[Docket No. USCG-2017-0915]

Waterway Suitability Assessment for Operation of Liquefied Natural Gas Terminal; Cameron, LA

AGENCY: Coast Guard, DHS.

ACTION: Notice of inquiry; request for comments.

SUMMARY: We are requesting your comments on a Letter of Intent and Preliminary Waterway Suitability Assessment we received from Sabine Pass LNG, L.P. (SPLNG) regarding SPLNG's plans to construct a new berth at its Cameron Parish, LA facility and to increase the number of liquefied natural gas vessels calling at the facility from approximately 400 to 580 annually. The Coast Guard is notifying the public of this proposed increase in LNG marine traffic on the Sabine-Neches Waterway and is soliciting comments relevant to the Coast Guard's preparation of a Letter of Recommendation for issuance to the federal, state, or local agency with jurisdiction over the proposed facility.

DATES: Comments and related material must be received on or before August 8, 2018.

II. Background and Purpose

Under 33 CFR 127.007(a), an owner or operator planning to build a new facility handling liquefied natural gas (LNG), or an owner or operator planning new construction to expand or modify marine terminal operations in an existing facility handling LNG, where the construction, expansion, or modification would result in an increase in the size and/or frequency of LNG marine traffic on the waterway associated with the proposed facility or modification to an existing facility, must submit a Letter of Intent (LOI) to the Captain of the Port of the zone in which the facility is or will be located. Under 33 CFR 127.007(e), an owner or operator planning such new construction or expansion of an existing facility must also file or update a Waterway Suitability Assessment (WSA) that addresses the proposed increase in LNG marine traffic in the associated waterway.

Under 33 CFR 127.009, after receiving an LOI, the Captain of the Port issues a Letter of Recommendation (LOR) as to the suitability of the waterway for LNG marine traffic to the appropriate jurisdictional authorities. The LOR is based on a series of factors listed in 33 CFR 127.009 that relate to the physical nature of the affected waterway and issues of safety and security associated with LNG marine traffic on the affected waterway.

III. Information Requested

On January 29, 2018, Sabine Pass LNG, L.P. (SPLNG), located in Cameron Parish, LA, submitted an LOI and Preliminary WSA regarding the company's proposed plans to develop a new marine berth and expand the number of vessels calling on the facility each year from approximately 400 to 580. The purpose of this notice is to solicit public comments on the proposed increase in LNG marine traffic on the Sabine-Neches Waterway. The Coast Guard believes that public input may be useful to the Captain of the Port Marine Safety Unit Port Arthur (COTP) with respect to validating the information provided in SPLNG's Preliminary WSA and development of the LOR. A brief summary of SPLNG's proposal is available in the docket where indicated under **ADDRESSES**.

On January 24, 2011, the Coast Guard published Navigation and Vessel Inspection Circular (NVIC) 01-2011, titled "Guidance Related to Waterfront Liquefied Natural Gas (LNG) Facilities". NVIC 01-2011 provides guidance for owners and operators seeking approval to build and operate LNG facilities. The
