SUPPLEMENTARY INFORMATION: When a contributing employer withdraws from an underfunded multiemployer pension plan, the plan sponsor assesses withdrawal liability against the employer. The plan sponsor is required to determine and collect withdrawal liability in accordance with section 4219 of the Employee Retirement Income Security Act of 1974 (ERISA). The plan sponsor assesses withdrawal liability by issuing a notice to an employer, including the amount of the employer's liability and a schedule of payments. PBGC's regulation on Notice, Collection, and Redetermination of Withdrawal Liability (29 CFR part 4219) requires the plan sponsor to file with PBGC a certification that notices have been provided to employers.

PBGC is proposing to collect information about withdrawal liability that is owed by withdrawn employers of terminated¹ and insolvent²

multiemployer pension plans. PBGC would distribute a survey that insolvent plans receiving financial assistance and terminated plans not yet receiving financial assistance would be required to complete and return to PBGC. Smaller plans with less than 500 participants would not be required to complete the survey. PBGC needs the information from the survey about withdrawal liability payments and settlements, and whether employers have withdrawn from the plan but have not yet been assessed withdrawal liability, to estimate with more precision PBGC's multiemployer liabilities for purposes of its financial statements.³ PBGC would also use the information for its Multiemployer Pension Insurance Modelling System assumptions on collection of withdrawal liability. Information provided to PBGC would be confidential to the extent provided in the Freedom of Information Act and the Privacy Act.

The survey would be sent to approximately 65 plans.⁴ PBGC estimates that each survey would require approximately 4 hours to complete by a combination of pension fund office staff (50%) and outside attorneys (50%). PBGC estimates an hour burden of 130 hours (based on pension fund office time). The estimated dollar equivalent of this hour burden, based on an assumed hourly rate of \$75 for administrative, clerical, and supervisory time is \$9,750. PBGC estimates a cost burden for the withdrawal liability survey of \$52,000 (based on 130 attorney hours assuming an average hourly rate of \$400). PBGC further estimates that the average burden will be 2 hours of pension fund office staff time and \$800 per plan.

PBGC intends to request that OMB approve PBGC's use of this survey for three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

as the corporation determines are equitable and are appropriate to prevent unreasonable loss to the corporation with respect to the plan.

³ Section 4008 of ERISA requires the corporation, as soon as practicable after the close of each fiscal year, to transmit a report to the President and the Congress, including financial statements setting forth the finances of the corporation at the end of the fiscal year and the result of its operations (including the source and application of its funds) for the fiscal year.

⁴ As of September 30, 2017, there were 68 terminated plans not yet receiving financial assistance and 72 insolvent plans that received financial assistance from PBGC. See PBGC FY 2017 Annual Report, page 94 at <https://www.pbgc.gov/sites/default/files/pbgc-annual-report-2017.pdf>. Approximately 65 of the plans have 500 or more participants.

PBGC is soliciting public comments to—

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Assistant General Counsel for Regulatory Affairs, Pension Benefit Guaranty Corporation.
