

submitted through <http://www.regulations.gov> cannot be claimed as CBI. Comments received through the website will waive any CBI claims for the information submitted. For information on submitting CBI, see the Confidential Business Information section.

DOE processes submissions made through <http://www.regulations.gov> before posting. Normally, comments will be posted within a few days of being submitted. However, if large volumes of comments are being processed simultaneously, your comment may not be viewable for up to several weeks. Please keep the comment tracking number that <http://www.regulations.gov> provides after you have successfully uploaded your comment.

Submitting comments via email, hand delivery, or mail. Comments and documents submitted via email, hand delivery, or mail also will be posted to <http://www.regulations.gov>. If you do not want your personal contact information to be publicly viewable, do not include it in your comment or any accompanying documents. Instead, provide your contact information in a cover letter. Include your first and last names, email address, telephone number, and optional mailing address. The cover letter will not be publicly viewable as long as it does not include any comments.

Include contact information each time you submit comments, data, documents, and other information to DOE. If you submit via mail or hand delivery, please provide all items on a CD, if feasible. It is not necessary to submit printed copies. No telefacsimiles (faxes) will be accepted.

Comments, data, and other information submitted to DOE electronically should be provided in PDF (preferred), Microsoft Word or Excel, WordPerfect, or text (ASCII) file format. Provide documents that are not secured, written in English, and free of any defects or viruses. Documents should not contain special characters or any form of encryption and, if possible, they should carry the electronic signature of the author.

Campaign form letters. Please submit campaign form letters by the originating organization in batches of between 50 to 500 form letters per PDF or as one form letter with a list of supporters' names compiled into one or more PDFs. This reduces comment processing and posting time.

Confidential Business Information. Pursuant to 10 CFR 1004.11, any person submitting information that he or she believes to be confidential and exempt

by law from public disclosure should submit via email, postal mail, or hand delivery two well-marked copies: One copy of the document marked "confidential" including all the information believed to be confidential, and one copy of the document marked "non-confidential" with the information believed to be confidential deleted. Submit these documents via email or on a CD, if feasible. DOE will make its own determination about the confidential status of the information and treat it according to its determination.

Factors of interest to DOE when evaluating requests to treat submitted information as confidential include: (1) A description of the items, (2) whether and why such items are customarily treated as confidential within the industry, (3) whether the information is generally known by or available from other sources, (4) whether the information has previously been made available to others without obligation concerning its confidentiality, (5) an explanation of the competitive injury to the submitting person which would result from public disclosure, (6) when such information might lose its confidential character due to the passage of time, and (7) why disclosure of the information would be contrary to the public interest.

It is DOE's policy that all comments may be included in the public docket, without change and as received, including any personal information provided in the comments (except information deemed to be exempt from public disclosure).

DOE considers public participation to be a very important part of the process for developing test procedures and energy conservation standards. DOE actively encourages the participation and interaction of the public during the comment period in each stage of this process. Interactions with and between members of the public provide a balanced discussion of the issues and assist DOE in the process. Anyone who wishes to be added to the DOE mailing list to receive future notices and information about this process should contact Appliance and Equipment Standards Program staff at (202) 287-1445 or via email at ApplianceStandardsQuestions@ee.doe.gov.

Signed in Washington, DC, on July 12, 2018.

Kathleen B. Hogan,

Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.

39 CFR Part 111

New Mailing Standards for Mailpieces Containing Liquids: Extension of Comment Period

AGENCY: Postal Service™.

ACTION: Proposed rule; extension of comment period.

SUMMARY: On July 9, 2018, the United States Postal Service (USPS®) published a **Federal Register** proposed rule titled, "New Mailing Standards for Mailpieces Containing Liquids." The USPS has received several requests to extend the comment period for this proposed rule and is, accordingly, extending the comment period scheduled to close on August 8, 2018, until September 30, 2018.

DATES: Submit comments on or before September 30, 2018.

ADDRESSES: Mail or deliver written comments to the manager, Product Classification, U.S. Postal Service, 475 L'Enfant Plaza SW, Room 4446, Washington, DC 20260-5015. If sending comments by email, include the name and address of the commenter and send to ProductClassification@usps.gov, with a subject line of "New Standards for Liquids." Faxed comments are not accepted.

You may inspect and photocopy all written comments, by appointment only, at USPS Headquarters Library, 475 L'Enfant Plaza SW, 11th Floor North, Washington, DC 20260. These records are available for review on Monday through Friday, 9 a.m.–4 p.m., by calling 202-268-2906.

FOR FURTHER INFORMATION CONTACT: Direct questions to Wm. Kevin Gunther at wkgunther@uspis.gov or phone at (202) 268-7208, or Michelle Lassiter at michelle.d.lassiter@usps.gov or phone at (202) 268-2914.

SUPPLEMENTARY INFORMATION: This document extends the public comment period for the proposed rule entitled "New Mailing Standards for Mailpieces Containing Liquids," published in the **Federal Register** On July 9, 2018. USPS is extending the comment period to ensure that the public has sufficient time to review and comment on the proposal. USPS is proposing this rule under the authorities listed in the July 9th document. Further information on this proposal may be found in the USPS notice published in the **Federal Register** on July 9, 2018 (83 FR 31712).

USPS solicits comments on all aspects of the proposal and specifically on

recommendations that reflect industry best practices for shipping liquids.

Ruth Stevenson,

Attorney, Federal Compliance.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R02–OAR–2018–0422; FRL–9981–04–Region 2]

Approval and Promulgation of Air Quality Implementation Plans; New York; Determination of Attainment of the 2008 8-Hour Ozone National Ambient Air Quality Standard for the Jamestown, New York Marginal Nonattainment Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to make a determination that the Jamestown, New York Marginal Nonattainment Area (Jamestown Area or Area) has attained the 2008 8-hour ozone National Ambient Air Quality Standard (NAAQS). This proposed determination is based upon complete, quality-assured, and certified ambient air monitoring data that shows the Area has monitored attainment of the 2008 8-hour ozone NAAQS for both the 2012–2014 and 2015–2017 monitoring periods. This action does not constitute a redesignation to attainment. The Jamestown Area will remain nonattainment for the 2008 8-hour ozone NAAQS until such time as EPA determines that the Jamestown Area meets the Clean Air Act (CAA) requirements for redesignation to attainment, including an approved maintenance plan. This action is being taken under the CAA.

DATES: Written comments must be received on or before August 20, 2018.

ADDRESSES: Submit your comments, identified by Docket ID Number EPA–R02–OAR–2018–0422 at <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia

submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: Kirk J. Wieber, (212) 637–3381, or by email at wieber.kirk@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

On March 12, 2008, EPA revised both the primary and secondary NAAQS for ozone to a level of 0.075 parts per million (ppm) (annual fourth-highest daily maximum 8-hour average concentration, averaged over three years) to provide increased protection of public health and the environment. 73 FR 16436 (March 27, 2008).¹ The 2008 ozone NAAQS retains the same general form and averaging time as the 0.08 ppm NAAQS set in 1997, but is set at a more protective level. On May 21, 2012 (77 FR 30088), effective July 20, 2012, EPA designated as nonattainment any area that was violating the 2008 8-hour ozone NAAQS based on the three most recent years (2008–2010) of air monitoring data. The Jamestown Area (specifically, Chautauqua County) was designated as a marginal ozone nonattainment area. See 40 CFR 81.333.

Marginal areas designated in the May 21, 2012 rule are required to attain the 2008 8-hour ozone NAAQS by the applicable deadline of July 20, 2015. See 40 CFR 51.903. On May 4, 2016, EPA determined that complete, quality-assured, and certified air quality monitoring data from the 2012–2014 monitoring period indicated that the Jamestown Area attained the 2008 8-hour ozone NAAQS by that attainment date. See 81 FR 26697.

Under the provisions of EPA's ozone implementation rule (40 CFR 51.918), if EPA also issues a determination (as it is proposing to do here) that an area is attaining the relevant standard through a rulemaking that includes public notice and comment (known informally as a Clean Data Determination), the

¹ For a detailed explanation of the calculation of the 3-year 8-hour average, see 40 CFR part 50, appendix I.

requirements for a State to submit certain required planning SIPs related to attainment of the eight-hour NAAQS, such as attainment demonstrations, reasonable further progress plans and contingency measures, shall be suspended. EPA's action only suspends the requirements to submit the SIP revisions discussed above.²

This suspension remains in effect until such time, if ever, that EPA (i) redesignates the area to attainment, at which time those requirements no longer apply, or (ii) subsequently determines that the area has violated the 2008 8-hour ozone NAAQS. Although these requirements are suspended, if the State provides these submissions to EPA for review and approval at any time, EPA is not precluded from acting upon them. The determination of attainment is not equivalent to a redesignation under section 107(d)(3) of the CAA. The designation status of the Jamestown Area will remain nonattainment for the 2008 8-hour ozone NAAQS until such time as EPA determines that the Area meets the CAA requirements for redesignation to attainment, including an approved maintenance plan.

Additionally, the determination of attainment is separate from, and does not influence or otherwise affect, any future designation determination or requirements for the Jamestown Area based on any new or revised ozone NAAQS, and it remains in effect regardless of whether EPA designates this Area as a nonattainment area for purposes of any new or revised ozone NAAQS.

II. EPA's Evaluation

For ozone, an area may be considered to be attaining the 2008 8-hour ozone NAAQS if there are no violations, as determined in accordance with 40 CFR part 50, based on three complete, consecutive calendar years of quality-assured ambient air monitoring data. Under EPA regulations at 40 CFR part 50, the 2008 8-hour ozone NAAQS is attained when the 3-year average of the annual fourth-highest daily maximum 8-hour average ozone concentrations at an ozone monitor is less than or equal to 0.075 ppm. See 40 CFR part 50, appendix P. This 3-year average is referred to as the design value. When the design value is less than or equal to

² For more information on the EPA's Clean Data Policy, see <https://www.epa.gov/ozone-pollution/redesignation-and-clean-data-policy-cdp> for documents such as the Memorandum from John S. Seitz, Director, Office of Air Quality Planning and Standards, "Reasonable Further Progress, Attainment Demonstration, and Related Requirements for Ozone Nonattainment Areas Meeting the Ozone National Ambient Air Quality Standard" (May 10, 1995).
