

(CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Toxic Substances Control Act (TSCA), as amended by the Frank R. Lautenberg Chemical Safety for the 21st Century Act, requires EPA to compile and keep current a complete list of chemical substances manufactured (including imported) or processed in the United States. EPA updates this inventory of chemicals every four years by requiring manufacturers, including importers, to provide production volume, plant site information and other chemical manufacturing, processing, and use information. Through the CDR regulation, EPA collects basic exposure-related manufacturing, processing, and use information used by the Agency and others in a wide range of activities. This information allows EPA to identify what chemicals are currently in commerce and to take appropriate regulatory action as necessary. The information collected enables EPA to better understand and interpret the state of U.S. chemical manufacturing, processing, and use, and further enhances EPA's ability to identify, evaluate, and manage potential chemical risks. This ICR addresses the collection of inventory-related information.

Responses to the collection of required information are mandatory (see 40 CFR part 710). Respondents may claim all or part of a notice confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures described in TSCA section 14 and 40 CFR part 2.

Burden statement: The annual per-response public reporting and recordkeeping burden for this collection of information is estimated to average 126.44 hours per year for the average multi-chemical submission of 7.5 chemicals per site with 22% of reports consisting of partial reports. Additionally, for CDX electronic reporting activities, the average per response burden is estimated at .53 hours per registration for those respondents not already registered in CDX. Burden is defined in 5 CFR 1320.3(b).

The ICR Supporting Statement, which is available in the docket along with

other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this ICR are companies that manufacture (including import) or process chemical substances, mixtures or categories into the United States.

Estimated total number of potential respondents: 5,662.

Frequency of response: Every four years (estimates below are on an annual basis).

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 716,024 hours.

Estimated total annual costs: \$56,959,323. This includes an estimated burden cost of \$59,959,323 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is a decrease of 73,179 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease reflects a combination of program changes and adjustments. Program changes involving updated CBI substantiation requirements as a result of the Lautenberg Act are estimated at 4,877 hours. Agency adjustments include changes due to methodology corrections at—184,158 hours, and changes due to increased counts of sites at 106,102 hours. The ICR supporting statement provides a detailed analysis of the change in burden estimate. This change is an adjustment and the result of a program change.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: July 16, 2018.

Charlotte Bertrand,
Acting Principal Deputy Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

BILLING CODE 6560–50–P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0952]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before October 1, 2018. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele at (202) 418-2991.

SUPPLEMENTARY INFORMATION: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

OMB Control Number: 3060-0952.

Title: Proposed Demographic Information and Notifications, Second Further Notice of Proposed Rulemaking (FNPRM), CC Docket No. 98-147 and Fifth NPRM (NPRM), CC Docket No. 96-98.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 750 respondents; 1,500 responses.

Frequency of Response: On occasion reporting requirements and third-party disclosure requirement.

Estimated Time per Response: 2 hours.

Total Annual Burden: 3,000 hours.

Total Annual Cost: No cost.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151-154, 201, 202, 251-254, 256, 271, and 303(r) of the Communications Act of 1934, as amended.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The Commission is not requesting

respondents to submit confidential information to the FCC. If the applicants wish to submit information which they believe is confidential, they may request confidential treatment of such information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission asked whether physical collocation in remote terminals presents technical or security concerns, and if so, whether these concerns warrant modification of its collocation rules. The Commission asked whether incumbent LECs should be required to provide requesting carriers with demographic and other information regarding particular remote terminals similar to the information available regarding incumbent LEC central offices. Requesting carriers use demographic and other information obtained from incumbent LECs to determine whether they wish to collocate at particular remote terminals. This proposed information collection in the Second Further Notice of Proposed Rulemaking, FCC 98-147, will be used by the Commission, state commissions, and competitive carriers to facilitate the deployment of advanced services and other telecommunications services in implementation of section 251(c)(6) of the Communications Act of 1934, as amended. The number of respondents, annual responses, and annual burden has not changed.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.
