SUPPLEMENTARY INFORMATION:

A. Purpose

GSA has various mission responsibilities related to the acquisition and provision of the Federal Acquisition Service's (FAS's) Stock, Special Order, and Federal Supply Schedule (FSS) Programs. These mission responsibilities generate requirements that are realized through the solicitation and award of various types of FAS contracts. Individual solicitations and resulting contracts may impose unique information collection and reporting requirements on contractors, not required by regulation, but necessary to evaluate particular program accomplishments and measure success in meeting program objectives.

As such, the General Services Administration Acquisition Regulation (GSAR) 516.506, Solicitation provision and clauses, specifically directs contracting officers to insert 552.216-72, Placement of Orders, and 552.216-73, Ordering Information, when the contract authorizes FAS and other activities to issue delivery or task orders. These clauses include information reporting requirements for Offerors to receive electronic orders through computer-to-computer Electronic Data Interchange (EDI).

B. Annual Reporting Burden
