SUPPLEMENTARY INFORMATION: In the **Federal Register** of March 16, 2018, FDA published an NOA with a 90-day comment period to request public comment on the draft concept paper

regarding the potential for illicit trade markets to develop in response to a tobacco product standard. The Agency received a request for a 90-day extension of the comment period for the NOA. The request conveyed concern that the current 90-day comment period does not allow sufficient time to develop a meaningful or thoughtful response to the NOA.

FDA has considered the request and is extending the comment period for the NOA for 30 days, until July 16, 2018. The Agency believes that a 30-day extension allows adequate time for interested persons to submit comments without creating significant delay.
