Manager on the projected domestic and foreign economic effects of all acquisitions, conversions, and disposals involving the stockpile and related material research and development projects. Public comments are an important element of the Committee's market impact review process.

#### SUPPLEMENTARY INFORMATION:

##### Background

Under the authority of the Strategic and Critical Materials Stock Piling Revision Act of 1979, as amended (the Stock Piling Act) (50 U.S.C. 98 *et seq.*), the Department of Defense's Defense Logistics Agency (DLA), as National Defense Stockpile Manager, maintains a stockpile of strategic and critical materials to supply the military, industrial, and essential civilian needs of the United States for national defense. Section 9(b)(2)(G)(ii) of the Stock Piling Act (50 U.S.C. 98h(b)(2)(H)(ii)) authorizes the National Defense Stockpile Manager to fund material research and development projects to develop new materials for the stockpile.

Section 3314 of the Fiscal Year (FY) 1993 National Defense Authorization Act (NDAA) (50 U.S.C. 98h-1) formally established a Market Impact Committee (the Committee) to "advise the National Defense Stockpile Manager on the projected domestic and foreign economic effects of all acquisitions and disposals of materials from the stockpile. . . ." The Committee must also balance market impact concerns

with the statutory requirement to protect the U.S. Government against avoidable loss.

The Committee is comprised of representatives from the Departments of Commerce, State, Agriculture, Defense, Energy, Interior, the Treasury, and Homeland Security, and is co-chaired by the Departments of Commerce and State. The FY 1993 NDAA directs the Committee to consult with industry representatives that produce, process, or consume the materials stored in or of interest to the National Defense Stockpile Manager.

As the National Defense Stockpile Manager, the DLA must produce an Annual Materials Plan proposing the maximum quantity of each listed material that may be acquired, disposed of, upgraded, converted, recovered, or sold by the DLA in a particular fiscal year. In Attachment 1, the DLA lists the quantities and types of activity (potential disposals, potential acquisitions, potential conversions (upgrade, rotation, reprocessing, etc.) or potential recovery from government sources) associated with each material in its proposed FY 2020 Annual Materials Plan ("AMP"). The quantities listed in Attachment 1 are not acquisition, disposal, upgrade, conversion, recovery, reprocessing, or sales target quantities, but rather a statement of the proposed maximum quantity of each listed material that may be acquired, disposed of, upgraded, converted, recovered, or sold in a particular fiscal year by the DLA, as noted. The quantity of each material that will actually be acquired or offered for sale will depend on the market for the material at the time of the acquisition or offering, as well as on the quantity of each material approved for acquisition, disposal, conversion (upgrade, rotation, reprocessing, etc.), or recovery by Congress.

The Committee is seeking public comments on the potential market impact associated with the proposed FY 2020 AMP as enumerated in Attachment 1. Public comments are an important element of the Committee's market impact review process.

#### Submission of Comments

The Committee requests that interested parties provide written comments, supporting data and documentation, and any other relevant information on the potential market impact of the quantities associated with the proposed FY 2020 AMP. All comments must be submitted to the addresses indicated in this notice. All comments submitted through email must include the phrase "Market Impact

Committee Notice of Inquiry” in the subject line.

The Committee encourages interested persons who wish to comment to do so at the earliest possible time. The period for submission of comments will close on October 11, 2018. The Committee will consider all comments received before the close of the comment period. Comments received after the end of the comment period will be considered, if possible, but their consideration cannot be assured.

All comments submitted in response to this notice will be made a matter of

public record and will be available for public inspection and copying. Anyone submitting business confidential information should clearly identify the business confidential portion of the submission and also provide a non-confidential submission that can be placed in the public record. The Committee will seek to protect such information to the extent permitted by law.

The Office of Administration, Bureau of Industry and Security, U.S. Department of Commerce, displays public comments on the BIS Freedom of

Information Act (FOIA) website at <https://efoia.bis.doc.gov/>. This office does not maintain a separate public inspection facility. If you have technical difficulties accessing this website, please call BIS’s Office of Administration at (202) 482–1900 for assistance.

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

In the Proclamation of August 29, President Trump directed that as soon

as practicable, the Secretary of Commerce shall issue procedures for requests for exclusions described in clause 2 to allow for exclusion requests for countries subject to quantitative limitations. The U.S. Department of Commerce will create an exclusion process for clause 2 by posting the newly created form on the Commerce website. Requesters will complete this form and send the form, the required certification, and any needed attachments to the U.S. Department of Commerce at the email address [steel232-exp@bis.doc.gov](mailto:steel232-exp@bis.doc.gov). The posting of this exclusion procedure on the Commerce website will fulfill the Presidential directive included in the most recent Proclamation, as well as the earlier Proclamations that directed the Secretary of Commerce to create an exclusion process to ensure users of steel in the United States would continue to have access to the steel that they may need.

“The Secretary shall, on an expedited basis, grant relief from the quantitative limitation set forth in Proclamation 9740 and Proclamation 9759 and their accompanying annexes for any steel article where (i) the party requesting relief entered into a written contract for production and shipment of such steel article before March 8, 2018; (ii) such contract specifies the quantity of such steel article that is to be produced and shipped to the United States consistent with a schedule contained in such contract; (iii) such steel article is to be used to construct a facility in the United States and such steel article cannot be procured from a supplier in the United States to meet the delivery schedule and specifications contained in such contract.”

**II. Method of Collection**

Exclusion requests described in the procedures posted on the Commerce website for clause 2 exclusion from the Proclamation of August 29 will be

submitted to the U.S. Department of Commerce by email. All exclusion requests under clause 2 must be in electronic form, but may be submitted at any time. However, exclusion requests requested under clause 2 if granted will only be valid till March 31, 2019. All submissions for exclusion requests are entirely voluntary.
