OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

[Docket Number USTR-2018-0032]

Procedures To Consider Requests for Exclusion of Particular Products From the Additional Action Pursuant to Section 301: China's Acts, Policies, and Practices Related to Technology Transfer, Intellectual Property, and Innovation

AGENCY: Office of the United States Trade Representative.

ACTION: Notice and request for comments.

SUMMARY: In a notice published on August 16, 2018 (83 FR 40823), the U.S. Trade Representative (Trade Representative) determined to take an additional action in the Section 301 investigation of China's acts, policies, and practices related to technology transfer, intellectual property, and innovation. The August 16 notice also announced that the Trade Representative would establish a process by which U.S. stakeholders may request that particular products classified within a tariff subheading covered by the additional action be excluded from the additional duties. This notice sets out the specific procedures and criteria related to requests for product exclusions, and opens up a docket for the receipt of exclusion requests.

DATES: USTR must receive all requests to exclude a particular product by December 18, 2018. Responses to a request for exclusion of a particular product are due 14 days after the request is posted in docket number USTR-2018-0032 on www.regulations.gov. Any replies to

responses to an exclusion request are due the later of 7 days after the close of the 14 day response period, or 7 days after the posting of a response.

ADDRESSES: USTR strongly prefers electronic submissions made through the Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting requests for exclusion, responses to requests, and replies to responses in section B below. The docket number is USTR-2018-0032.

FOR FURTHER INFORMATION CONTACT: For questions about the product exclusion process, contact Assistant General Counsels Megan Grimball or Philip Butler, or Director of Industrial Goods Justin Hoffmann at (202) 395-5725. For questions on customs classification or implementation of additional duties, contact traderemedy@cbp.dhs.gov.

SUPPLEMENTARY INFORMATION:

A. Background

On August 18, 2017, the Office of the U.S. Trade Representative (USTR) initiated an investigation into certain acts, policies, and practices of the Government of China related to technology transfer, intellectual property, and innovation (82 FR 40213).

In a notice published on April 6, 2018 (83 FR 14906), the Trade Representative announced a determination that the acts, policies, and practices of the Government of China covered in the investigation are unreasonable or discriminatory and burden or restrict U.S. commerce. The April 6 notice also invited public comment on a proposed action in the investigation, in the form of an additional 25 percent *ad valorem* duty on products from China classified in a list of 1,333 tariff subheadings, with an annual trade value of approximately \$50 billion.

After review, the Trade Representative determined to take an initial action in the investigation, and to consider an additional proposed action. See 83 FR 28710 (June 20, 2018). The Trade Representative narrowed the proposed list in the April 6 notice to 818 tariff subheadings, with an approximate annual trade value of \$34 billion. This initial action became effective on July 6, 2018. The additional proposed action was an additional *ad valorem* duty of 25 percent on products of China classified in 284 tariff subheadings, with an annual trade value of approximately \$16 billion, as set forth in Annex C to the June 20 notice.

After review, the Trade Representative determined to impose additional duties on 279 tariff subheadings, with an annual trade value

of approximately \$16 billion. See 83 FR 40823 (August 16, 2018). The additional duties on these products took effect on August 23, 2018.

During the notice and comment process, a number of interested persons asserted that specific products within a particular tariff subheading only were available from China, that the imposition of additional duties on the specific products would cause severe economic harm to a U.S. interest, and that the specific products were not strategically important or related to the "Made in China 2025" program. In light of such concerns, the Trade Representative determined to establish a process by which U.S. stakeholders may request that particular products classified within a covered HTSUS subheading be excluded from the additional action. That process is set out in the remainder of this notice.

B. Procedures To Request the Exclusion of Particular Products

USTR invites interested persons, including trade associations, to submit requests for exclusion from the additional duties of a particular product classified within an HTSUS subheading set out in Annex A of the notice published at 83 FR 40823 (August 16, 2018). As explained in more detail below, each request specifically must identify a particular product, and provide supporting data and the rationale for the requested exclusion. USTR will evaluate each request on a case-by-case basis, taking into account whether the exclusion would undermine the objective of the Section 301 investigation. Any exclusion will be effective starting from the August 23, 2018 effective date of the additional duties, and extending for one year after the publication of the exclusion determination in the **Federal Register**. In other words, an exclusion, if granted, will apply retroactively to the August 23 date of the imposition of the additional duties. USTR will periodically announce decisions on pending requests.

1. Requests for Exclusion of Particular Products

With regard to product identification, any request for exclusion must include the following information:

- Identification of the particular product in terms of the physical characteristics (e.g., dimensions, material composition, or other characteristics) that distinguish it from other products within the covered 8-digit subheading. USTR will not consider requests that identify the product at issue in terms of the identity
