

Dated: June 26, 2018.

E. Scott Pruitt,
Administrator.

For the reasons set forth in the preamble, the EPA amends 40 CFR part 63 as follows:

PART 63—NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS FOR SOURCE CATEGORIES

■ 1. The authority citation for part 63 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart UUUUU—National Emission Standards for Hazardous Air Pollutants: Coal- and Oil-Fired Electric Utility Steam Generating Units

■ 2. Section 63.10021 is amended by revising paragraph (e)(9) to read as follows:

§ 63.10021 How do I demonstrate continuous compliance with the emission limitations, operating limits, and work practice standards?

* * * * *

(e) * * *

(9) Report the dates of the initial and subsequent tune-ups in hard copy, as specified in 63.10031(f)(5), through June 30, 2020. On or after July 1, 2020, report the date of all tune-ups electronically, in accordance with § 63.10031(f). The tune-up report date is the date when tune-up requirements in paragraphs (e)(6) and (7) of this section are completed.

* * * * *

■ 3. Section 63.10031 is amended by revising paragraphs (f) introductory text, (f)(1), (2), (4), and (f)(6) introductory text to read as follows:

§ 63.10031 What reports must I submit and when?

* * * * *

(f) On or after July 1, 2020, within 60 days after the date of completing each performance test, you must submit the performance test reports required by this subpart to the EPA's WebFIRE database by using the Compliance and Emissions Data Reporting Interface (CEDRI) that is accessed through the EPA's Central Data Exchange (CDX) (<https://cdx.epa.gov>). Performance test data must be submitted in the file format generated through use of EPA's Electronic Reporting Tool (ERT) (see <https://www.epa.gov/ttn/chief/ert/index.html>). Only data collected using those test methods on the ERT website are subject to this requirement for submitting reports electronically to WebFIRE. Owners or operators who

claim that some of the information being submitted for performance tests is confidential business information (CBI) must submit a complete ERT file including information claimed to be CBI on a compact disk or other commonly used electronic storage media (including, but not limited to, flash drives) to EPA. The electronic media must be clearly marked as CBI and mailed to U.S. EPA/OAPQS/CORE CBI Office, Attention: WebFIRE Administrator, MD C404-02, 4930 Old Page Rd., Durham, NC 27703. The same ERT file with the CBI omitted must be submitted to EPA via CDX as described earlier in this paragraph. At the discretion of the delegated authority, you must also submit these reports, including the confidential business information, to the delegated authority in the format specified by the delegated authority.

(1) On or after July 1, 2020, within 60 days after the date of completing each CEMS (SO₂, PM, HCl, HF, and Hg) performance evaluation test, as defined in § 63.2 and required by this subpart, you must submit the relative accuracy test audit (RATA) data (or, for PM CEMS, RCA and RRA data) required by this subpart to EPA's WebFIRE database by using CEDRI that is accessed through EPA's CDX (<https://cdx.epa.gov>). The RATA data shall be submitted in the file format generated through use of EPA's Electronic Reporting Tool (ERT) (<https://www.epa.gov/ttn/chief/ert/index.html>). Only RATA data compounds listed on the ERT website are subject to this requirement. Owners or operators who claim that some of the information being submitted for RATAs is confidential business information (CBI) shall submit a complete ERT file including information claimed to be CBI on a compact disk or other commonly used electronic storage media (including, but not limited to, flash drives) by registered letter to EPA and the same ERT file with the CBI omitted to EPA via CDX as described earlier in this paragraph. The compact disk or other commonly used electronic storage media shall be clearly marked as CBI and mailed to U.S. EPA/OAPQS/CORE CBI Office, Attention: WebFIRE Administrator, MD C404-02, 4930 Old Page Rd., Durham, NC 27703. At the discretion of the delegated authority, owners or operators shall also submit these RATAs to the delegated authority in the format specified by the delegated authority. Owners or operators shall submit calibration error testing, drift checks, and other information required in the performance evaluation as

described in § 63.2 and as required in this chapter.

(2) On or after July 1, 2020, for a PM CEMS, PM CPMS, or approved alternative monitoring using a HAP metals CEMS, within 60 days after the reporting periods ending on March 31st, June 30th, September 30th, and December 31st, you must submit quarterly reports to the EPA's WebFIRE database by using the CEDRI that is accessed through the EPA's CDX (<https://cdx.epa.gov>). You must use the appropriate electronic reporting form in CEDRI or provide an alternate electronic file consistent with EPA's reporting form output format. For each reporting period, the quarterly reports must include all of the calculated 30-boiler operating day rolling average values derived from the CEMS and PM CPMS.

* * * * *

(4) On or after July 1, 2020, submit the compliance reports required under paragraphs (c) and (d) of this section and the notification of compliance status required under § 63.10030(e) to the EPA's WebFIRE database by using the CEDRI that is accessed through the EPA's CDX (<https://cdx.epa.gov>). You must use the appropriate electronic reporting form in CEDRI or provide an alternate electronic file consistent with EPA's reporting form output format.

* * * * *

(6) Prior to July 1, 2020, all reports subject to electronic submittal in paragraphs (f) introductory text, (f)(1), (2), and (4) of this section shall be submitted to the EPA at the frequency specified in those paragraphs in electronic portable document format (PDF) using the ECMPS Client Tool. Each PDF version of a submitted report must include sufficient information to assess compliance and to demonstrate that the testing was done properly. The following data elements must be entered into the ECMPS Client Tool at the time of submission of each PDF file:

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 54

[WC Docket No. 10-90; FCC 18-37]

Connect America Fund

AGENCY: Federal Communications Commission.

ACTION: Technical amendments.

SUMMARY: This document corrects errors in the rules that increase the amount of

operating costs that carriers that predominately serve Tribal lands can recover from the universal service fund (USF) in recognition that they are likely to have higher costs than carriers not serving Tribal lands. The rules published in the **Federal Register** on May 1, 2018.

DATES: Effective July 2, 2018.

FOR FURTHER INFORMATION CONTACT: Suzanne Yelen, Wireline Competition Bureau, (202) 418-7400.

SUPPLEMENTARY INFORMATION: This is a summary of the FCC's Erratum, released on June 7, 2018. This summary contains technical amendments to the Commission's rules that were published in the **Federal Register** at 83 FR 18948 (May 1, 2018). The full text of the Commission's Report and Order, WC Docket No. 10-90; FCC 18-37, released on April 5, 2018 is available for public inspection during regular business hours in the FCC Reference Center, Room CY-A257, 445 12th Street SW, Washington, DC 20554.

In the document published in the **Federal Register** at 83 FR 18948 (May 1, 2018), amendatory instruction 2 erroneously added text as paragraph (a)(6) to § 54.303. The Commission's intent was to add the text as paragraph (a)(7) to the section. This document corrects that error.

Technical Amendments

List of Subjects in 47 CFR Part 54

Communications common carriers, Health facilities, Infants and children, Internet, Libraries, Reporting and recordkeeping requirements, Schools, Telecommunications, Telephone.

Accordingly, 47 CFR part 54 is corrected by making the following correcting amendments:

PART 54—UNIVERSAL SERVICE

■ 1. The authority citation for part 54 continues to read as follows:

Authority: 47 U.S.C. 151, 154(i), 155, 201, 205, 214, 219, 220, 254, 303(r), 403, and 1302 unless otherwise noted.

■ 2. In § 54.303, add paragraph (a)(7) to read as follows:

§ 54.303 Eligible Capital Investment and Operating Expenses.

(a) * * *

(7) For those study areas where a majority of the housing units are on Tribal lands, as determined by the Wireline Competition Bureau, and meet the following conditions, total eligible annual operating expenses per location shall be limited by calculating $\text{Exp}(\bar{Y} + 2.5 * \text{mean square error of the regression})$: The carrier serving the

study area has not deployed broadband service of 10 Mbps download/1 Mbps upload to 90 percent or more of the housing units on the Tribal lands in its study area and unsubsidized competitors have not deployed broadband service of 10 Mbps download/1 Mbps upload to 85 percent or more of the housing units on the Tribal lands in its study area.

[Docket No. 120627194-3657-02]

RIN 0648-XG167

Atlantic Highly Migratory Species; North Atlantic Swordfish Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule.

SUMMARY: NMFS is adjusting the Swordfish (SWO) General Commercial permit retention limits for the Northwest Atlantic, Gulf of Mexico, and U.S. Caribbean regions for July through December of the 2018 fishing year, unless otherwise later noticed. The SWO General Commercial permit retention limit in each of these regions is increased from the regulatory default limits (either two or three fish) to six swordfish per vessel per trip. The SWO General Commercial permit retention limit in the Florida SWO Management

Area will remain unchanged at the default limit of zero swordfish per vessel per trip, as discussed in more detail below. These adjustments apply to SWO General Commercial permitted vessels and to Highly Migratory Species (HMS) Charter/Headboat permitted vessels with a commercial endorsement when on a non-for-hire trip. This action is based upon consideration of the applicable inseason regional retention limit adjustment criteria.

DATES: The adjusted SWO General Commercial permit retention limits in the Northwest Atlantic, Gulf of Mexico, and U.S. Caribbean regions are effective from July 1, 2018, through December 31, 2018.

FOR FURTHER INFORMATION CONTACT: Rick Pearson or Randy Blankinship, 727-824-5399.

SUPPLEMENTARY INFORMATION:

Regulations implemented under the authority of the Atlantic Tunas Convention Act (ATCA; 16 U.S.C. 971 *et seq.*) and the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act; 16 U.S.C. 1801 *et seq.*) governing the harvest of North Atlantic swordfish by persons and vessels subject to U.S. jurisdiction are found at 50 CFR part 635. Section 635.27 subdivides the U.S. North Atlantic swordfish quota recommended by the International Commission for the Conservation of Atlantic Tunas (ICCAT) and implemented by the United States into two equal semi-annual directed fishery quotas—an annual incidental catch quota for fishermen targeting other species or catching swordfish recreationally, and a reserve category, according to the allocations established in the 2006 Consolidated Atlantic Highly Migratory Species Fishery Management Plan (2006 Consolidated Atlantic HMS FMP) (71 FR 58058, October 2, 2006), as amended, and in accordance with implementing regulations. NMFS is required under ATCA and the Magnuson-Stevens Act to provide U.S. fishing vessels with a reasonable opportunity to harvest the ICCAT-recommended quota.

In 2017, ICCAT Recommendation 17-02 specified that the overall North Atlantic swordfish total allowable catch (TAC) be set at 9,925 metric tons (mt) dressed weight (dw) (13,200 mt whole weight (ww)) through 2021. Consistent with scientific advice, this was a reduction of 500 mt ww (375.9 mt dw) from previous ICCAT-recommended TACs. However, of this TAC, the United States' baseline quota remained at 2,937.6 mt dw (3,907 mt ww) per year. The Recommendation (17-02) also continued to limit underharvest
