SUPPLEMENTARY INFORMATION: ONRR publishes a list of market centers for use in Federal oil valuation calculations under 30 CFR 1206.112. This regulation applies to payors who are applying adjustments and transportation allowances when Federal oil production is valued using NYMEX prices or ANS spot prices. Under § 1206.113, ONRR will monitor market activity and, if necessary, add to or modify the list of market centers. ONRR last published the list of market centers in the **Federal Register** on June 20, 2000 (65 FR 38299). Under § 1206.113, ONRR will consider the following factors and conditions in specifying market centers:

1. Points where ONRR-approved publications publish prices useful for index purposes;
2. Markets served;
3. Input from Industry and others knowledgeable in crude oil marketing and transportation;
4. Simplification; and
5. Other relevant matters.

ONRR is seeking comments on its proposal to modify the list of market centers and the oil types at each location as listed below:

Market center location	Oil types

Nederland, Texas	Southern Green Canyon.
Clovelly, Louisiana	Thunder Horse.

For supplementary information on these proposed market center locations, please visit <https://www.onrr.gov/Valuation/pdffdocs/Crude-Oil-Market-Centers-Map.pdf>.

Before making this proposal final, ONRR seeks comments. We are especially interested in comments from Industry and others knowledgeable in crude oil marketing and transportation that addresses the following issues: (1) Whether ONRR should reconsider the proposed new market centers based on the five factors specified in § 1206.113; (2) whether ONRR should reconsider removing the market centers proposed for removal based on the five factors specified in § 1206.113; (3) whether ONRR should reconsider modifying or removing the market centers proposed to remain unchanged based on the five factors specified in § 1206.113; and (4) whether ONRR should consider adding any other market centers based on the five factors specified in § 1206.113.

ONRR will post all comments, including names and addresses of respondents at <http://www.regulations.gov>. We will include or summarize each comment when finalizing any modifications to the market centers list. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Bureau of Ocean Energy Management

[Docket No. BOEM-2015-0068]

Environmental Impact Statement on the Liberty Development and Production Plan in the Beaufort Sea Planning Area

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of availability of the Final Environmental Impact Statement.

SUMMARY: The Bureau of Ocean Energy Management (BOEM) is announcing the availability of the Final Environmental Impact Statement (FEIS) for the Liberty Development and Production Plan (DPP) in the Beaufort Sea Planning Area. The FEIS analyzes the potential environmental impacts of the proposed action described in the Liberty DPP and reasonable alternatives to the proposed action.

ADDRESSES: Electronic copies of the FEIS and associated information is available on BOEM's website at: <https://www.boem.gov/liberty>.

FOR FURTHER INFORMATION CONTACT:

Lauren Boldrick, Project Manager, Bureau of Ocean Energy Management, Alaska OCS Region, 3801 Centerpoint Drive, Suite 500, Anchorage, Alaska 99503, 907-334-5200.

SUPPLEMENTARY INFORMATION: The proposed action would recover and process oil from the Liberty oil field and transport sales-quality oil to market. To accomplish this, Hilcorp Alaska LLC would construct the Liberty Drilling and Production Island (LDPI) to recover reserves from three Federal leases (OCS-Y-1585, OCS-Y-1650, and OCS-Y-1886) in Foggy Island Bay of the Beaufort Sea. The ocean bottom footprint of the proposed LDPI is approximately 24 acres. Hilcorp would construct a new pipeline linking the LDPI to the Badami Sales Oil Pipeline (Badami pipeline). They would bury the subsea portion (approximately 5.6 miles) of the pipeline along a route running south from the LPDI to the Alaska coastline west of the Kadleroshilik River. The pipeline would transition to above-ground for approximately 1.5 miles and tie into the existing Badami pipeline. Hilcorp would produce and process oil from the LDPI, transport it through the Badami pipeline to the existing common carrier pipeline system, and from there on to the Trans-Alaska Pipeline System.

The full text of the mitigation measures which will be included in the project approval are available in the Liberty DPP FEIS. The FEIS and associated information is available on BOEM's website at: <https://www.boem.gov/liberty>.

Authority: This Notice of Availability is published pursuant to regulations (40 CFR part 1506) implementing the provisions of the National Environmental Policy Act (NEPA) of 1969, as amended (42 U.S.C. 4321 *et seq.*).
