

communities on federal lands (the Tongass National Forest comprises almost 80% of southeast Alaska); as well as Alaska and Tongass National Forest-specific statutory considerations (e.g., Alaska National Interest Lands Conservation Act (ANILCA), Tongass Timber Reform Act (TTRA)).

The Department and Forest Service believe that current timber harvest and road construction/reconstruction restrictions can be adjusted for the Tongass National Forest in a manner that meaningfully addresses local economic and development concerns while balancing roadless area conservation needs.

The State of Alaska believes that roadless conservation interests for the Tongass National Forest can be adequately protected under the Tongass Land Management Plan and that the 2001 Roadless Rule prohibitions are unnecessary. In addition, the State believes application of the 2001 Roadless Rule substantially impacts the social and economic fabric of southeast Alaska and violates ANILCA and TTRA.

In response to the State's petition, commercial and non-profit organizations have expressed strong opinions, for and against, the idea of a regulatory review.

Proposed Action

The Department proposes to develop a durable and long-lasting regulation for the conservation and management of roadless areas on the Tongass National Forest. The state-specific roadless rule would establish a land classification system designed to conserve roadless area characteristics on the Tongass National Forest while accommodating timber harvesting and road construction/reconstruction activities that are determined to be needed for forest management, economic development opportunities, and the exercise of valid existing rights or other non-discretionary legal authorities.

Alternatives to the Proposed Action

The other alternatives being considered at this time are the no-action alternative, which is the continuation of current management of the Tongass National Forest in Alaska in accordance with the 2001 Roadless Rule, and an alternative that would exempt the Tongass National Forest from the provisions of that 2001 Roadless Rule, but leave current management under the 2001 Roadless Rule in place on the Chugach National Forest.

Cooperating Agencies

The State of Alaska will participate as a cooperating agency in the preparation

of the EIS. Federally recognized Tribes within the Tongass National Forest have been invited to participate as a cooperating agency.

Responsible Official

The Responsible Official for the rulemaking and EIS is the Secretary of Agriculture or his designee.

Decision To Be Made

The Responsible Official will determine appropriate management direction for roadless areas within the State of Alaska, including appropriate exceptions to address essential infrastructure, timber, energy, mining, access, and transportation systems necessary to further Alaska's economic development interests, while at the same time conserving roadless areas in Alaska for generations to come.

Scoping Process

This Notice of Intent initiates the scoping process in compliance with the National Environmental Policy Act and its implementing regulations (40 CFR part 1500–1508). As part of the scoping period, the Forest Service, on behalf of the Department, solicits public comment on the nature and scope of the environmental, social, and economic issues related to Alaska-specific rulemaking that should be analyzed in depth in the Draft EIS.

Comments collected during scoping of the Alaska-specific rulemaking will be used to refine the proposed action, define the scope of the analysis, and develop alternatives to the proposed action if needed. Public meetings are planned to be held in Juneau (September 13, 2018), Ketchikan (September 17, 2018), Hoonah (September 17, 2018), Craig (September 18, 2018), Angoon (September 18, 2018), Point Baker/Port Protection (September 19, 2018), Wrangell (September 24, 2018), Sitka (September 24, 2018), Petersburg (September 25, 2018), Yakutat (September 25, 2018), Kake (September 26, 2018), and Anchorage (September 26, 2018), and Washington DC (date to be determined). Additional information on meeting times and locations will be provided through the project website and local media.

Estimated Timeline

The Draft EIS and proposed rule are estimated to be released in early summer 2019. The Final EIS is estimated to be released in spring 2020, with a final rule expected in June 2020.

Dated: August 24, 2018.
