Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

Total Annual Cost: \$450,000.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: In this collection, the Commission adopted new licensing, service, and technical rules under Part 30 of the Commission's Rules for the 24.25–24.45 GHz and 24.75–25.25 GHz bands (collectively, 24 GHz band), the 27.5–28.35 GHz band (28 GHz band), the 38.6–40 GHz band (39 GHz band), the 37–38.6 GHz band (37 GHz band), the 47.2–48.2 GHz band (47 GHz band). Therefore, the Commission expanded the scope of the rules to include additional bands. In turn, since the rules now apply in additional bands, the number of respondents, the annual number of responses, annual burden hours and annual costs will increase for this collection. The Commission also authorizes unlicensed use in the 64–71 GHz band under Part 15. In so doing, the Commission created a consistent framework across all of the bands that can serve as a template for additional bands in the future.

The rules adopted by the Commission, in FCC 17–152 and FCC 18–73 revise the previously approved information collection relating to Section 25.136 of the Commission's Rules. The Commission added the 24 GHz band and the 47 GHz band (47.2–48.2 GHz) to the bands that are subject to the framework for sharing between

the Upper Microwave Flexible Use Service (UMFUS) and the Fixed-Satellite Service (FSS) established in that rule. In addition, the Commission modified the sharing criteria between UMFUS and FSS to facilitate deployment of FSS earth stations in smaller markets and decrease the possibility of conflicts between UMFUS and FSS.

Section 25.136—This rule contains both a third-party coordination requirement and a filing requirement. Both requirements are necessary to ensure that Fixed Satellite Service earth stations can receive interference protection without having an undue impact on terrestrial deployment.
