

TABLE 2—WASHINGTON, DC-MD-VA MAINTENANCE PLAN ON-ROAD MVEBS WITH TRANSPORTATION BUFFERS

Year	MVEBs for NO <sub>x</sub> on-road emissions (tons per day)	MVEBs for VOC on-road emissions (tons per day)
2014 (Attainment Year) .....	136.8	61.3
2025 .....	48.8	39.8
2030 .....	32.9	28.9

On May 21, 2018, EPA posted the availability of the 2014, 2025, and 2030 NO<sub>x</sub> and VOC MVEBs for the Washington Area on EPA’s website for the purpose of soliciting public comments as part of the adequacy process. The comment period closed on June 20, 2018 and EPA received no comments.

This document is simply an announcement of a finding that we have already made. EPA Region III sent letters to the District of Columbia Department of Energy and Environment (DOEE), Maryland Department of the Environment (DOE), and the Virginia Department of Environmental Quality (DEQ) on July 24, 2018 finding that the 2014, 2025, and 2030 NO<sub>x</sub> and VOC MVEBs in the maintenance plan for the Washington Area submitted by the District, Maryland, and Virginia on March 12, 2018, January 29, 2018, and January 3, 2018, respectively, are adequate and must be used for transportation conformity determinations in the Washington Area.<sup>1</sup> The finding and associated letters are available at EPA’s conformity website: <https://www.epa.gov/state-and-local-transportation>.

Transportation conformity is required by Clean Air Act (CAA) section 176(c). EPA’s conformity rule requires that transportation plans, transportation improvement programs, and projects conform to state air quality implementation plans (SIPs) and establishes the criteria and procedures for determining whether or not they do. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the NAAQS.

The criteria by which we determine whether a SIP’s MVEBs are adequate for conformity purposes are outlined in 40 CFR 93.118(e)(4). We’ve described our

<sup>1</sup> EPA originally informed the District, Maryland, and Virginia that the 2014, 2025, and 2030 MVEBs were adequate for use in transportation conformity analyses in letters dated July 18, 2018. EPA revised language in these letters and sent the revised letters to the District, Maryland, and Virginia on July 24, 2018. The original and revised letters are available online at <http://www.regulations.gov> as well as EPA’s conformity website: <https://www.epa.gov/state-and-local-transportation>.

process for determining the adequacy of submitted SIP budgets in our July 1, 2004 preamble starting at 69 FR 40038, and we used the information in these resources in making our adequacy determination. Please note that an adequacy review is separate from EPA’s completeness review and should not be used to prejudge EPA’s ultimate approval action for the SIP. Even if we find a budget adequate, the SIP could later be disapproved.

The finding for the 2014, 2025, and 2030 NO<sub>x</sub> and VOC MVEBs contained in the maintenance plan for the Washington Area and the response to comments are available at EPA’s conformity website: <https://www.epa.gov/state-and-local-transportation>.

**ENVIRONMENTAL PROTECTION AGENCY**

**[EPA–OW–2018–0270; FRL–9981–86–OW]**

**Announcement of the Per- and Polyfluoroalkyl Substances (PFAS) North Carolina Community Engagement**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of an event.

**SUMMARY:** The Environmental Protection Agency (EPA) will host a Per- and Polyfluoroalkyl Substances (PFAS) community engagement in Fayetteville, North Carolina. The goal of the event is to allow the EPA to hear directly from North Carolina communities to understand ways the Agency can best support the work that is being done at the state, local, and tribal level. For more information on the event, visit the EPA’s PFAS website: <https://www.epa.gov/pfas/pfas-community-engagement>. During the recent PFAS National Leadership Summit, the EPA announced plans to visit communities to hear directly from those impacted by

PFAS. These engagements are the next step in the EPA’s commitment to address challenges with PFAS. The EPA anticipates that the community engagements will provide valuable insight for the Agency’s efforts moving forward. For more information, go to the **SUPPLEMENTARY INFORMATION** section of this notice.

**DATES:** The event will be held on August 14, 2018, from 10 a.m. to 8 p.m., eastern time. The public listening session will begin at 3 p.m., eastern time.

**ADDRESSES:** The event will be held at the Crown Ballroom, 1960 Coliseum Drive, Fayetteville, North Carolina 28306. If you are unable to attend the North Carolina Community Engagement event, you will be able to submit comments at <http://www.regulations.gov>: Enter Docket ID No. EPA–OW–2018–0270. Citizens, including those that attend and provide oral statements, are encouraged to send written statements to the public docket. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or withdrawn. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

**SUPPLEMENTARY INFORMATION:**

*Details about Participating in the Event:* The public is invited to speak during the August 14 listening session. Those interested in speaking can sign up for a 3-minute speaking slot on the EPA's website at <https://www.epa.gov/pfas/pfas-community-engagement>. Please check this website for event materials as they become available, including a full agenda, leading up to the event.

*The PFAS National Leadership Summit:* On May 22-23, 2018, the EPA hosted the PFAS National Leadership Summit. During the summit, participants worked together to share information on ongoing efforts to characterize risks from PFAS, develop monitoring and treatment/cleanup techniques, identify specific near-term actions (beyond those already underway) that are needed to address challenges currently facing states and local communities, and develop risk communication strategies that will help communities to address public concerns regarding PFAS.

The EPA wants to assure the public that their input is valuable and meaningful. Using information from the National Leadership Summit, public docket, and community engagements, the EPA plans to develop a PFAS Management Plan for release later this year. A summary of the North Carolina Community Engagement will be made available to the public following the event on the EPA's PFAS Community Engagement website at: <https://www.epa.gov/pfas/pfas-community-engagement>.

Dated: July 27, 2018.

**SUPPLEMENTARY INFORMATION:** On June 15, 1984, the Office of Management and Budget (OMB) delegated to the Board authority under the Paperwork Reduction Act (PRA) to approve of and assign OMB control numbers to collection of information requests and requirements conducted or sponsored by the Board. In exercising this delegated authority, the Board is directed to take every reasonable step to solicit comment. In determining whether to approve a collection of information, the Board will consider all comments received from the public and other agencies.

**Request for Comment on Information Collection Proposal**

The Board invites public comment on the following information collection, which is being reviewed under authority delegated by the OMB under the PRA. Comments are invited on the following:

a. Whether the proposed collection of information is necessary for the proper performance of the Board's functions, including whether the information has practical utility;

b. The accuracy of the Board's estimate of the burden of the proposed information collection, including the validity of the methodology and assumptions used;

c. Ways to enhance the quality, utility, and clarity of the information to be collected;

d. Ways to minimize the burden of information collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

e. Estimates of capital or startup costs and costs of operation, maintenance, and purchase of services to provide information.

At the end of the comment period, the comments and recommendations received will be analyzed to determine the extent to which the Board should modify the proposal.
