

HTSUS Subheading	Product Description
8705.90.00	Mtr. vehicles (o/than for transport of persons or of goods), special purpose motor vehicles nesoi
8711.10.00	Motorcycles (incl. mopeds) and cycles, fitted w/ recip. internal-combustion piston engine w/capacity n/o 50 cc
8711.60.00	Motorcycles (incl. mopeds) and cycles, w/electric motor for propulsion
8711.90.01	Motorcycles (incl. mopeds) and cycles, nesoi
8901.30.00	Vessels, designed for the transport of goods, refrigerated vessels (o/than tankers)
8905.90.10	Floating docks
9001.10.00	Optical fibers, optical fiber bundles and cables, other than those of heading 8544
9001.20.00	Sheets and plates of polarizing material
9014.10.90	Direction finding compasses, other than optical instruments, gyroscopic compasses or electrical
9025.19.40	Pyrometers, not combined with other instruments
9025.19.80	Thermometers, for direct reading, not combined with other instruments, other than liquid-filled thermometers
9025.80.10	Electrical: hydrometers & sim. floating instr., hygrometers, psychometers, & any comb. with or w/o thermometers, pyrometers, & barometers
9027.10.20	Electrical gas or smoke analysis apparatus
9027.90.20	Microtomes
9028.10.00	Gas supply or production meters, including calibrating meters thereof
9028.20.00	Liquid supply or production meters, including calibrating meters thereof
9028.30.00	Electricity supply or production meters, including calibrating meters thereof
9029.20.40	Speedometers and tachometers, other than bicycle speedometers
9029.90.80	Parts and accessories of revolution counters, production counters, odometers, pedometers and the like, of speedometers nesoi and tachometers
9030.31.00	Multimeters for measuring or checking electrical voltage, current, resistance or power, without a recording device
9030.32.00	Multimeters, with a recording device
9030.84.00	Instruments and apparatus for measuring, checking or detecting electrical quantities or ionizing radiations, nesoi: with a recording device
9030.89.01	Instruments and apparatus for measuring, checking or detecting electrical quantities or ionizing radiations, nesoi: w/o a recording device

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Summary Notice No. 2018-56]

Petition for Exemption; Summary of Petition Received; Cruiser Aircraft, Inc.

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Notice.

SUMMARY: This notice contains a summary of a petition seeking relief from specified requirements of Federal Aviation Regulations. The purpose of this notice is to improve the public's awareness of, and participation in, the FAA's exemption process. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the

legal status of the petition or its final disposition.

DATES: Comments on this petition must identify the petition docket number and must be received on or before July 10, 2018.

ADDRESSES: Send comments identified by docket number FAA-2018-0004 using any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov> and follow the online instructions for sending your comments electronically.
- *Mail:* Send comments to Docket Operations, M-30; U.S. Department of Transportation, 1200 New Jersey Avenue SE, Room W12-140, West Building Ground Floor, Washington, DC 20590-0001.
- *Hand Delivery or Courier:* Take comments to Docket Operations in Room W12-140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC 20590-0001, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

- *Fax:* Fax comments to Docket Operations at (202) 493-2251.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to <http://www.regulations.gov>, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <http://www.dot.gov/privacy>.

Docket: Background documents or comments received may be read at <http://www.regulations.gov> at any time. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12-140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC 20590-0001, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Clarence Garden (202) 267-7489, Office of Rulemaking, Federal Aviation

Administration, 800 Independence Avenue SW, Washington, DC 20591.

This notice is published pursuant to 14 CFR 11.85.

Issued in Washington, DC, on June 12, 2018.

Lirio Liu,

Executive Director, Office of Rulemaking.

Petition For Exemption

Docket No.: FAA–2018–0004.
Petitioner: Cruiser Aircraft, Inc. (CSA).

Section(s) of 14 CFR Affected: 21.190(c)(2).

Description of Relief Sought: The proposed exemption, if granted, would allow those Sport Cruiser special light-sport aircraft manufactured by CSA with serial number SC0557 and up that otherwise comply with the applicable consensus standards to be eligible for issuance (or re-issuance) of a special airworthiness certificate in the light-sport category with a maximum takeoff weight of not more than 1,386 pounds (630 kilograms).

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2018–0021]

Petition for Waiver of Compliance

Under part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated February 16, 2018, TexRail (TEXR) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 238, *Passenger Equipment Safety Standards*. FRA assigned the petition Docket Number FRA–2018–0021.

TEXR has ordered eight FLIRT Series Diesel Multiple Units (DMU) trainsets manufactured by Stadler Bussnang AG with an option to purchase additional trainsets. The DMUs are designed to fulfill the requirements set forth by 49 CFR 238.201, *Scope/alternative compliance*. TEXR requests a waiver “based on compliance with the FRA-issued guideline ‘Technical Criteria and Procedures for Evaluating the Crashworthiness and Occupant Protection Performance of Alternatively-Designed Passenger Rail Equipment for Use in Tier I Service’ and the proposed Appendix G to 49 CFR part 238.” Currently, these vehicles are being delivered and tested at the TEXR maintenance facility. Specifically, TEXR

seeks relief from certain requirements for end-frame compression and other procedures as presented in their petition.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation’s (DOT) Docket Operations Facility, 1200 New Jersey Ave. SE, W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- *Website:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Fax:* 202–493–2251.
- *Mail:* Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE, Room W12–140, Washington, DC 20590.
- *Hand Delivery:* 1200 New Jersey Avenue SE, Room W12–140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by July 20, 2018 will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable.

Anyone can search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. See also <https://www.regulations.gov/>

privacyNotice for the privacy notice of *regulations.gov*.

BILLING CODE 4910–06–P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2018–0049]

Petition for Waiver of Compliance

Under part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that on May 29, 2018, BNSF Railway (BNSF) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR 232.213, 232.15, and 232.103(f). In addition, BNSF requests an exemption from the requirements of Title 49, United States Code (U.S.C.), section 20303, which prohibits the movement of a rail vehicle with defective or insecure equipment beyond the nearest available place at which the repairs can be made. See 49 U.S.C. 20306. FRA assigned the petition Docket Number FRA–2018–0049.

Specifically, BNSF petitions FRA to conduct a pilot program on a segment of their system to “demonstrate that the use of wheel temperature detectors (WTD) to prove brake health effectiveness (BHE) will improve safety, reduce risks to employees, and provide cost savings to the industry.” Currently, the effectiveness of railroad brake systems is verified by Class I initial terminal and Class IA intermediate brake tests. BNSF proposes to supplement these visual inspections with a wayside WTD, a device designed to directly measure the rise in wheel temperatures because of a brake application. BNSF asserts that such a measure of performance is objective, quantifiable, and independent of conditions that can impair a visual inspection; such as weather, lighting, human fatigue, or human error.

BNSF states that a monitoring system using WTD data as an alternative to the intermediate brake inspections is expected to substantially improve the reliability of brake inspections, reduce on-line setouts, and increase faulty part replacement, to improve the safety performance of brake systems overall. BNSF plans to use pyrometer sensors, a technology also used for hot wheel
