Animal and Plant Health Inspection Service

Title: Importation of Gypsy Moth Host Materials from Canada.

OMB Control Number: 0579-0142.

Summary of Collection: The United States Department of Agriculture (USDA) is responsible for preventing plant diseases or insect pests from entering the United States, preventing the spread of pests not widely distributed in the United States, and eradicating those imported pests when eradication is feasible. Under the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture is authorized to regulate the importation of plants, plant products, and other articles to prevent the introduction of injurious plant pests. The Plant Protection and Quarantine program within USDA's Animal and Plant Health Inspection Service (APHIS) is responsible for ensuring that these regulations are enforced.

Need and Use of the Information: APHIS will collect information from individuals both within and outside the United States using phytosanitary certificates, certificates of origin, a written statement, a compliance agreement and an emergency Action notice. Information collected will ensure that importing foreign logs, trees, shrubs, and other articles do not harbor plant or insect pests such as the gypsy moth. Failing to collect this information would cripple APHIS' ability to ensure that trees, shrubs, logs, and a variety of other items imported from Canada do not harbor gypsy moths.

Description of Respondents: Business or other for-profit; Individuals or households; Federal Government.

Number of Respondents: 2,526.

Frequency of Responses: Reporting; On occasion.

Total Burden Hours: 212.

Animal and Plant Health Inspection Service

Title: Importation of Clementines from Spain.

OMB Control Number: 0579-0203.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701 *et*

Under the regulations, clementines from Spain are subject to certain conditions before entering the United States to ensure that exotic plant pest, such as the Mediterranean fruit fly, are not introduced into the United States.

Need and Use of the Information: APHIS uses the following information collection activities to allow the importation of Clementines from Spain when the requirements include: Provisions that the Clementines be grown in accordance with a Mediterranean fruit fly management program established by the Government of Spain; Trapping and Control Records; Phytosanitary Certificate; Labeling and Traceback; Cold Treatment Data for Consignments; Trust Fund Agreement; Grower Registration and Agreement; Management Program Mediterranean Fruit Fly Monitoring; Cold Treatment Facility/Carrier Certification; Workplan, Advance Reservations for Cold Treatment Port Space; and Emergency Action Notification.
