

Date and time	Location
August 1, 2018 (4:00 p.m.–7:00 p.m. CST)	Cameron Parish School Board, Educational Conference Center, 510 Marshall Street, Cameron, Louisiana 70631, (337) 775–5784.

The primary goal of this comment session is to have you identify the specific environmental issues and concerns with the draft EIS. Individual verbal comments will be taken on a one-on-one basis with a court reporter. This format is designed to receive the maximum amount of verbal comments, in a convenient way during the timeframe allotted.

The comment session is scheduled from 4 p.m. to 7 p.m. CST. You may arrive at any time after 4 p.m. There will not be a formal presentation by Commission staff when the session opens. If you wish to speak, the Commission staff will hand out numbers in the order of your arrival; distribution of numbers will be discontinued at 6 p.m. However, if no additional numbers have been handed out and all individuals who wish to provide comments have had an opportunity to do so, staff may conclude the session at 6 p.m. Please see appendix 1 for additional information on the session format and conduct.¹

Your verbal comments will be recorded by the court reporter (with FERC staff or representative present) and become part of the public record for this proceeding. Transcripts will be publicly available on FERC's eLibrary system (see below for instructions on using eLibrary). If a significant number of people are interested in providing verbal comments in the one-on-one settings, a time limit of 5 minutes may be implemented for each commentator.

It is important to note that verbal comments hold the same weight as written or electronically submitted comments. Although there will not be a formal presentation, Commission staff will be available throughout the comment session to answer your questions about the environmental review process.

Filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered. However, only intervenors have the right to seek rehearing or judicial review of the

¹ The appendices referenced in this notice will not appear in the **Federal Register**. Copies of the appendices were sent to all those receiving this notice in the mail and are available at www.ferc.gov using the link called eLibrary or from the Commission's Public Reference Room, 888 First Street NE, Washington, DC 20426, or call (202) 502–8371. For instructions on connecting to eLibrary, refer to the last page of this notice.

Commission's decisions. Any person may seek to intervene on environmental grounds and thereby become a party to this proceeding by filing a motion to intervene that complies with the requirements in Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR Part 385.214). Any such intervention must be filed within the comment period for the draft EIS to be deemed timely. Motions to intervene that are filed after the comment due date for the draft EIS are untimely and may be denied. Any late-filed motion to intervene must show good cause why the time limitation should be waived and provide justification by reference to factors set forth in Rule 214(d) of the Commission's Rules of Practice and Procedures (18 CFR part 385.214(b)(3) and (d)). The Commission strongly encourages electronic filing of interventions in lieu of paper using the eFiling feature described above, and available at <http://www.ferc.gov>. Persons unable to file electronically may submit a paper copy of the intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

Questions?

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208–FERC, or on the FERC website (www.ferc.gov) using the eLibrary link. Click on the eLibrary link, click on General Search, and enter the docket number in the Docket Number field, excluding the last three digits (*i.e.*, CP15–550; CP15–551). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208–3676; or for TTY, contact (202) 502–8659. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Dated: June 22, 2018.

Nathaniel J. Davis, Sr.,

Deputy Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP18–503–000]

ANR Pipeline Company; Notice of Request Under Blanket Authorization

Take notice that on June 14, 2018, ANR Pipeline Company (ANR), 700 Louisiana Street, Suite 700, Houston, Texas 77002–2700, filed in Docket No. CP18–503–000 a prior notice request pursuant to sections 157.205, 157.208, and 157.216 of the Commission's regulations under the Natural Gas Act (NGA), and ANR's blanket certificate issued in Docket No. CP82–480–000, to abandon 20 injection/withdrawal wells, one observation well, and related appurtenances in its Winfield Storage Field, located in Mecosta and Montcalm Counties Michigan (Winfield Storage Field Wells Abandonment Project).

ANR states that the well integrity risk assessments for these wells revealed integrity weaknesses, and to maintain these wells would require some form of remediation, the cost of which would likely exceed the cost of plugging, as well as exceed the value provided by the wells to storage operations. ANR claims many of the wells proposed for abandonment are poor performers in comparison with other wells in the Winfield Storage Field, contributing approximately 2.8 percent of the total field deliverability. Therefore, ANR concludes that plugging and abandoning the wells is the best course of action to maintain field integrity and efficiency. ANR affirms that there will be no change to the field's total inventory, reservoir pressure, reservoir and buffer boundaries, or the certificated capacity as a result of the proposed Winfield Storage Field Wells Abandonment Project. ANR estimates the cost of the Project to be approximately \$2.8 million, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the eLibrary link.

Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or TTY, contact (202) 502-8659.

Any questions concerning this application may be directed to Linda Farquhar, Manager, Project Determinations & Regulatory Administration, ANR Pipeline Company, 700 Louisiana Street, Suite 700, Houston, Texas 77002-2700, by telephone at (832) 320-5685, by facsimile at (832) 320-6685, or by email at linda_farquhar@transcanada.com.

Any person or the Commission's staff may, within 60 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to section 157.205 of the regulations under the NGA (18 CFR 157.205), a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the allowed time for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the NGA.

Pursuant to section 157.9 of the Commission's rules (18 CFR 157.9), within 90 days of this Notice, the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's EA.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive

copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters, will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the eFiling link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and seven copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.
