

determination within 75 days after the date of its preliminary determination. Accordingly, Commerce will make its final determination no later than 75 days after the signature date of this preliminary determination.

Notification to Interested Parties

This determination is issued and published in accordance with sections 733(f) and 777(i)(1) of the Act and 19 CFR 351.205(c).

Dated: August 20, 2018.

Gary Taverman,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Investigation

The merchandise covered by this investigation is welded carbon and alloy steel pipe (including stainless steel pipe), more than 406.4 mm (16 inches) in nominal outside diameter (large diameter welded pipe), regardless of wall thickness, length, surface finish, grade, end finish, or stenciling. Large diameter welded pipe may be used to transport oil, gas, slurry, steam, or other fluids, liquids, or gases. It may also be used for structural purposes, including, but not limited to, piling. Specifically, not included is large diameter welded pipe produced only to specifications of the American Water Works Association (AWWA) for water and sewage pipe.

Large diameter welded pipe used to transport oil, gas, or natural gas liquids is normally produced to the American Petroleum Institute (API) specification 5L. Large diameter welded pipe may also be produced to American Society for Testing and Materials (ASTM) standards A500, A252, or A53, or other relevant domestic specifications, grades and/or standards. Large diameter welded pipe can be produced to comparable foreign specifications, grades and/or standards or to proprietary specifications, grades and/or standards, or can be non-graded material. All pipe meeting the physical description set forth above is covered by the scope of this investigation, whether or not produced according to a particular standard.

Subject merchandise also includes large diameter welded pipe that has been further processed in a third country, including but not limited to coating, painting, notching, beveling, cutting, punching, welding, or any other processing that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the in-scope large diameter welded pipe.

The large diameter welded pipe that is subject to this investigation is currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) under subheadings 7305.11.1030, 7305.11.1060, 7305.11.5000, 7305.12.1030, 7305.12.1060, 7305.12.5000, 7305.19.1030, 7305.19.1060, 7305.19.5000, 7305.31.4000, 7305.31.6010,

7305.31.6090, 7305.39.1000 and 7305.39.5000. While the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.

Appendix II

List of Topics Discussed in the Preliminary Decision Memorandum

- I. Summary
- II. Background
- III. Period of Investigation
- IV. Scope Comments
- V. Application of Facts Available and Use of Adverse Inference
 - A. Application of Facts Available
 - B. Application of Facts Available With an Adverse Inference
 - C. Preliminary Estimated Weighted-Average Dumping Margin Based on Adverse Facts Available
 - D. Corroboration of Secondary Information
- VI. All-Others Rate
- VII. Adjustments to Cash Deposit Rates for Export Subsidies
- VIII. Conclusion

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Institute of Standards and Technology (NIST).

Title: Manufacturing Extension Partnership Management Information Reporting.

OMB Control Number: 0693–0032.

Form Number(s): None.

Type of Request: Revision and extension of an approved information collection.

Number of Respondents: 51.

Average Hours per Response: 20 Hours for Quarterly Review, 4 Hours for Semi-Annual Review, 30 hours for the Annual Review; 80 hours for Panel Review.

Burden Hours: 5,508 hours for quarterly, semi-annual and annual Review; and 1,360 hours for Panel Review.

Needs and Uses: NIST MEP offers technical and business solutions to small- and medium-sized manufacturers to improve their productivity, improve profitability, and enhance their economic competitiveness. This is a major program which links all 50 states and Puerto Rico and the manufacturers through more than 400 affiliated MEP

Centers and Field Offices. NIST MEP has many legislative and contractual requirements for collecting data and information from the MEP Centers. This information is used for the following purposes: (1) Program Accountability, (2) Reports to Stakeholders, (3) Continuous Improvement; and (4) Identification of Distinctive Practices.

Affected Public: Business or other for-profit organizations.

Frequency: Quarterly, Semi-Annual, and Annual Reporting.

Respondent's Obligation: Required to obtain or retain benefits.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395–5806.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer.

National Institute of Standards and Technology

Announcing Request for Nominations for Lightweight Cryptographic Algorithms

AGENCY: National Institute of Standards and Technology (NIST), Commerce.

ACTION: Notice.

SUMMARY: This notice solicits nominations from any interested party for candidate algorithms to be considered for lightweight cryptographic standards. The submission requirements and the minimum acceptability requirements of a “complete and proper” candidate algorithm submission, as well as the evaluation criteria that will be used to appraise the candidate algorithms, can be found on the NIST Computer Security Resource Center website at: <https://csrc.nist.gov/Projects/Lightweight-Cryptography>.

DATES: Proposals must be received on or before February 25, 2019. Further details are available at <https://csrc.nist.gov/Projects/Lightweight-Cryptography>.

ADDRESSES: Algorithm submission packages should be sent to Dr. Kerry
