COMMODITY FUTURES TRADING COMMISSION

Renewal of the Global Markets Advisory Committee

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice of Global Markets Advisory Committee renewal.

SUMMARY: The Commodity Futures Trading Commission (Commission) is publishing this notice to announce the renewal of the Global Markets Advisory Committee (GMAC). The Commission has determined that the renewal of the GMAC is necessary and in the public's interest, and the Commission has consulted with the General Services Administration's Committee Management Secretariat regarding the GMAC's renewal.

FOR FURTHER INFORMATION CONTACT: Andrea Musalem, GMAC Designated Field Officer, at 202-418-5167 or amusalem@cftc.gov.

SUPPLEMENTARY INFORMATION: The GMAC's objectives and scope of activities are to conduct public meetings, and to submit reports and recommendations on matters of public concern to the exchanges, firms, market users, and the Commission regarding the regulatory challenges of a global marketplace, which reflect the increasing interconnectedness of markets and the multinational nature of business. The GMAC will help the Commission determine how it can avoid unnecessary regulatory or operational impediments to global business while still preserving core protections for customers and other market participants. The GMAC will also make recommendations for appropriate international standards for regulating futures, swaps, options, and derivatives markets, as well as intermediaries.

Additionally, the GMAC will assist the Commission in assessing the impact on U.S. markets and firms of the Commission's international efforts and the initiatives of foreign regulators and market authorities. The GMAC will also assist with identifying methods to improve both domestic and international regulatory structures while continuing to allow U.S. markets and firms to remain competitive in the global market.

The GMAC will operate for two years from the date of renewal unless the Commission directs that the GMAC terminate on an earlier date. A copy of the GMAC renewal charter has been filed with the Commission; the Senate Committee on Agriculture, Nutrition and Forestry; the House Committee on Agriculture; the Library of Congress; and the General Services Administration's Committee Management Secretariat. A copy of the renewal charter will be posted on the Commission's website at <http://www.cftc.gov>.

Dated: September 10, 2018.

Robert Sidman,

Deputy Secretary of the Commission.

Department of the Army, Corps of Engineers

Policy and Procedural Guidance for Processing Requests To Alter US Army Corps of Engineers Civil Works Projects

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice.

SUMMARY: The US Army Corps of Engineers (USACE) has issued Engineer Circular (EC) 1165-2-220, Policy and Procedural Guidance for Processing Requests to Alter US Army Corps of Engineers Civil Works Projects Pursuant to Section 408. This agency policy document provides the policies and procedures related to how USACE will process certain requests by others to alter a USACE Civil Works project under Section 14 of the Rivers and Harbors Act of 1899 (more commonly referred to as Section 408). The draft version of this EC was made available for public comment from February 5, 2018 to April 6, 2018. USACE reviewed and considered all comments received, and revised the EC to reflect those comments to the maximum extent possible. The final EC is available on the USACE publications website (<http://www.publications.usace.army.mil/>) and via hyperlink on the USACE Section 408 website (<http://www.usace.army.mil/Missions/Civil-Works/Section408/>). The EC is effective beginning September 10, 2018.

DATES: The EC is applicable beginning September 10, 2018.

FOR FURTHER INFORMATION CONTACT: Ms. Tammy Conforti at 202-761-4649, email HQ-Section408@usace.army.mil, or visit <http://www.usace.army.mil/Missions/Civil-Works/Section408/>.

SUPPLEMENTARY INFORMATION: Section 14 of the Rivers and Harbors Act of 1899, as amended, and codified in 33 U.S.C. 408 (Section 408) provides that the Secretary of the Army may, upon the recommendation of the Chief of Engineers, grant permission to other entities for the permanent or temporary alteration or use of any USACE Civil Works project. This requires a determination by the Secretary that the requested alteration will not be

injurious to the public interest and will not impair the usefulness of the USACE project.

The draft version of this EC was made available for public comment from February 5, 2018 to April 6, 2018 (see 83 FR 5075). The comments received on the draft EC are posted at www.regulations.gov in docket number COE-2018-0003.

USACE published Engineer Circular (EC) 1165-2-220, Policy and Procedural Guidance for Processing Requests to Alter US Army Corps of Engineers Civil Works Projects Pursuant to 33 U.S.C. 408, to update processes related to how USACE will review certain requests by others to alter a USACE Civil Works project. For example, other entities may want to alter a Civil Works project to increase recreational opportunities; improve flood risk management; or construct a road, transmission line, or pipeline. The purpose of the Section 408 review is to ensure that the Congressionally-authorized purpose and benefits of the Civil Works project are protected and maintained (e.g., flood risk management, navigation, coastal storm damage reduction) and to ensure that what is being proposed is not injurious to the public interest. An effective and efficient review of proposed alterations to Civil Works projects protects taxpayer investments in water resources infrastructure, while ensuring compatibility with new infrastructure or improvements.

Process improvements include greater delegation of decisions; introduction of a multi-phased review option for incremental reviews; timelines for written notifications; and procedures to better align and integrate Section 408 with certain reviews conducted by USACE's Regulatory Program. Note, the Section 408 database described in the EC is undergoing testing and will not be available for use by USACE until late calendar year 2018.

EC 1165-2-220 expires two years from issuance, which provides USACE time consider implementation experience to identify any necessary clarifications or changes. After two years, EC 1165-2-220 will either be revised, rescinded, or converted to an Engineer Regulation, which does not expire. Feedback on implementation of EC 1165-2-220 may be sent to HQ-Section408@usace.army.mil.

Dated: September 5, 2018.

James C. Dalton,

Director of Civil Works.
