**SUPPLEMENTARY INFORMATION:**

### I. Discussion

The NRC issued revisions to NUREG–1556, Volumes 5 and 8, to provide guidance to existing materials licensees covered under these types of licenses and to applicants preparing an application for one of these types of materials licenses. These NUREG volumes also provide the NRC staff with criteria for evaluating these types of license applications. The purpose of this notice is to notify the public that the NUREG–1556 volumes listed in this **Federal Register** notice were issued as final reports.

### II. Additional Information

The NRC published notices of the availability of the draft report for comment versions of NUREG–1556, Volume 5, Revision 1 in the **Federal Register** on January 27, 2017 (82 FR 8630) and Volume 8, Revision 1 in the **Federal Register** on February 8, 2017 (82 FR 9756). Both of these volumes were published for a public comment period that was at least 37 days. The public comment period closed for Volume 5 on March 10, 2017 and for Volume 8 on March 17, 2017. Public comments and the NRC staff responses to the public comments for NUREG–1556, Volume 5, Revision 1 are available under ADAMS Accession No. ML18157A285. Public comments and the NRC staff responses to the public comments for NUREG–1556, Volume 8, Revision 1 are available under ADAMS Accession No. ML17235B228.

### III. Congressional Review Act

These NUREG volumes are rules as defined in the Congressional Review Act (5 U.S.C. 801–808). However, the Office of Management and Budget has not found these NUREG revisions to be major rules as defined in the Congressional Review Act.

Dated at Rockville, Maryland, this 25th day of July, 2018.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 40–9059; NRC–2018–0158]

### Water Remediation Technology, LLC

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** License renewal application; opportunity to request a hearing and to petition for leave to intervene.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) received an application from Water Remediation Technology, LLC for renewal of Materials License No. SUC–1591, which authorizes the licensee to offer a water treatment program to remove uranium from drinking water at community water systems, for another 10-year term. This application, which is still under consideration by the NRC, also requested authorization to expand the scope of WRT's licensed activities to include treatment of uranium in groundwater and surface water resources not used for drinking water. Subsequently, the NRC received a request from WRT to extend the term of the renewed license to 20 years.

**DATES:** A request for a hearing or petition for leave to intervene must be filed by September 28, 2018.

**ADDRESSES:** Please refer to Docket ID NRC–2018–0158 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

#### SUPPLEMENTARY INFORMATION:

##### I. Introduction

By letter dated December 21, 2016, WRT submitted a license amendment application to renew its Materials License No. SUC-1591 (ADAMS Accession No. ML16358A447) for an additional 10-year term. The NRC originally issued this license on January 25, 2007 (ADAMS Accession No. ML062960465) and subsequently amended the license on March 12, 2009 (ADAMS Accession No. ML090270210). This license was issued under part 40 of title 10 of the *Code of Federal Regulations* (10 CFR), “Domestic licensing of source material.” The license, described as a performance-based, multi-site service provider license, allows WRT to utilize its water treatment technology to remove uranium from drinking water treated by community water systems in NRC-regulated States. The license also permits WRT to possess source material generated from these operations. The license’s current expiration date is January 25, 2017. However, in accordance with 10 CFR 40.42, the existing license will not expire during the pendency of the NRC staff’s review of the renewal application. In addition, WRT’s December 21, 2016, application also requested an amendment to expand the scope of its current license to allow it to remove uranium from non-drinking water sources. On April 24, 2017, NRC provided a notice of opportunity for hearing and petition for leave to intervene (82 FR 18939) on WRT’s December 16, 2016 application for license renewal and expanded scope authorization. The NRC’s review of WRT’s December 21, 2016 application currently pending.

At a public meeting between NRC and WRT on January 10, 2018, WRT informed NRC it intended to submit a written request to seek an extension of its license term from 10 years to 20 years (ADAMS Accession No. ML18031B214). By letter dated January 16, 2018, WRT submitted this request to extend the license renewal term from 10 to 20 years (ADAMS Accession No. ML18016B080). As support for its request to extend the license renewal term, WRT identifies a Commission Staff Requirements Memorandum issued on November 9, 2017 (ADAMS Accession No. ML17313B020). The November 9, 2017 Staff Requirements

Memorandum approved a staff recommendation set forth in staff paper SECY-17-0086, “Increasing Licensing Terms for Uranium Recovery Facilities” (ADAMS Accession No. ML17093A951) to increase the maximum license terms for uranium recovery facilities from 10 to 20 years. The extension of the maximum term applies to both new license applications and license renewal applications.

In considering whether to approve WRT’s request to extend the term of its renewed license from 10 to 20 years, the NRC will determine whether WRT’s proposed licensed activities, including those pertaining to its request for additional authorization to remove uranium from non-drinking water sources, are bounded by the safety and technical analyses made or referenced by the staff in SECY-17-0086. The staff will make these findings as part of its broader safety and environmental findings for WRT’s December 16, 2016, license amendment application. The NRC’s findings will be documented in a safety evaluation report and an environmental assessment. The NRC will publish either a notice of a finding of no significant impact or notice of intent to prepare an environmental impact statement, as appropriate, in a future edition of the **Federal Register**.

##### II. Opportunity To Request a Hearing and Petition for Leave To Intervene

Within 60 days after the date of publication of this notice, any persons (petitioner) whose interest may be affected by this action may file a request for a hearing and a petition to intervene (petition) with respect to the action. Petitions shall be filed in accordance with the Commission’s “Agency Rules of Practice and Procedure” in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.309. The NRC’s regulations are accessible electronically from the NRC Library on the NRC’s website at <http://www.nrc.gov/reading-rm/doc-collections/cfr/>. Alternatively, a copy of the regulations is available at the NRC’s Public Document Room, located at One White Flint North, Room O1-F21, 11555 Rockville Pike (first floor), Rockville, Maryland 20852. If a petition is filed, the Commission or a presiding officer will rule on the petition and, if appropriate, a notice of a hearing will be issued.

As required by 10 CFR 2.309(d) the petition should specifically explain the reasons why intervention should be permitted with particular reference to the following general requirements for standing: (1) The name, address, and telephone number of the petitioner; (2)

the nature of the petitioner’s right under the Act to be made a party to the proceeding; (3) the nature and extent of the petitioner’s property, financial, or other interest in the proceeding; and (4) the possible effect of any decision or order which may be entered in the proceeding on the petitioner’s interest.

In accordance with 10 CFR 2.309(f), the petition must also set forth the specific contentions which the petitioner seeks to have litigated in the proceeding. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner must provide a brief explanation of the bases for the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to the specific sources and documents on which the petitioner intends to rely to support its position on the issue. The petition must include sufficient information to show that a genuine dispute exists with the applicant or licensee on a material issue of law or fact. Contentions must be limited to matters within the scope of the proceeding. The contention must be one which, if proven, would entitle the petitioner to relief. Failure to satisfy these requirements in 10 CFR 2.309(f) will result in an inadmissible contention. Without at least one admissible contention, a petitioner will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene. Parties have the opportunity to participate fully in the conduct of the hearing with respect to resolution of that party’s admitted contentions, including the opportunity to present evidence, consistent with the NRC’s regulations, policies, and procedures.

Petitions must be filed no later than 60 days from the date of publication of this notice. Petitions and motions for leave to file new or amended contentions that are filed after the deadline will not be entertained absent a determination by the presiding officer that the filing demonstrates good cause by satisfying the three factors in 10 CFR 2.309(c)(1)(i) through (iii). The petition must be filed in accordance with the filing instructions in the “Electronic Submissions (E-Filing)” section of this document.

A State, local governmental body, Federally-recognized Indian Tribe, or agency thereof, may submit a petition to the Commission to participate as a party

under 10 CFR 2.309(h)(1). The petition should state the nature and extent of the petitioner's interest in the proceeding. The petition should be submitted to the Commission by no later than 60 days from the date of publication of this notice. The petition must be filed in accordance with the filing instructions in the "Electronic Submissions (E-Filing)" section of this document, and should meet the requirements for petitions set forth in this section. Alternatively, a State, local governmental body, Federally-recognized Indian Tribe, or agency thereof may participate as a non-party under 10 CFR 2.315(c).

If a hearing is granted, any person who is not a party to the proceeding and is not affiliated with or represented by a party may, at the discretion of the presiding officer, be permitted to make a limited appearance pursuant to the provisions of 10 CFR 2.315(a). A person making a limited appearance may make an oral or written statement of his or her position on the issues but may not otherwise participate in the proceeding. A limited appearance may be made at any session of the hearing or at any prehearing conference, subject to the limits and conditions as may be imposed by the presiding officer. Details regarding the opportunity to make a limited appearance will be provided by the presiding officer if such sessions are scheduled.

### III. Electronic Submissions (E-Filing)

All documents filed in NRC adjudicatory proceedings, including a request for hearing and petition for leave to intervene (petition), any motion or other document filed in the proceeding prior to the submission of a request for hearing or petition to intervene, and documents filed by interested governmental entities that request to participate under 10 CFR 2.315(c), must be filed in accordance with the NRC's E-Filing rule (72 FR 49139; August 28, 2007, as amended at 77 FR 46562; August 3, 2012). The E-Filing process requires participants to submit and serve all adjudicatory documents over the internet, or in some cases to mail copies on electronic storage media. Detailed guidance on making electronic submissions may be found in the Guidance for Electronic Submissions to the NRC and on the NRC website at <http://www.nrc.gov/site-help/e-submittals.html>. Participants may not submit paper copies of their filings unless they seek an exemption in accordance with the procedures described below.

To comply with the procedural requirements of E-Filing, at least 10

days prior to the filing deadline, the participant should contact the Office of the Secretary by email at [hearing.docket@nrc.gov](mailto:hearing.docket@nrc.gov), or by telephone at 301-415-1677, to (1) request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC's public website at <http://www.nrc.gov/site-help/e-submittals/getting-started.html>. Once a participant has obtained a digital ID certificate and a docket has been created, the participant can then submit adjudicatory documents. Submissions must be in Portable Document Format (PDF). Additional guidance on PDF submissions is available on the NRC's public website at <http://www.nrc.gov/site-help/electronic-sub-ref-mat.html>. A filing is considered complete at the time the document is submitted through the NRC's E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. Eastern Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email notice confirming receipt of the document. The E-Filing system also distributes an email notice that provides access to the document to the NRC's Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the document on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before adjudicatory documents are filed so that they can obtain access to the documents via the E-Filing system.

A person filing electronically using the NRC's adjudicatory E-Filing system may seek assistance by contacting the NRC's Electronic Filing Help Desk through the "Contact Us" link located on the NRC's public website at [\[submittals.html\]\(http://www.nrc.gov/site-help/e-submittals.html\), by email to \[MSHD.Resource@nrc.gov\]\(mailto:MSHD.Resource@nrc.gov\), or by a toll-free call at 1-866-672-7640. The NRC Electronic Filing Help Desk is available between 9 a.m. and 6 p.m., Eastern Time, Monday through Friday, excluding government holidays.](http://www.nrc.gov/site-help/e-</a></p></div><div data-bbox=)

Participants who believe that they have a good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing stating why there is good cause for not filing electronically and requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, 11555 Rockville Pike, Rockville, Maryland 20852, Attention: Rulemaking and Adjudications Staff. Participants filing adjudicatory documents in this manner are responsible for serving the document on all other participants. Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service. A presiding officer, having granted an exemption request from using E-Filing, may require a participant or party to use E-Filing if the presiding officer subsequently determines that the reason for granting the exemption from use of E-Filing no longer exists.

Documents submitted in adjudicatory proceedings will appear in the NRC's electronic hearing docket which is available to the public at <https://adams.nrc.gov/ehd>, unless excluded pursuant to an order of the Commission or the presiding officer. If you do not have an NRC-issued digital ID certificate as described above, click cancel when the link requests certificates and you will be automatically directed to the NRC's electronic hearing dockets where you will be able to access any publicly available documents in a particular hearing docket. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or personal phone numbers in their filings, unless an NRC regulation or other law requires submission of such information. For example, in some instances, individuals provide home addresses in order to demonstrate proximity to a facility or site. With respect to copyrighted works, except for

limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submission.

##### *B. Submitting Comments*

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <http://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

##### **II. Background**

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "10 CFR Part

95, Facility Security Clearance and Safeguarding of National Security Information and Restricted Data." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on May 7, 2018 (83 FR 20102).

1. *The title of the information collection:* "10 CFR Part 95, Facility Security Clearance and Safeguarding of National Security Information and Restricted Data."

2. *OMB approval number:* 3150-0047.

3. *Type of submission:* Revision.

4. *The form number if applicable:* NRC Form 405F.

5. *How often the collection is required or requested:* On occasion and every 5 years.

6. *Who will be required or asked to respond:* NRC-regulated facilities and their contractors who require access to, and possession of NRC classified information.

7. *The estimated number of annual responses:* 340.

8. *The estimated number of annual respondents:* 189.

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request:* 503.

10. *Abstract:* The NRC-regulated facilities and their contractors who are authorized to access and possess classified matter are required to provide information and maintain records to ensure an adequate level of protection is provided to NRC classified information and material.
