*) from the Federal List of Endangered and Threatened Plants (List) due to recovery. This determination is based on a thorough review of the best available scientific and commercial data, which indicate that the threats to the Colorado butterfly plant have been eliminated or reduced to the point that it has recovered, and that this plant is no longer likely to become endangered in the foreseeable future and, therefore, no longer meets the definition of a threatened species under the Endangered Species Act of 1973, as amended (Act). This proposed rule, if made final, would also remove the currently designated critical habitat for the Colorado butterfly plant. We are seeking information, data, and comments from the public on the proposed rule to remove the Colorado butterfly plant from the List (*i.e.*, “delist” the species). In addition, we are also seeking input on considerations for post-delisting monitoring of the Colorado butterfly plant.

DATES: We will accept comments received or postmarked on or before August 7, 2018. Comments submitted electronically using the Federal

eRulemaking Portal (see **ADDRESSES**, below), must be received by 11:59 p.m. Eastern Time on the closing date. We must receive requests for public hearings, in writing, at the address shown in **FOR FURTHER INFORMATION CONTACT** by July 23, 2018.

SUPPLEMENTARY INFORMATION:

Information Requested

Public Comments

We want any final action resulting from this proposal to be as accurate as possible. Therefore, we invite tribal and governmental agencies, the scientific community, industry, and other interested parties to submit comments or recommendations concerning any aspect of this proposed rule. Comments should be as specific as possible. We particularly seek comments and new information concerning:

- (1) Our analyses of the Colorado butterfly plant’s abundance, distribution, and population trends;
- (2) Potential impacts from disturbances, such as grazing and residential, urban, and energy development;
- (3) Conservation activities within the plant’s range;
- (4) Potential impacts from the effects of climate change; and
- (5) Input on considerations for post-delisting monitoring of the Colorado butterfly plant.

Please include sufficient supporting information with your submission (such as scientific journal articles or other publications) to allow us to verify any scientific or commercial information you include. Please note that submissions merely stating support for or opposition to the action under consideration without providing supporting information, although noted, may not meet the standard of information required by section 4(b)(1)(A) of the Act (16 U.S.C. 1531 *et seq.*), which directs that determinations as to whether any species is an endangered or threatened species must be made “solely on the basis of the best scientific and commercial data available.”

To issue a final rule to implement this proposed action, we will take into consideration all comments and any additional information we receive. Such communications may lead to a final rule that differs from this proposal. All comments, including commenters’ names and addresses, if provided to us, will become part of the supporting record.
