**Snapper-Grouper Fishery of the South Atlantic Region; Temporary Measures to Reduce Overfishing of Golden Tilefish**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; interim measures extended.

**SUMMARY:** NMFS issues this temporary rule to extend the expiration date of interim measures to reduce overfishing of golden tilefish in Federal waters of the South Atlantic implemented by a temporary rule published by NMFS on January 2, 2018. This temporary rule extends the reduced total annual catch limit (ACL), commercial and recreational sector ACLs, and quotas for the hook-and-line and longline components of the commercial sector for an additional 186 days. The purpose of this temporary rule extension is to reduce overfishing of golden tilefish while the South Atlantic Fishery Management Council (Council) develops management measures to end overfishing of golden tilefish on a permanent basis.

**DATES:** The expiration date for the final temporary rule published at 83 FR 65 on January 2, 2018, is extended through January 3, 2019, unless NMFS publishes a superseding document in the **Federal Register**.

**ADDRESSES:** Electronic copies of the environmental assessment (EA) supporting these interim measures may be obtained from the Southeast Regional Office website at [http://sero.nmfs.noaa.gov/sustainable\\_fisheries/s\\_atl/sg/2017/golden\\_tilefish\\_interim/index.html](http://sero.nmfs.noaa.gov/sustainable_fisheries/s_atl/sg/2017/golden_tilefish_interim/index.html). The EA includes a Regulatory Flexibility Act (RFA) analysis.

**FOR FURTHER INFORMATION CONTACT:**

Mary Vara, NMFS Southeast Regional Office, telephone: 727-824-5305, or email: [mary.vara@noaa.gov](mailto:mary.vara@noaa.gov).

**SUPPLEMENTARY INFORMATION:** The snapper-grouper fishery in the South Atlantic region includes golden tilefish and is managed under the Fishery Management Plan for Snapper-Grouper Fishery of the South Atlantic Region

(FMP). The FMP was prepared by the Council and is implemented by NMFS through regulations at 50 CFR part 622 under authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

On January 2, 2018, NMFS published the final temporary rule to implement interim measures to reduce overfishing of golden tilefish in South Atlantic Federal waters (83 FR 65). The final temporary rule reduced the total ACL for golden tilefish to 323,000 lb (146,510 kg), gutted weight; 361,760 lb (164,092 kg), round weight. In addition, the final temporary rule reduced the commercial and recreational sector ACLs and component commercial quotas, using the existing sector allocations, and the quotas for the hook-and-line and longline components of the commercial sector. Therefore, during the effectiveness of the final temporary rule and this temporary rule extension, the commercial ACL is 313,310 lb (142,115 kg), gutted weight; the commercial quota for the hook-and-line component is 78,328 lb (35,529 kg), gutted weight; and the commercial quota for the longline component is 234,982 lb (106,586 kg), gutted weight. The recreational ACL during the effectiveness of the final temporary rule and this temporary rule extension is 2,187 fish, which is equivalent to 9,690 lb (4,395 kg), gutted weight. This temporary rule extension continues the measures in the final temporary rule unchanged for an additional 186 days, unless this temporary rule extension is superseded by subsequent rulemaking. The purpose of these interim measures is to reduce the overfishing of golden tilefish in South Atlantic Federal waters, while long-term management measures are developed and implemented through Regulatory Amendment 28 to the FMP. The January 2, 2018, final temporary rule stated that long-term management measures would be developed through Amendment 45 to the FMP. The Council subsequently determined that an FMP amendment was not required, and that the same management measures could be developed and implemented using the existing FMP framework procedures. Regulatory Amendment 28 will include management measures to end overfishing of golden tilefish on a long-term basis.

Regulatory Amendment 28 is scheduled to be approved by the Council at their June 2018 meeting and implemented prior to the expiration of the interim measures in this temporary rule extension in the 2019 fishing year, which begins on January 1, 2019.
