POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

At MicroPact's secure facility, the information is stored in a database contained on a separate database server behind the application server serving the data. Paper records are stored in the records room and in file cabinets.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Electronic records contained in the case e-filing/case management system may be retrieved by any of the data items listed under ''Categories of Records in the System,'' including docket number, inspection number, any part of a representative's name or the case name, and user. Paper records may be retrieved manually by docket number or case name.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Under Records Disposition Schedule N1–455–90–1, paper case files may be destroyed 20 years after a case closes. Under Records Disposition Schedule N1–455–11–2, electronic records pertaining to those paper case files may be deleted when no longer needed for the conduct of current business.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Electronic records contained in the e-filing/case management system are safeguarded as follows. Data going across the internet is encrypted using SSL encryption. Every system is password protected. MicroPact, which stores the data in a private cloud within an Oracle Database, operates its own datacenter that is protected by physical security measures. Only authorized MicroPact employees who have both physical key and key card access to the datacenter can physically access the sites where data is stored. Only authorized and vetted MicroPact employees have access to the servers containing any PII.

The access of parties and their representatives to electronic records in the system is limited to active files pertaining to cases in which the parties are named, or the representatives have entered appearances. The access of OSHRC employees is limited to personnel having a need for access to perform their official functions and is additionally restricted through password identification procedures.

Paper records are maintained in a records room that can only be accessed using a smartcard or a key. Some paper records are also maintained in file cabinets. During duty hours, these records are under surveillance of personnel charged with their custody, and after duty hours, the records are secured behind locked doors. Access to the cabinets is limited to personnel having a need for access to perform their official functions.
