Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is considering an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 to establish Class E airspace extending upward from 700 feet above the surface within a 6-mile radius of Chebeague Island Heliport, Chebeague Island, ME, providing the controlled airspace required to support the new Copter RNAV (GPS) standard instrument approach procedures for IFR operations at Chebeague Island Heliport.

Class E airspace designations are published in Paragraph 6005 of FAA Order 7400.11B, dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal would be subject to an environmental analysis in accordance with FAA Order 1050.1F,

“Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

AGENCY: Federal Aviation Administration (FAA) DOT.

ACTION: Notice of proposed rulemaking (NPRM); withdrawal.

SUMMARY: The FAA is withdrawing the NPRM published in the **Federal Register** on January 5, 2017, proposing to establish 12 high altitude area navigation (RNAV) routes (Q-routes), and modify one existing Q-route, in support of the Atlantic Coast Route Project (ACRP). The FAA reviewed project scoping and determined that additional planning is warranted to ensure a more efficient implementation and integration with other ongoing program activities, and determined that withdrawal of the proposed rule is warranted.

DATES: Effective as of 0901 UTC, June 22, 2018, the proposed rule published January 5, 2017 (82 FR 1276), is withdrawn.

Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal. No comments were received.

FAA's Conclusions

The FAA has reviewed project scoping and determined that additional planning is warranted to ensure a more efficient implementation and integration with other ongoing program activities; therefore, the NPRM is withdrawn.

Proposed Amendment of Class E Airspace, Bloomsburg, PA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Class E airspace extending upward from 700 feet or more above the surface at Bloomsburg, PA, due to the decommissioning of the Milton very high frequency omni-directional range collocated tactical air navigation aid (VORTAC) which requires airspace reconfiguration at Bloomsburg Municipal Airport. Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations at the airport. This action also would update the geographic coordinates of the airport.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.
