

operating costs that carriers that predominately serve Tribal lands can recover from the universal service fund (USF) in recognition that they are likely to have higher costs than carriers not serving Tribal lands. The rules published in the **Federal Register** on May 1, 2018.

DATES: Effective July 2, 2018.

FOR FURTHER INFORMATION CONTACT: Suzanne Yelen, Wireline Competition Bureau, (202) 418-7400.

SUPPLEMENTARY INFORMATION: This is a summary of the FCC's Erratum, released on June 7, 2018. This summary contains technical amendments to the Commission's rules that were published in the **Federal Register** at 83 FR 18948 (May 1, 2018). The full text of the Commission's Report and Order, WC Docket No. 10-90; FCC 18-37, released on April 5, 2018 is available for public inspection during regular business hours in the FCC Reference Center, Room CY-A257, 445 12th Street SW, Washington, DC 20554.

In the document published in the **Federal Register** at 83 FR 18948 (May 1, 2018), amendatory instruction 2 erroneously added text as paragraph (a)(6) to § 54.303. The Commission's intent was to add the text as paragraph (a)(7) to the section. This document corrects that error.

Technical Amendments

List of Subjects in 47 CFR Part 54

Communications common carriers, Health facilities, Infants and children, Internet, Libraries, Reporting and recordkeeping requirements, Schools, Telecommunications, Telephone.

Accordingly, 47 CFR part 54 is corrected by making the following correcting amendments:

PART 54—UNIVERSAL SERVICE

■ 1. The authority citation for part 54 continues to read as follows:

Authority: 47 U.S.C. 151, 154(i), 155, 201, 205, 214, 219, 220, 254, 303(r), 403, and 1302 unless otherwise noted.

■ 2. In § 54.303, add paragraph (a)(7) to read as follows:

§ 54.303 Eligible Capital Investment and Operating Expenses.

(a) * * *

(7) For those study areas where a majority of the housing units are on Tribal lands, as determined by the Wireline Competition Bureau, and meet the following conditions, total eligible annual operating expenses per location shall be limited by calculating $\text{Exp}(\hat{Y} + 2.5 * \text{mean square error of the regression})$: The carrier serving the

study area has not deployed broadband service of 10 Mbps download/1 Mbps upload to 90 percent or more of the housing units on the Tribal lands in its study area and unsubsidized competitors have not deployed broadband service of 10 Mbps download/1 Mbps upload to 85 percent or more of the housing units on the Tribal lands in its study area.

RIN 0648-XG167

Atlantic Highly Migratory Species; North Atlantic Swordfish Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule.

SUMMARY: NMFS is adjusting the Swordfish (SWO) General Commercial permit retention limits for the Northwest Atlantic, Gulf of Mexico, and U.S. Caribbean regions for July through December of the 2018 fishing year, unless otherwise later noticed. The SWO General Commercial permit retention limit in each of these regions is increased from the regulatory default limits (either two or three fish) to six swordfish per vessel per trip. The SWO General Commercial permit retention limit in the Florida SWO Management

Area will remain unchanged at the default limit of zero swordfish per vessel per trip, as discussed in more detail below. These adjustments apply to SWO General Commercial permitted vessels and to Highly Migratory Species (HMS) Charter/Headboat permitted vessels with a commercial endorsement when on a non-for-hire trip. This action is based upon consideration of the applicable inseason regional retention limit adjustment criteria.

DATES: The adjusted SWO General Commercial permit retention limits in the Northwest Atlantic, Gulf of Mexico, and U.S. Caribbean regions are effective from July 1, 2018, through December 31, 2018.

FOR FURTHER INFORMATION CONTACT: Rick Pearson or Randy Blankinship, 727-824-5399.

SUPPLEMENTARY INFORMATION:

Regulations implemented under the authority of the Atlantic Tunas Convention Act (ATCA; 16 U.S.C. 971 *et seq.*) and the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act; 16 U.S.C. 1801 *et seq.*) governing the harvest of North Atlantic swordfish by persons and vessels subject to U.S. jurisdiction are found at 50 CFR part 635. Section 635.27 subdivides the U.S. North Atlantic swordfish quota recommended by the International Commission for the Conservation of Atlantic Tunas (ICCAT) and implemented by the United States into two equal semi-annual directed fishery quotas—an annual incidental catch quota for fishermen targeting other species or catching swordfish recreationally, and a reserve category, according to the allocations established in the 2006 Consolidated Atlantic Highly Migratory Species Fishery Management Plan (2006 Consolidated Atlantic HMS FMP) (71 FR 58058, October 2, 2006), as amended, and in accordance with implementing regulations. NMFS is required under ATCA and the Magnuson-Stevens Act to provide U.S. fishing vessels with a reasonable opportunity to harvest the ICCAT-recommended quota.

In 2017, ICCAT Recommendation 17-02 specified that the overall North Atlantic swordfish total allowable catch (TAC) be set at 9,925 metric tons (mt) dressed weight (dw) (13,200 mt whole weight (ww)) through 2021. Consistent with scientific advice, this was a reduction of 500 mt ww (375.9 mt dw) from previous ICCAT-recommended TACs. However, of this TAC, the United States' baseline quota remained at 2,937.6 mt dw (3,907 mt ww) per year. The Recommendation (17-02) also continued to limit underharvest
