SUPPLEMENTARY INFORMATION:

I. Background

The FDA Food Safety Modernization Act (FSMA) (Pub. L. 111-353) enables FDA to better protect public health by helping to ensure the safety and security of the food supply. FSMA enables FDA to focus more on preventing food safety problems rather than relying primarily on reacting to problems after they occur.

FSMA added to the FD&C Act several new sections that reference intentional adulteration. For example, section 418 of the FD&C Act (21 U.S.C. 350g) addresses intentional adulteration in the context of facilities that manufacture, process, pack, or hold food, and that are required to register under section 415 (21 U.S.C. 350d). Section 420 of the FD&C Act (21 U.S.C. 350i) addresses intentional adulteration in the context of high-risk foods and exempts farms except for farms that produce milk.

We are announcing the availability of a draft guidance for industry entitled “Mitigation Strategies to Protect Food Against Intentional Adulteration: Guidance for Industry.” This multi-chapter draft guidance for industry is intended to help food facilities required to comply develop and implement some of the components of a food defense plan, and meet other requirements under 21 CFR part 121. We are announcing the availability of the following chapters:

- Introduction
- Chapter One—The Food Defense Plan
- Chapter Two—Vulnerability Assessment to Identify Significant

Vulnerabilities and Actionable Process Steps

- Chapter Three—Mitigation Strategies for Actionable Process Steps
- Chapter Four—Mitigation Strategies Management Components: Food Defense Monitoring
- Appendix—Food Defense Plan Worksheets

We intend to announce the availability for public comment of additional and expanded chapters of the draft guidance as we complete them.

II. Significance of Guidance

This level 1 draft guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current thinking of FDA on food defense measures against intentional adulteration for the regulation "Mitigation Strategies to Protect Food Against Intentional Adulteration." It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations. This guidance is not subject to Executive Order 12866.

III. Paperwork Reduction Act of 1995

This draft guidance refers to previously approved collections of information found in FDA regulations. These collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). The collections of information in 21 CFR part 507 have been approved under OMB control number 0910–0789.

IV. Electronic Access

Persons with access to the internet may obtain the draft guidance at either <https://www.fda.gov/RegulatoryInformation/Guidances/default.htm> or <https://www.regulations.gov>. Use the FDA website listed in the previous sentence to find the most current version of the guidance.
