32 CFR Part 149

[Docket ID: DOD–2017–OS–0050]

RIN 0790–AJ59

Policy on Technical Surveillance Countermeasures

AGENCY: Under Secretary of Defense for Intelligence, DoD.

ACTION: Final rule.

SUMMARY: This final rule removes DoD’s regulation concerning the Technical Surveillance Countermeasures (TSCM) Program. DoD originally determined that rulemaking was required based on the portion of this part that speaks to providing assistance to non-DoD agencies. However, this part places no burden on other agencies. The description of the relationship with other agencies is in accordance with federal law, and this part is unnecessary. Therefore, this part can be removed from the CFR.

DATES: This rule is effective on June 14, 2018.

FOR FURTHER INFORMATION CONTACT: Richard Davison, 703–697–4850.

SUPPLEMENTARY INFORMATION: It has been determined that publication of this CFR part removal for public comment is impracticable, unnecessary, and contrary to public interest since it is based on removing DoD internal policies and procedures that are publically available on the Department’s issuance website.

This part contains internal DoD requirements and thus, does not fiscally impact parties outside of DoD. DoD’s internal DoD Instruction 5240.05, “Technical Surveillance Countermeasures (TSCM),” remains in effect exclusively for the management of TSCM in DoD and is available at http://www.esd.whs.mil/Portals/54/Documents/DD/issuances/dodi/524005_2014.pdf.

This rule is not significant under Executive Order (E.O.) 12866, “Regulatory Planning and Review,” therefore, E.O. 13771, “Reducing Regulation and Controlling Regulatory Costs” does not apply.

33 CFR Part 117

[Docket No. USCG–2018–0438]

Drawbridge Operation Regulation; Newark Bay, Newark, NJ

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Lehigh Valley Bridge across the Newark Bay, mile 4.3, at Newark, New Jersey. This temporary deviation is necessary to allow the bridge to remain in the closed-to-navigation position to facilitate repairs.

DATES: This deviation is effective from 6 a.m. on July 15, 2018, to 6 p.m. on August 6, 2018.

ADDRESSES: The docket for this deviation, USCG–2018–0438 is available at <http://www.regulations.gov>. Type the docket number in the “SEARCH” box and click “SEARCH.” Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Judy Leung-Yee, Bridge Management Specialist, First District Bridge Branch, U.S. Coast Guard, telephone 212–514–4336, email Judy.K.Leung-Yee@uscg.mil.

SUPPLEMENTARY INFORMATION: Consolidated Rail Corporation, the owner of the bridge, requested a temporary deviation from the normal operating schedule to facilitate A-Frame sheave bearing repairs. The Lehigh Valley Bridge across the Newark Bay, mile 4.3, at Newark, New Jersey is a lift bridge with a vertical clearance in the closed position of 35 feet at mean high water and 39 feet at mean low water. The existing bridge operating

regulations are listed at 33 CFR 117.5 and 117.735.

Under this temporary deviation, the Lehigh Valley Bridge shall remain in the closed position from 6 a.m. on July 15, 2018, to 6 p.m. on July 16, 2018. Should inclement weather occur, the following rain dates may be used: (1) From 6 a.m. on July 22, 2018, to 6 p.m. on July 23, 2018; (2) from 6 a.m. on July 29, 2018, to 6 p.m. on July 30, 2018; or (3) from 6 a.m. on August 5, 2018, to 6 p.m. on August 6, 2018.

The waterway users are seasonal recreational boaters and commercial vessels of various sizes. Coordination with waterway users indicated no objections to this temporary deviation. Vessels able to pass under the bridge in the closed position may do so at any time. The bridge will not be able to open for emergencies and there is no immediate alternate route for vessels to pass.

The Coast Guard will inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessel operators can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: June 11, 2018.

C.J. Bisignano,

Supervisory Bridge Management Specialist, First Coast Guard District.
