

Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding (1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by July 30, 2018 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725 17th Street NW, Washington, DC 20502. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@OMB.EOP.GOV or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602. Copies of the submission(s) may be obtained by calling (202) 720–8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: Animal Disease Traceability.
OMB Control Number: 0579–0327.

Summary of Collection: The Animal Health Protection Act of 2002 (7 U.S.C. 8301–8317) is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. As part of its ongoing efforts to safeguard animal health, the U.S. Department of Agriculture's Animal and Plant Health Inspection Service (APHIS) developed the Animal Disease Traceability (ADT) framework which continues to be a partnership involving APHIS, States, Tribes, and industry to provide a system

for animal traceability. Traceability helps document the movement history of an animal throughout its life, including during an emergency response or for ongoing animal disease programs.

Need and Use of the Information: APHIS uses information provided by businesses, States, and Tribal Nations to facilitate animal disease traceability and support disease control, eradication, and surveillance activities. Some of the information collection activities include: Applications for use of more than official identification device; applications for and approval of tagging sites; evaluation of States and Tribes; documentation of completion of performance measures; commuter herd agreements; collection of identification devices at slaughter; obtaining official eartags; application of State shields; official identification device distribution records; certification of veterinary inspection; unauthorized removal or loss of official identification devices; reporting retagging animal records; premises identification and updates; nonproducer participant registration; official identification device applications and approved identification device manufacturer agreements and updates; animal identification number manager registration, agreements, and updates; cooperative agreements; State/Tribe quarterly reports; animal disease tractability road maps; eartag orders; program site tag information; records of tags issues and applied; coordination of tag orders with manufacturers; reporting loss, theft, and misuse of tags; removal or replacement of eartags; and recordkeeping. If this information was not collected, APHIS' ability to address traceability needs would be significantly hampered.

Description of Respondents: State, Local, or Tribal Government; Businesses.

Number of Respondents: 275,622.

Frequency of Responses: Recordkeeping; Third-Party Disclosure; Reporting; On occasion.

Total Burden Hours: 1,314,736.

Submission for OMB Review; Comment Request

June 25, 2018.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by July 30, 2018 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725 17th Street NW, Washington, DC 20502. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@OMB.EOP.GOV or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602. Copies of the submission(s) may be obtained by calling (202) 720–8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Foreign Agricultural Service

Title: Sugar Imported for Exports as Refined Sugar, as a Sugar-Containing Product, or Used in Production of Certain Polyhydric Alcohols.

OMB Control Number: 0551–0015.

Summary of Collection: The regulation at 7 CFR part 1530 authorizes the Foreign Agricultural Service (FAS) to issue import licenses to enter raw

cane sugar exempt from the tariff-rate quota (TRQ) for the raw cane sugar imports and related requirements on the condition that an equivalent quantity of refined sugar be: (1) Exported as refined sugar; (2) exported as an ingredient in sugar containing products; or (3) used in production of certain polyhydric alcohols. The information requirements set forth in the regulation are necessary to enable FAS to administer the licensing program in full compliance with the regulation and to ensure that licensed imports do not enter the commercial sugar market in circumvention of the TRQ for raw cane sugar.

Need and Use of the Information: FAS will collect information to verify that the world-priced sugar is actually exported and not diverted onto the domestic market, thereby undermining the objectives of politically sensitive U.S. sugar policies. This collection enables USDA to monitor participants in an effort to ensure compliance with program parameters. Without the collection, there would be increased opportunity to divert sugar onto the domestic market.

Description of Respondents: Business or other for-profit.

Number of Respondents: 325.

Frequency of Responses:

Recordkeeping; Reporting; Quarterly.

Total Burden Hours: 414.

Foreign Agricultural Service

Title: Specialty Sugar Certificate Application.

OMB Control Number: 0551-0025.

Summary of Collection: The collect of information is necessary to fulfill the legal obligations of the regulation at 15 CFR 2011 subpart B to issue specialty sugar certificates, letters to importers signed by the Foreign Agricultural Service (FAS) Certifying Authority, and ensuring that U.S. importers comply with the program's requirements. The regulation sets forth the terms and conditions under which the Certifying Authority in FAS issues certificates to importers allowing them to enter specialty sugars under the tariff-rate quota (TRQ) for refined sugar.

Need and Use of the Information: The collected information will be used to: (1) Determine whether applicants for the program meet the regulation's eligibility criteria; (2) ensure that sugar to be imported is specialty sugar and meets the requirements of the regulation; (3) audit participants' compliance with the regulation; and (4) prevent entry of world-priced program sugar from entering the domestic commercial sugar market instead of domestic specialty sugar market. The Certifying Authority

needs the information to manage, plan, evaluate, and account for program activities. Less frequent collection or no collection would impede administration of the specialty sugar certificate program and reduce or eliminate imports essential to U.S. organic food and beverages processors.

Description of Respondents: Business or other for-profit.

Number of Respondents: 60.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 66.

SUPPLEMENTARY INFORMATION:

Title: Agriculture Wool Apparel Manufacturers Trust Fund.

OMB Control Number: 0551-0045.

Expiration Date of Approval: September 30, 2018.

Type of Request: Revision of a currently approved information collection.

Abstract: This information collection is required for affidavits submitted to FAS for claims against the Agriculture Wool Apparel Manufacturers Trust Fund. Claimants of the Agriculture Wool Apparel Manufacturers Trust Fund will be required to submit electronically a notarized affidavit and information pertaining to the production of worsted wool suits, suit-type jackets, or trousers for boys and men; or the weaving of wool yarn, wool fiber, or wool top. This electronic filing would be in lieu of the current paper document submission.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average approximately 2 hours per response for affidavits related to the Agriculture Wool Apparel Manufacturers Trust Fund.

Type of Respondents: Under the Agriculture Wool Apparel Manufacturers Trust Fund there are four groups of potential respondents, as authorized by Section 12315 of Act (Pub. L. 113-79): (1) Persons in the United States who produced worsted wool suits, suit-type jackets, or trousers for men and boys in the year prior to the application using worsted wool fabric of the kind described in headings 9902.51.11, 9902.51.15, or who wove worsted wool fabrics suitable for use in making men and boys suits under heading 9902.51.16 of the Harmonized Tariff Schedule of the United States; (2) Persons in the United States who processed wool yarn, wool fiber, or wool top of the kind described in headings 9902.51.13 or 9902.51.14 of
