The proposed consent decree would require defendant Hercules LLC to implement the interim remedy selected by the U.S. Environmental Protection Agency (EPA) for the outfall, known as Operable Unit 1, of the Terry Creek Dredge Spoil Areas/Hercules Outfall Site (“Site”) in Brunswick, in Glynn County, Georgia. The consent decree would also require the defendant to reimburse EPA \$153,009.48 in past response costs at the Site, and to pay future response costs incurred by the United States in connection with this consent decree. DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Air Act

On August 10, 2018, the Department of Justice lodged a proposed consent decree with the United States District Court for the Southern District of Illinois in the lawsuit entitled *United States and Illinois v. WRB Refining LP, et al.*, Civil Action No. 3:18–cv–01484.

In the complaint filed contemporaneously with the proposed consent decree, the United States and Illinois alleged that defendants WRB Refining LP and Phillips 66 Company (“WRB/P66”) violated various provisions of the Clean Air Act and the Illinois Environmental Protection Act at a refinery owned and operated by defendants (“Wood River Refinery”). The complaint sought injunctive relief and civil penalties. Under the proposed consent decree, WRB/P66 will implement a flare minimization and flare efficiency program to reduce emissions of volatile organic compounds; undertake a variety to practices to reduce pollution from valves and pumps; limit benzene emissions from wastewater management units; and develop and implement an operation and maintenance plan to improve the operation of the continuous emissions monitoring systems at the Wood River Refinery. As mitigation for past excess emissions, WRB/P66, among other things, will install a new vacuum truck unloading facility; set up monitoring devices around its wastewater treatment plant; and use low emissions valves when it has to replace

older valves or install new ones. WRB/P66 will also implement a \$500,000 supplemental environmental project to abate lead paint hazards at qualifying homes and buildings and pay a civil penalty of \$475,000.

The publication of this notice opens a period for public comment on the consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States and Illinois v. WRB Refining LP, et al.*, D.J. Ref. No. 90–5–2–1–06722/6. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

In this notice, NARA solicits comments concerning the following information collection:

Title: Independent Researcher Listing Application.

OMB number: 3095–0054.

Agency form numbers: NA Form 14115.

Type of review: Regular.

Affected public: Individuals or households.

Estimated number of respondents: 458.

Estimated time per response: 10 minutes.

Estimated total annual burden hours: 76.

Abstract: In the past, the National Archives has made use of various lists

of independent researchers who perform freelance research for hire in the Washington, DC, area. We have sent these lists upon request to researchers who could not travel to the metropolitan area to conduct their own research. To better accommodate both the public and NARA staff, the Customer Services Division (RD–DC) of the National Archives maintains a listing of independent researchers for the public. All interested independent researchers provide their contact information via this form. Collecting contact and other key information from each independent researcher and providing such information to the public when deemed appropriate will only increase business. This form is not a burden in any way to any independent researcher who voluntarily submits a completed form. Inclusion on the list will not be viewed or advertised as an endorsement by the National Archives and Records Administration (NARA). The listing is compiled and disseminated as a service to the public.

Swarnali Haldar,

Executive for Information Services/CIO.

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when agencies no longer need them for current Government business. The records schedules authorize agencies to preserve records of continuing value in the National Archives of the United States and to destroy, after a specified period, records lacking administrative, legal, research, or other value. NARA publishes notice in the **Federal Register** for records schedules in which agencies propose to destroy records they no longer need to conduct agency business. NARA invites public comments on such records schedules.
